Splendid Weather land a Splendid Display.

The Attendance is Smashing All Previous Records - Everybody Delighted.

While the weather was anything bu favorable for exhibition purposes Monday, the day proved a most success ful one, thousands viewing the splendid show and enjoying the many and diverse attractions offered for the amusement and instruction of all.

During the morning all exhibits that had not been thoroughly completed were rounded in shape, and by the time the rush commenced, shortly after noon, everything from the gate to the extreme end of the stock yards was in full swing and in splendid working

Between one and two o'clock the ticket sellers and gate men got a sam ple of what was in store for them, and as hour after hour passed they agreed that it was truly a labor day.

In the building, on the grounds, and in fact everywhere the scene was a most interesting one, and as the crowd rapidly increased, the interest' seen ow until the afternoon crowd was ented by the evening throng.

Labor Day of 1992, though wet and foggy, will be one of the banner days of the big show.

The arrival of the labor parade wa the first big attraction of the day. Shortly before two o'clock the large gates near the Machinery Hall entrance, for some time natied up, were sawed and torn apart, and the procession moved into the grounds, lining up in the enclosure in front of the grand stand. The cart horses were first judged, and while preparations were being made for the sports an interesting feature of the day took place viz., the presentation of a gold-headed to Ald. McGoldrick and a gold-headed cane to Wm. Keefe, president of the Bar Tenders' Union. The presentation was made by Wm. Coates, president of the Trades and Labor Council, who took occasion on behalf of the council to express the appreciation of the efforts of these gentlemen to make the labor parade a success. Both recipients expressed their full appreciation of the honor, and took a strong stand in support of labor organization

The sports followed, but the arrange ments were so unsatisfactory and the weather so unfit that a postponement was declared after the events had taken place.

The results of the postponed sports as far as they went were: 100 yards dash-McDermott, S. L. U.

AMUSEMENT HALL.

This building is naturally one of the features and most attractive spots in the whole show, and was successfully opened yesterday afternoon a few minutes after the regular advertised hour. The programme was carried out as stated in yesterday's Sun, except that Miss Gilbert did not take part. This talented cornet player will be on hand tuday. The show is a very pleasing and creditable one; in fact, far above the average vandaville entertainments

BIG CATTLE EXHIBIT.

"The cattle exhibit" is one of the best, if not the best, ever seen here," Senator Ferguson yesterday, umber, variety and quality." Se ator Ferguson, John Ferguson, E. R. Brow and D. McMillan are the Island cattle exhibitors. Every stall in the sheds is occupied and a carload of cattle have just arrived. The associadiscover a place in which to put them. Thirteen car loads arrived from Amherst, shipped by W. W. Black, F. S. Black, Logan Bros., F. W. Thompson Edward Baker and H. S. Pipes.

A calf was born down in the sheds yesterday, thus adding to the number of the exhibit and probably jumping its entrance fee. Such a prudent animal ought to be given some recognition by the judges. All the mornin the owners were busy getting their stock in shape for the coming competition and there was a vigorous use of

soap, water and brushes There is no doubt about the high quality of the exhibit. Every stock man who is present speaks in terms of praise of its quality and quantity Many of the animals are extremely valand a number of them are im ported beasts. The principal exhibit

ors are: Shorthorn-Messrs. Harris. Dickie Fawcett and Archibald. Ayrshires-Messrs. Archibald, Parlee F. Black and Creighton.

Herefords .- W. W. Black. Holsteins.-Logan Bros., and Messrs McKenzie, Dickie and Barton. Galloways.—Senator D. Ferguson. Jerseys.—Messrs. Pipes and Baker.

Guernseys.-E. R. Brow, D. McMillan and Mr. McMonagle. There are, so far, no Polled Angu cattle on exhibition, and Senator Ferguson's herd of Galloways is the only one in competition. This is partly due

to the revision of the prize list in these

S. L. Peters has had charge of Agricultural Hall for many exhibitions, and no one knows more about that department than he. Questioned in regard to the merit of the present exhibit yesterday he said:

It is a remarkably good one, considering the season and the early date of the exhibition. The crops are about three weeks backward this year, and as a result the vegetables displayed are not so well filled out as ordinarily. but despite all these drawbacks the the attractions of the fair.

