GRANT & MORIN

St. George N. B.

Cooks on top of the stove, bakes in oven at same time

You can cook over every pot-hole and bake in Pandora oven at same time—and get perfect results. That's because cooking draft is also baking draft. Heat passes directly under every pot-hole and around oven twice before passing up chimney. No wasted heat—instead fuel does double duty, saving Pandora owners both time and money.

Invaluable to Every Farmer

Its Wonderful Power in Curing Sick Cattle and Colicky Horses Makes "Nerviline" Worth Its Weight in Gold

The stockman or farmer that does not know of the thousand and one uses of "Nerviline" around the stable has a great deal to learn. "Why, I wouldn't think of locking my stable door at night without knowing I had a supply of "Nerviline" on hand." I always get a dozen bottles at a time from my druggist.

- NERVILINE
- CURES
- COLICKY
- HORSES

... \$250 horse that got the scours, and I would have lost him if I had not been able to give him Nerviline. I poured a full bottle of Nerviline in a cup of water down his throat and

arisen as to the aims and objects of the Strathcona Trust. It is with a view to the removal of any grounds for misunderstanding that I am directed to submit the following remarks—

3. As you are aware, Lord Strathcona's in forming the trust is twofold: (1) the improvement of the physical and intellectual capabilities of the children while at school, by means of a proper system of physical training calculated to improve their physical development, and, at the same time, to inculcate habits of alertness, orderliness and prompt and obedient; (2) the fostering of a spirit of patriotism in the boys, leading them to realize that the first duty of a free citizen is to be prepared to defend his country—to which end all boys should, so far as possible, be given an opportunity of acquiring a fair acquaintance, while at school, with Military Drill and rifle shooting.

4. With regard to the first point, the Executive Council deems necessary to require that a Province before it can participate in the benefits of the Trust, should pledge itself to include in the regular curriculum of the schools under its control instruction in Physical training for all children of both sexes attending the same. This requirement appears to be clearly understood by all, and there have been, so far as the Executive Council is aware, no serious objections raised to the universal introduction of a well tested system of Physical Training into all the Public schools of Canada.

5. With regard, however, to the question of Military Drill and rifle practice for boys, a somewhat important misapprehension appears to exist in certain quarters, to the effect that the Strathcona Trust is designed to be used as the vehicle for the introduction of a system of compulsory military training into the Schools of the Dominion. I am directed to state, emphatically, that such is in no wise Lord Strathcona's intention, nor that of the Executive Council of the Trust.

6. As stated above, one of Lord Strathcona's main objects is to inculcate a spirit of patriotism in the youth of this country, together with a realization of their duty as free citizens in its defense, and consequently, their training in the rudiments of a soldier's art is, in his opinion, desirable in order that they may be able to give proper expression to that spirit in time of national danger; but His Lordship does not seek to insist that this military training should be made compulsory. All he asks is that the Government of a Province should undertake to encourage as far as possible, the formation of cadet corps and the practice of rifle shooting in the schools under its control, leaving it to the parents themselves to decide whether their sons should join these corps. The proper military instruction and care of the cadet corps when formed is a matter which falls within the province of the Department of Militia. The Department of Militia, however, asks that Educational authorities will encourage, or, at least, place no obstacle in the way of their teachers becoming officers of their School Cadet Corps.

7. The position may, perhaps, best be summarized by re-stating the general conditions, which the Executive Council of the Trust asks the Education Department of a Province to accept, in order to secure to the schools under its control participation in the benefits of the Trust. It is confidently believed that pursuit of these conditions will show that they cannot fairly be in any way construed as an attempt to introduce a system of compulsory military training into the Schools of Canada.

8. These conditions are as follows—
(a) Physical training to form an integral part of the curriculum in every school; or public educational establishment maintained mainly out of public funds, at which a teacher holding a certificate other than that of the lowest grade is employed.
(b) A certificate of ability to instruct in physical training to form part of every teacher's certificate, other than those of the lowest grade, granted by the Education Department of the Province.

(c) The Education Department to undertake to encourage the formation of cadet corps, including the practice of rifle shooting under suitable conditions by the older boys, in all educational establishments under its control.

(d) The system of physical training adopted to be that in force in the elementary public schools in Great Britain (which has been recently revised in view of the latest developments in Sweden, Switzerland and other countries), with such modifications therein as the local conditions of any Province may show to be necessary.

(e) The Education Department to undertake to require, within a specified period, all teachers who are already in possession of its certificate other than those of the lowest grade to qualify themselves to instruct in physical training (subject to the exemption of such teachers as are physically unable to qualify, or are nearly at the end of their term of service), so that in every school there shall be at least one teacher capable of imparting the necessary instruction.

9. The Militia Department will on its part, aid the Education Department by affording the necessary facilities to the teachers of both sexes to qualify themselves in physical training, by providing instructors until such time as the Provincial Authorities are in a position to undertake this duty themselves.

10. The Militia Department will also afford to the teachers the necessary instruction in military drill required to enable them to become officers of cadet corps under the same advantages so are already allowed to officers of the Active Militia, and will grant certificates of qualification.

11. The Militia Department will also pay the authorized grants to the teachers qualified and acting as instructors of cadet corps, and will supply to these corps such arms and equipments as are needed under the regulations applicable to each case.

12. Sir Frederick Borden confidently hopes, that after consideration of the foregoing explanations, your Government may see its way clear at a very early date to declaring its acceptance of the conditions mentioned in paragraph 8 of this letter, so that teachers and pupils in the Educational Establishments of the Province may be competent to share in the benefits of the Trust.

I have the honour to be, Sir, Your obedient servant,
A. G. LEWIS,
Secretary,
The Executive Council
The Strathcona Trust.

A Christmas Box That is Worth While

When you make a present of a periodical to a friend or a family you are really selecting a companion to influence them for good or ill during a whole year. If the acquaintances of your sons and daughters were to talk to them about as some periodicals talk to them silently, how quickly you would forbid the companionship! In the one case as in the other, the best course is to supplant the injurious with something equally attractive and at the same time "worth while." A food can be wholesome and utterly distasteful. Reading can be made so too. But the Youths Companion not only nourishes the mind, but delights it; just like that ideal human associate whom you would choose. The Youths Companion fills that place now in more than half a million homes. Can you not think of another family in which it is not now known where it would be joyfully welcomed?

If the \$2.00 for the 1910 Volume is sent now, the new Canadian subscriber will be entitled to all the remaining issues of 1909. If desired the publisher will hold these back and send them at Christmas time, together with the Christmas number and the Companion's new "Venetian" Calendar for 1910, lithographed in thirteen colors and gold. THE YOUTH'S COMPANION, Companion Building, Boston, Mass. New Subscriptions Received at this Office.
