

Notice to Subscribers.
Our collector will call upon those indebted to this Office for the amounts due; with we trust they will be prepared to liquidate their accounts. Many are indebted for one year and upwards, and as we have bills to meet this month for new type and other office material, they will oblige us by paying without delay.

The Standard.

ST. ANDREWS, AUG. 23, 1865.

THE CABLE.—We are happy to notice that strong hopes are entertained of recovering the lost end of the Atlantic Cable—that the present cable is the best manufactured—and that all concerned unite in expressing the opinion that the Great Eastern can carry and lay an Atlantic telegraph cable in any weather. It is also stated in the London Times' correspondent, Mr. Russell's account, which is a most graphic and interesting narrative—"that the fault in the cable occurred in the same watch as the previous one."

A hurried visit to St. Stephen the other day, was sufficient to convince us that the spirit of enterprise is largely predominant in that locality. We have no wish to trench upon the province of their local paper, or we could enumerate the many local improvements which have been made since our former visit, and those now in progress. On every side there are evidences of thrift, enterprise, and public spirit. The buildings public and private are a credit to the County; the unsightly old wooden houses on the corner of Water and King Streets have been removed, and a handsome brick edifice of three storeys is in course of erection by R. Watson Esq., which, when completed, will, with the addition of the large three storey brick stores adjoining, also owned by him, add materially to the appearance of that part of the town where they are situated. G. N. Lindsay, Esq., and others are also erecting costly dwellings and stores—but we must not anticipate, as the Advocate has the subject in hand, and will no doubt give a more correct and glowing picture than we could. As we intend to take a "tramp" over the branch Railway shortly, the only reference to it is—that the work on the line is progressing.

THE CHOLERA.—The Press of St. John in view of the rapid spread of the dreadful scourge the Cholera, (which has made its way from the East to Gibraltar and it is even reported a few cases have occurred in England) are urging upon the Board of Health and the Common Council, to have the City properly cleansed, and all nuisances removed. The Shamblers near the City are in such a filthy state, that Dr. Bayard says that fresh meat if exposed there for three or four hours, would be unfit for human food!

It would be advisable for the authorities in this Town to see to it that a thorough examination is made—that the yards and premises are kept clean, and that all public nuisances are removed. There are some one or two places which require their prompt attention.

The Editor of the St. John "Morning Journal" who is at present in Canada, has written a lengthy and able letter which is published in last Friday's issue. The first part gives a sketch of his passage &c.,—the following paragraphs are divided under the headings of—politics and political news—business transactions—the mission to England, important documents—defence. It will well repay a perusal.

The "Northern Post" is the title of a paper recently started in Miramichi. It is published Semi-weekly by P. Miller, Esq., who is editor and proprietor; its motto—"for the public," the general interest; and from the tone of its editorials we are safe in saying that its editor advocates the common weal of his County and the Province generally. We should like to receive the paper regularly; and it is needless to add our wishes are for its prosperity.

HUTCHINSON'S DIRECTORY, a large volume of 1139 pages has been handed to us by the agent, Mr. McAlpin. It has been beautifully printed at the publishing establishment of Mr. J. Lovell, Montreal, and contains in addition to other matter a complete directory for New Brunswick. The list of officials in each County is given; in one or two instances we notice a trivial omission. Taken altogether it is a reliable work, and is deserving of a wide circulation.

TO CORRESPONDENTS.—The letter of "an Inhabitant" upon the necessity of applying to the Legislature for an Act to establish a Police Force in the Town of St. Andrews, was

received too late for insertion to-day. Letters intended for publication should be sent at the latest, on Tuesday Morning.

The return of the Hon. S. L. Tilley somewhat sooner than was anticipated has given rise to some speculation among politicians. Mr. Tilley is at present unconnected with politics, but having held so prominent a position recently, and possessing great natural abilities, his movements are watched with an interest which his opponents watch with a jealous eye. Were he not a statesman and a patriot he might visit Europe and return when it suited him, without calling forth comments.

JOHN ORDWAY, Esq., of the large and wealthy firm of Ordway, Tibbitts & Co., of Boston has been in town for the last few days. Mr. Ordway is a native of St. Andrews, and like some others who removed to the States, amassed a handsome fortune in the wholesale dry goods business. His numerous friends here were much pleased to see him.