It is quite evident that Mr. Peters is correct. There is not a mean thing in roots would be called a good one any year, but for this season is is a remarkable one. Kings county leads in potatoes, and O. W. Wetmore of Clifton and B. A. Wetmore of Bloomfield are the men who have brought their county to the front. The potatoes are considered by competent judges to be as fine a lot as were ever shown here both in quantity and quality.

There is a nice lot of grains and in this department, Kings, Queens and Victoria counties are showing quite extensively. B. A. Wetmore of Bloom field has fourteen varieties. The other principal exhibitors are J. H. Mc-Alpine of Queens and Donald Innes of Victoria. Mr. Wetmore says that from present appearances there will be an their being sowed. exceptionally good crop of grain this season.

James S. Irvine of Buctouche and W. W. Doherty of Restigouche are the largest exhibitors of flour, and they make a good showing.

A small but exceptionally fine exhibit of grapes is made by Hedley T. Grosvenor of Meductic. He has the largest grape growing establishment in the lower provinces. It is a fact that is not widely known that there are several grape growers in this pro vince and that their product commands a high price on the market Mr. Grosvenor's grape house is one hundred and twelve feet long and condred square feet of glass. It is heated by hot air from two furnaces. In this by G. S. deForest & Sons; Samue hot house he has sixty-two vines in bearing. There are six different varieties. He finds Hamburgs the best

AN OBJECT LESSON.

Out in Agricultural Hall the dominon commissioners have a prettily appointed object lesson. In a number of glass tubes they show varieties of timothy, alsike and red clover seeds, as they are often and in the pure state The lesson is an obvious and needed one. Further there are shown in jars cimens of the different weed seed which are brought in with the other packages. A large number of pernicious weeds have of late years been mported in this way, and it is the pb ject of the dominion commissioners by means of this object lesson, to ac quaint the farmers with the nature and appearance of the seed of these weeds, and by so doing guard against

E. A. Brice of Montreal, judge of the butter and cheese classes, completed his work yesterday. Mr. Brice was one of the judges at the Pan-American and he said that of thirty-four chees entries all but five lots would be conidered fine at Buffalo. The highes score was 99, and this was followed by 981-2, 981-4 and 98. This shows how close the prize winners were to each other. Marks are awarded on the following basis: Forty-five per cent, for flavor, thirty for body texture, fifteen color and ten for finish. Mr. Brice said the cheese was splendid and compared most tavorably with the best

Ontario product. Concerning the cheese exhibit, J. E Tilley, who is an authority in that department, says that without doubt it the finest ever shown in St. John. Each year the quality appears to be improving, which speaks well for the work of 'he factories.

Creamery butter does not on an average score so high as the cheese Ninety-nine was the highest made, and the second prize was taken at 971-2. Ferrozone is prepared specially for diseases of the stomach and bowels. and as a sure cure for Nervous Dyspepsia has proved itself a thouand times to be superior to all others. Where Ferrozone is taken after each eal, it is impossible for Dyspepsia or Indigestion to exist. It digests the food before it has had time to ferment in the stomach, and by its regular use one is enabled to eat and drink anything at any time, without fear of bad

results. Ferrozone relieves that distressing headache, and burning feeling in the stomach peculiar to dyspensia. It regulates the action of the boweis, kidnevs and liver: strengthens the nerves and makes the sad looking, dejected dyspeptic feel like a new man in

wenty-four hours. The general manager of a Toronto Manufacturing Company who used Ferrozone with very marked results, says: "The strain of conducting a large business brought on a siege of Nervous Indigestion about a year ago, which I endeavored in vain to shake off. Doctors told me only a complete rest would cure me, but not being able to spare the time, I used Ferrozone instead. It perfectly restored my good health in a short time. I have confidence in the merits of Ferrozone, and am pleased to recommend it." What Ferrozone can do for you can boxes for \$1.25. Sent to your address
