PLANNING NOW FOR BIG EXPO.

A most enthusiastic meeting of the executive of the St. John Exhibition Association was held last evening when plans were formulated for the Dominion show in 1910. The show in general was discussed at some length and a number of changes and improvements were also brought to the attention of the meeting. The executive anticipate a great demand for space and privileges at the big show and it is contemplated to make St. John's Dominion show the greatest ever held in Eastern Canada. Preparatory plans will be pushed forward as rapidly as possible. Last evening's meeting was held in the offices of the association, Sears' building, King street. Secretary John F. Gleason was again found at his desk. A. O. Skinner was the chair and those present included Richard O'Brien, T. H. Estabrook, C. B. Allen, R. R. Patchell and W. F. Burdett. It was announced that the federal government grant of \$50,000 would be received by St. John for 1910. The meeting then proceeded to an open discussion of the plans for the big exposition. Keen interest prevailed throughout the proceedings. A committee consisting of Richard O'Brien and T. H. Estabrook was appointed to name the directors to serve on the various committees for the big show. The latter will include finance, building, grounds, exhibits, amusements and advertising. Discussion also took place concerning the advisability of holding a "home comers' week." The co-operation of all concerns and exhibitors, both provincial and local, could be secured to make the week a magnificent success. As previously announced the Dominion show will be opened with elaborate ceremonies on Labor Day, September, 1910. The question of the improvements to the grounds and buildings also occupied the attention of the executive. The meeting last evening, The Bar-

Elaborate Preparations Being Made for Excursion to Grosse Isle

Preparations are steadily advancing for the excursion of the Elberian Knights to Grosse Isle, Quebec, in August. Doubtless hundreds will attend from the province. The unveiling of the handsome A. O. H. monument will take place on Sunday, August 15. The ceremony will be a most impressive one and thousands of persons from all parts of America are expected to attend. Through the kindness of John C. Ferguson, president of No. 1 Division A. O. H., a Sun reporter was shown last evening a photograph of the monument. It is a beautiful piece of statuary and costs \$2,000. The site of the monument, which is 150 feet square, has been granted to the A. O. H. by an order-in-council. An altar will be erected on the island for the purpose of having solemn benediction. The unveiling and the elaborate programme will make the day a memorable one. Upon the completion of the unveiling a public demonstration will be held. Several eminent Canadian orators will deliver addresses. The height of the Celtic cross will be 46 feet 6 inches, erected on an eminence of 150 feet above the level of the river. The height of the cross itself will be 30 feet 6 inches. The width of the arms of the cross will be 10 feet. There will be some splendid inscriptions upon the monument in Gaelic, French and English. The monument is being erected to mark the last resting place of the thousands who were attacked with the plague on their way to this country. The event is attracting widespread interest. The United States will be represented by a large delegation, including many national officers. The local division is planning to conduct a monster moonlight excursion on the St. John river on Thursday, July 15. Several of the beauty spots of the "Rhine of America" will be visited. The steamer Elaine has been chartered and a highly enjoyable evening is anticipated. In all sections of the city keen interest is being manifested over the excursion. An orchestra has been engaged and excellent music will be furnished for dancing. It is the intention that an Irish bagpipe player will also be aboard the boat to furnish Irish airs. Refreshments will be served under the direction of Fred J. McInerney.

PLANS COMPLETED FOR PLAYGROUND OPENING

Plans have been completed for the opening of the Centennial playground on Monday next. The committee in charge anticipate a large attendance during the summer months. The closing of the schools today will find hundreds of children eagerly awaiting the opening of the gates. Under the supervision of the playground committee it is hoped to make the attractions on the grounds meet the wishes of the children. Already steps are being taken to secure the necessary equipment. Superintendent McInerney expects a busy season. The swings, testers, rings and croquet will shortly be placed. The basketball and other games will also again be found. It is not planned to hold any special opening of the playground this season. Miss Nina Robertson will be the chief supervisor and will have Miss Buchanan as chief assistant. Lessons will be given the children in basket work, sewing, weaving and other useful things. The playground committee is confronted with a serious obstacle this year in the absence of sufficient finances. To overcome the difficulty public should give a hearty response to any appeal for assistance.

NICHOLAS TO PLAY PART OF PATRIOT

Orders Winter Palace Prepared for Imperial Family. St. Petersburg Advises are to the Effect That the Czar Has at Last Picked Up Courage.

ST. PETERSBURG, June 29--The

Czar has at last taken a decisive step and ordered the Winter Palace here to be prepared for the imperial family's residence after his foreign tour and is five years since the Winter Palace was handed over to the exclusive use of court officials, and a considerable portion of the population of the capital have suffered heavily in the wake of the abandonment of the palaces and among the ruling families, whose social programme is modelled upon that of the imperial court. It is probable that the new Sultan of Turkey will be the first sovereign to visit the Czar at the Winter Palace after its reoccupation, for Nicholas intends to pay an official visit to Constantinople to greet the new regime. All news from the court party at Peterhof now points to the Czar attempting to adopt the active role of a patriot and peace-maker, in which he will make his grandiose debut at the Potava celebrations two weeks hence.

A CURIOUS TOMB.

One of the most curious tombs in the United Kingdom is in the County of Wexford. In it is laid the body of one of that curious body--the Resurrectionists. One portion of the tomb is a furnished chamber, with a table and a chair. On the table will be found at any time a dainty meal of considerable dimensions, with a fowl, a ham, a leg of mutton, and the necessary drinkables. The departed Resurrectionist provides for his will that this meal shall be laid each fortnight, and if the meal is untouched in the meantime, it shall be given to the poor and fresh meat laid. So far the meal has been untouched, though early rumors spread round the district from time to time that in spirit form the gentleman has appeared and has enjoyed his meal. Curious stories are told of poor people to whom the ham or the leg of mutton has been given being awakened in the night by strange rappings on their doors and windows and even by demands in a grim voice for a portion of the food which has been distributed. As a consequence, and probably to be the practice to consume the food immediately it is brought home. It is the only way to counteract the envy of the spirit, with whom apparently hunger is constantly present.

FLOODS IN VENICE.

Horace Fletcher, the apostle of thick-chews to the mouthful, has established in the East Side of New York a "chewing kindergarten." "Ignorance of right chewing," said Mr. Fletcher the other day, "is responsible for too much bad health. I am trying to dispel this ignorance. But it is dense-as dense as the Oshkosh tourists whom I met in Paris. "The tourist and I, in the lounge of the hotel, discussed our journeys. "And I," I said, "am off to Venice tomorrow. "Venice!" he cried. "Say, don't go there, anyway. The whole place is flooded. You've got to boat through all the principal streets."
