MONTREAL ELEVATORS.

MONTREAL. March 18.—A syndicate head-ed by Capt. Walvin cf Duluth, today made an offer to the harbor commissioners to juild' grain elevators in Montreal harbor, replacing the Conners syndicate, whose ef-forts have apparently come to naught. The idea is to bring grain in the largest lake capacity boats to the port of Colborne, thence transhipping to steamers of full capa-city of the St. Lawrence canals. The harbor board is asked to guarantee the bonds on the cost of the elevators in Montreal, taking the buildings as security. An answer is to be given Saturday and will probably be favor-able.

NEW STEEL CORPORATION.

NEW YORK, March 13, —It was reported in Wall street today that the capital stock of the new United States steel corporation will probably be increased by \$100,000,000 and that this increase was made necessary by reason of the acquisition of the Rockefeller iron mines and properties in the Lake Superior Statist

district. It was also reported that part of the in-creased capital of the U.S. steel corporation would be used to take over the property of the American Bridge Co. This is one of the corporations financed by J.P. Morgan & Co. The Bridge company has \$61,000,000 of stock outstanding.

LADIES IN MEXICO. Undone By Coffee Poisoning.

Down in the City of Mexico, in the country that raises its own coffee, they have plenty of stomach trouble and ervous headaches brought on by coffee drinking.

A lady writing from there says, "I have used coffee for a long time and was inordinately fond of it. At any was time I would cheerfully have given up all the balance of my meal if necessary in order that I might have the coffee but I acquired a wretched, muddy, blotchy complexion, had prolonged attacks of excruciating nervous head-aches, was troubled with insomnia, and finally complete nervous prostration,

that horror of horrors. I was compelled to give up coffee for it was the poison that worked my un-doing, then I concluded to take on Postum Food Coffee. I did not believe in it and knew I would not like it, for I could not bear to think of anything that was to take the place of my be-

loved coffee. I was driven to despair by illness and willing to try most anything to obtain relief. Imagine my surprise when I made Postum Screal Cof-fee according to directions and liked it as well as any coffee I ever drank. So the problem was solved. I be-gan to improve in health, could sleep well nights, my headaches disappeared. and I kept gaining in flesh, until I went from 118 pounds to 150, and I am now perfectly well and feel so. Cape Breton is offering on the Boston market 30,000 shares of 7 per cent preferred stock, par value \$100, at \$85 share. The company announces that his year it expects to obtain a bounty from the Canadian government of \$70,000; \$2,075,000 in 1902; \$1,850,000 in

1903, and so on. The officers of the Dominion Coal Co, here announce that the output at the Cape Breton mines for this month will reach 150,000 tons, as compared with 85,000 tons in March, 1900. This

increase is due to the demands from the Dominion Iron and Steel Co. The New England Gas and Coke Co. at

ready to proceed. The trial will prob-

ably last one week. The evidence against Best is wholly circumstantial but the district attorney thinks he has a strong case and will convict him. Best and Bailey were employed by a land owner to take care of a farm and dairy. They lived in the same house at North Saugus, and employed a

housekeeper. One day last October Bailey disappeared, and nearly one week later his dismembered body was found in Floating Bridge pond, some distance from the farm. Balley had evidently been shot and cut up with an axe. Suspicion fell on Best, as it was known the two were not good. friends. Best was a drinking man, and had plenty of funds after Bailey's

disappearance, whereas the latter's money was missing, and Best was not known to have possessed any large amount before. The burning of certain articles by Best and other suscious incidents strengthened the case gainst him. The state department at Washing-