It appears that there is a well grounded doubt as to the appointment of a "certain individual," at St. Stephen to the bench of Magistrates; notwithstanding the canvass that has been made for him. The "Advocate" labors under a misapprehension if it supposes that there was any desire on our part to induce it to "retract one single word of accusation uttered or printed." It will not change its tactics nor retract anything—it lives for a better purpose—"to advocate the rights of the people of Charlotte County," and in urging the appointment of a Justice for the town of St. Stephen, before whom civil causes and criminal matters might be tried, it proves the correctness of its position. The Advocate will now surely know what is meant by "a trial justice." To pass a "compliment on the Justice of St. Andrews" would be as uncalled for as it would be uncourteous. We have trial Justices in town, and do not require any addition to them; but from the "Advocate's" statement it is evident that five or six thousand inhabitants in St. Stephen and vicinity are without such officers. It is not unlikely that one or two qualified persons will be selected by the member from that locality, and his recommendation receive attention from the Government. To give names is not necessary, provided the statements are correct as we are led to believe they are.

Comparative Statement of Revenue Collected at St. Andrews during the Quarter ended 31st July 1865.

| | 1864 | 1865. |
|---------------------|-----------|-----------|
| Railway Impost | £487 00 | 324 40 |
| Imports | 3369 87 | 3937 47 |
| Exports | 678 06 | 553 19 |
| Bay of Fundy Lights | 167 95 | 116 40 |
| Sick & D. S. | 121 38 | 94 21 |
| Cape Race Light | 2 99 | 1 38 |
| Buoy & Beacon | 59 18 | 65 53 |
| | \$4886 44 | \$5140 58 |

Increase 1865 \$254 14.

From the "Journal's" leading article on "the position of the Government," we copy the following paragraph:—

We have a new Administrator of the Government: it remains for him to decide whether the people of New Brunswick are properly represented in the Assembly as at present constituted. The friends of the Government are congratulating themselves on the departure of Governor Gordon, feeling satisfied that they can now secure the whole sale dismissal of public officials whose only crime is that they voted as they believed to be right, and that they believed as the majority of Provincialists now believe, as four fifths of all Colonists believe, as nine tenths of the people of England and all the leading English statesmen believe, and as Her Majesty the Queen believes. Before General Doyle consents to assist in carrying out the views of men who claim to differ from the great mass of British subjects, we hope he will give the people, for whom those men assume to speak, an opportunity of dealing with them at the Polls.

THE APPROACH OF THE ASIATIC CHOLERA TO ENGLAND and its actual presence among the inmates of a workhouse, has excited some attention. "It has been exceedingly destructive in India, and made havoc at Alexandria and Constantinople. It will probably, make its accustomed tour; and we may have a visit from it in Halifax. It is true that it seems to have lost much of its old virulence—as if to that extent it had exhausted itself—and medical men can deal better with it. But it is still destructive, and when it comes it sends many to their last account, who might live for many years usefully among us. It is better that the sanitary precautions, which for the rest decency and cleanliness require, should be taken in time. It may be that many of those who now carelessly disregard those words of warning will go to the grave for their folly."—Halifax Colonist.

—A returned soldier in Missouri stabbed his mother with a Bowie knife, and was killed by his brother.

FROM THE STATES.

Boston, 19th Aug. 1865.

The Herald's Washington despatch says that the opinion is confidently expressed that the Government will not undertake the trial of Wertz, but cause him to give States' evidence in the approaching trial of Jeff. Davis, whereby it will be proved that Davis was the direct and prime instigator of the cruelties to Union prisoners.

Major Caselman and Lieut. Munford, rebel spies arrested last night, have been paroled to leave the country and never return.

The property of Hager & Lunding, of Richmond has been libelled for confiscation. They are immensely rich, and did the entire bank note engraving for the rebels.

There are no new developments in the Ketchum forgery. The forger has not been traced. There is a strong belief that he is yet in the city. The Importers' and Traders' National Bank offer a reward of \$3,000 for his arrest.

Aug. 21.

Belgian passed Father Point yesterday with dates to the 11th.

Queen Victoria and the junior members of the Royal Family had arrived at Antwerp whence they proceeded to visit the King of the Belgians.

A terrible tragedy had occurred in London, a man took three children to lodge temporarily at a coffee house, and murdered them in their beds by suffocation. The murderer escaped.

In England, nothing had been heard from the Great Eastern.

A meeting of the Atlantic Telegraph Company had been held at which it was resolved to complete the present Cable and construct and lay another.

