2. That the instrument to be used for testing all imported refined Petroleum shall be the "Coal Oil Hydrometer," made by Charles Potter, Toronto, Ontario, and all such Petroleum as will not stand the first test of 100 degrees, as required by section 2 of chapter 15, of 24 Victoria, when used according to the instructions accompanying the same, shall be dealt with as may be ordered by the Minister of Customs in each case.
3. That every package of Imported Refined Petroleum, inspected as before provided, shall be legally marked or stamped in a such manner as the Minister of Customs may direct.
4. That no imported refined Petroleum, which will not stand the said test, whether designated as "Coal Oil," "Naphtha," "Benzine," "Paraffine," or other oil or fluid, distilled, manufactured or produced by any process or treatment whatever, shall be admitted twenty for consumption or Warehouse in Canada, unless the Importer shall have produced a license from a Collector or other proper Officer of Inland Revenue, authorizing him to import and keep the same on hand.
