

(1). It should be done at stated times. We believe no set system would suit all places. In some churches a weekly, in some a monthly or quarterly, in others a half-yearly donation will do best. Every church may judge what is best suited to them. The point is, give at stated times.

(2). System should characterize the division of our benevolence. Many give only to one object.

This should not be, for every object that we support is worthy, though not equally important; hence each should be remembered according to its relative importance. We are pleased to see evidences of increasing understanding on this subject, and hope all will speedily feel the force of the words, "Freely ye have received, freely give."

Respectfully submitted,

H. N. PARRY, *Chairman.*