The new Parliament has been further adjourned nominally until the first of November.

Liverpool Journal of Commerce has memorialized Postmaster General to have the Cunard Steamer sail on Fridays instead of Saturdays.

Bullion in Bank of England had decreased £234,000.

Consols for money 89½ & 89½.

Weather unfavorable and breadstuffs advancing, wheat 3d. a 4d. higher, flour 6½ a 7s. higher.

Reports prevail of potato disease in Ireland.

Provisions firm, pork 2s. 6d. higher bacon 1s. higher.

American news this morning unimportant.

Gold 144½.

Aug. 22.

Henry Wirtz, the keeper of the Andersonville prison, was yesterday arraigned before the military commission in Washington, on charges of having combined and conspired with Robert E. Lee, James A. Seddon, Northrup, and others, to injure the health and destroy the lives of Union soldiers in Southern prisons, and also with murder, in violation of the laws and customs of war.

The specifications allege most cruel practices, such as starvation, vaccination with impure matter, furnishing rotten food, and employing blood hounds.

Several warehouses in South and Water streets, stored with teas, coffee, and other goods, were destroyed by fire yesterday.

Loss estimated at half a million.

Gold—144.

WONDERFUL INVENTION.—The London Court Journal says, a machine has just been invented that will destroy with the rapidity of lightning vessels of war covered with the strongest armor-plates. The motive power is electricity and the remarkable part of the invention is that it is not necessary for the enemy's vessels to come in contact with the machine, but at a great distance the vessel is destroyed in an instant, iron being a most convenient medium for the transmission of electricity.

AN IRON FOR FARMERS.—Mr John Watson, of Ayr, sowed on his farm nine acres of a kind of wheat known as the "Amber Midge proof," using 14 bushels of seed, the product of which has just threshed out, and found to amount to 24½ bushels—being an average of 24 bushels to the acre. The wheat is very fair—so good that Mr. Watson has been offered \$1 per bushel for it, for milling purposes.—[Galt Reporter.]

ITEMS.

—The Canadian Government have announced that the Public Departments of Canada will be removed to Ottawa as soon as possible, after the present session.

—The receipts on the Nova Scotia Railway for July show an increase of \$1,419 98, as compared with the corresponding month of 1864.

—The Charlottetown papers announce, with many marks of grief, the death in that city of J. H. Sherman, Esq., at the age of 63 years. He had been American Consul in P. E. Island for a long time, and appears to have been highly respected by the people of the Island. He was a native of Vermont.

—A Texas letter says: "We want not only farmers but mechanics of all kinds. We want rough labor, skilled labor, educated labor, human labor, horse labor, and machine labor. A genial climate and productive soil invite occupation. Now is the time to come and 'make yourself at home.'"

—Mr. Benjamin, the rebel Secretary of State, is in Paris, and intends to make his future home in Australia.

—Messrs. Small & Fisher have put in operation a new Iron Foundry at Woodstock.

Wheeler's American Circus is soon to visit

Maine. It is the only one travelling this season.

We understand that John McAdam, Esq., of St. Stephen, in connection with Mr. Geo. Debeck, is about erecting a new mill on the site of the one destroyed by fire at Esol River.—[So says the Sentinel.]

The programme of the Canadian Government contains the following proposition:—"That a meeting of Delegates from the British North American Provinces, under the Presidency of the Governor General, entitled 'Confederate Council to advise on Treaties of Commerce' takes place in Quebec next month with the view of arranging for united action in regard to the Reciprocity Treaty."

—The Steamers are yet running on the upper St. John. It has been an unusually favorable season for steam navigation on the rivers.

Bowdoin College has given to the world R. W. Lorgefellow, Nathaniel Hawthorne, Wm. P. Brewster, Geo. Evans, Sargent S. Prentiss, Governor Andrew, Prof. Stone, Gen. Howard, Chamberlain, and scores of others who have been and still are, prominent members of the world of letters, the army, the pulpit, the bar, and the halls of legislation.

—Rev. J. C. Fletcher writes from Brazil in answer to inquiries, that emigrants to that country can purchase lands in the most southern and cooler provinces at 44 cents an acre. Sugar, cotton, tobacco and coffee can be raised there. Two of the provinces he names are well adapted to the raising of cattle and sheep.

