SESSION OF 1881-82.

The Fifteenth Session will commence at the Halifax Medical College on Thursday, the 27th of October, 1881. The regular order of lectures will begin on Monday, the 31st of October, and will be continued during the six months following. The public opening exercises will be held some days later.

REGISTRATION.—All Students are required at the beginning of the Session, or as soon afterwards as possible, to register their names with the Registrar, Dr. J. F. Black, or in his absence with the Assistant Registrar, Dr. A. Lawson. The time fixed for closing the Register is the 30th of November in each year.

CLASS FEES, &c.—All arrangements regarding Classes, Fees, &c., are to be made with the Registrar. All fees are payable in advance. The Registrar will furnish a receipt at time of payment, which entitles to attendance upon Lectures. Class tickets are not issued until the close of the Session.

SESSIONAL EXAMINATIONS.—Sessional Examinations will be held twice during the Session, viz.: before the Christmas Vacation and at the close of the Session, attendance upon them being compulsory.

DEGREE EXAMINATIONS.—The division of the Examination for Degree into Preliminary and Final, having been found to be most advantageous to students, is adopted by this Faculty. In case of students commencing their studies after present date, the regulations regarding time of passing degree examinations as set forth in Section 12 of Regulations for Degree in Medicine and Surgery, will be strictly enforced.

While the College regulations permit a student to graduate after three years' attendance upon Lectures, provided he furnish proof that he has studied one year before attending Lectures with a private practitioner, yet he is recommended to devote four years to systematic instruction, as less time is scarcely sufficient to acquire a fair knowledge of the many subjects which compose the curriculum.

It is very desirable that all students should as far as possible be in attendance at the date of opening of the Session, as otherwise they are placed at much disadvantage.