—A Southern paper gives its readers the following advice: "Accept the situation as you find it. Don't pause to fret. Move on. Keep up with the times. We hope for much from Southern climate. Southern nature, Southern brains. Progress is the watchword now. Power lies in the metal of the plowshare, and the true Southern independence relies upon Southern exertions upon the field—not of battle, but of waving grain and cotton bolls."

A few days ago, a man at work in the harvest field near Northville, N. Y., suddenly dropped dead. The coroner was called, and on examining the body, found in his pockets one thousand dollars in cash, two gold watches and two silver ones, besides a certificate of deposit for eight hundred dollars more.

The man, carrying all this property about his person, was at work by the day.

—The extensive burglary recently committed in Portland, Me., seems to show that a regular combination of scoundrels has been formed all over the country, to rob and plunder whenever an opportunity is afforded them.

A couple of good detective men would be useful here at present.—[Journal.]

—While noting the return of Mr. Tilley one of the Halifax papers says:—"The very decided revulsion of sentiment that is taking place in the sister Province has much to do it is thought, with Mr. Tilley's rather unexpected return, as it was expected he would have spent the Autumn on the continent."

—It will surprise many people to learn that St. John eats 50 head of cattle and sheep in a day. What carnivorous people they must be.

DIED.

On Monday, the 14th inst. Sarah, youngest child of Patrick and Anastasia McGloin, aged 8 months and one week.

Ship News.

PORT OF ST. ANDREWS.

ARRIVED.

Aug 17, Schr W. P. Ritchie, Futey, Eastport, ballast.

Albert, Bradford, Boston, Boards.

19, Ellen, Norton, Elizabethport, Lumber, Murchie & Son.

Matilda, Stinson, St. Stephen, Oil & Co, H. C. Barnard.

21, Greyhound, Landick, Pembroke, Fortunate, Long, Boston, Boards.

W. P. Ritchie, Futey, New York, deals &c.

22, Ann Leonard, Penny, Deer Island, ballast master.

CARD.

The Ladies of ALL SAINTS' CHURCH offering their sincere thanks to the Gentlemen of the Managing Committee, and through them to all those who so kindly assisted in the arrangements of theazaar, cheerfully giving their time and trouble, and aiding them in carrying out the work so successfully.

St. Andrews, August 23.

DR. F. INNS, Surgeon Dentist.

Respectfully tenders his thanks for the patronage received on a former visit, and begs to inform the Public that he has taken rooms at Pheasant's Railroad Hotel, where he will remain for one or two weeks, for the purpose of inserting Artificial Teeth on gold or silver plate or vulcanite rubber. He will also insert artificial Palates, and roofing to the mouth.

Strict attention paid to filling and cleansing teeth. Extracting done with the most approved instruments with the least possible pain.

All operations warranted to give satisfaction or no pay required.

St. Andrews, August 23, 1865.

LONDON PHOENIX FIRE INSURANCE COMPANY.

Established in 1793.

CAPITAL £2,000,000 STERLING.

Office—Lombard Street and Charing Cross.

This Company will effect insurance on as favorable terms as the nature of the risk will admit.

Agents at St. John N. B., J. W. WELCH, Esq., Office Wiggins Brick Building, Sub-Agent at St. Andrews, R. R. STEVENSON, Esq., Office—King Street, opposite Record Office, St. Andrews, August 23, 1865.

IN COLACIL.—11th Aug. 1865.

ORDERED, That the Registration Fee imposed on Letters by Part VII, Sections 2 and 3, of the Post Office Regulations, approved by the Governor in Council, and issued in 1862, be reduced from ten cents to five cents in addition to postage, when prepaid, and from twenty cents to ten cents in addition to postage, on unpaid Letters.

Money Letters.

Registration.

The attention of the public is directed to the foregoing Order in Council, reducing the Post Office Fee on Registered Letters, passed with a view to encourage the registration of Letters, containing Money or articles of value, as the best means, (when the Money Order System is not resorted to,) of securing the safe transmission and delivery of such Letters.

Although Registration is not an absolute guarantee or protection against fraud, it affords the means of tracing the Letter through each Office to its actual delivery, and cannot be suppressed without leaving the Officer into whose hands it has been traced individually accountable for its disposal. The use of wax in addition to adhesive envelopes upon such Letters, is suggested as an additional security against the abstraction of the contents.

Registration applies to all Letters in indiscriminate, whether containing value or not.

W. H. ODELL, POSTMASTER GENERAL, Post Office Department, Fredericton, N. B., August 16, 1865 & Aug. 23, 1865.
