

URGES THE CHURCHES TO TAKE STAND

Equal Suffrage a Question of Justice, and Church Stands for Justice to Every Human Being.

Because equal suffrage is a question of justice, and because the church stands for justice to every human being, Miss Helen N. Bates, President of the Maine Woman Suffrage Association, recently pressed the subject upon the consciences of a large audience in the Biddeford Universalist Church.

"If men would follow the teachings of Jesus, 'Do unto others as you would have them do to you,' they would never deprive women of a right which they would not give up themselves," she said in her address on "The Christian Church and Equal Suffrage." The 20th century church, not a church where people go to worship once a week alone. It is a church that must make the connection between the religious life and the life of the world. Women are the main stay of the churches. Society suffers because it does not have the direct application of the moral and religious zeal of this great body of women.

Miss Bates spoke of Christmas when our thoughts turn to the children as an appropriate time for considering this question. The deepest reason for women's desire for the ballot is that they want to save the little children who are exploited in mine, factory and workshop. She referred to reforms already brought in Illinois since women have had the ballot and reforms in other suffrage states. In closing she quoted Rev. Charles Aked:

"Nothing, since the coming of Christ, ever promised so much for the ultimate good of the human race as the intellectual, moral and political emancipation of women."

NEW YORK-BERMUDA RACE OPEN TO ALL

Aviation Contest in June and July — At Least \$25,000 to be Offered in Prizes.

New York, Mar. 30.—The proposed New York-Bermuda aviation race will be held the latter part of June and early in July, and will be international in character. It was announced tonight by the Aero Club of America.

Prizes amounting to more than \$25,000, possibly twice that amount, are to be offered.

No Social Standing.

"Have you any objection to my marrying you?" asked the girl.

"No," replied Mr. Cumrox. "To be candid, I've taken quite a liking to you."

"Then I may count on you as a friend?"

"I shouldn't do anything like that if it were you," she introduced herself as a friend of mine, mother and the girls will take it for granted that you haven't any social standing whatever."

Scored on Kipling.

Announced by the industry, done to one of his trees by the driver of the local bus, Mr. Kipling wrote a vigorous letter of complaint to the bus-owner, who is also landlord of an inn. The landlord sold the letter for ten shillings in cash. A second and stronger letter followed; and this also found a purchaser, this time at \$1, as befitting its increased violence. Boniface again said nothing. To him next day entered Mr. Kipling, briskly wrathful. "Why didn't I answer your letters, sir? Why, I was hoping you'd send me a fresh one. They pay a deal better than 'bus-driving'!"—Boston Times.

DEATHS.

TUFTS—At her residence, 154 Ludlow street, West End, on March 31st, Margaret Louise Tufts, aged 64 years, leaving 4 sons and 4 daughters to mourn their sad loss. (Boston, Hartford and Chicago papers, please copy.) Notice of funeral hereafter.

Discolored, Wrinkled Skin Easily Renovated

(From the Woman Beautiful.)

Since brown or yellow, over-red or blotchy complexions are decidedly not the fashion, I cannot understand why so many continue to wear them. Surely every woman has heard of melleolized wax. This I know—from my own and others' experience—will positively banish every unsightly tint. The wax really takes off a bad complexion. It gradually, harmlessly, absorbs the thin layer of surface skin with all its defects, as chaps, liver spots, pimples, freckles, blackheads. Just as gradually the discarded skin is replaced by the clear, white, youthful skin underneath. Melleolized wax, procurable at any drug store, is applied nightly like cold cream and erased morning with warm water. One ounce will produce the loveliest girl's complexion in less than a fortnight.

I can't understand, either, why folks will be bothered with wrinkles, since the famous saxolite formula has become public property. One ounce of powdered saxolite dissolved in a half-pint witch hazel, makes a wash lotion that will quickly efface every line, even the deepest.

MUST HAVE THE WRIT SERVED TODAY OR DROP LIBEL CASE

Montreal, Mar. 30.—If Jules Crepeau, second assistant city clerk, wishes to go ahead with his \$25,000 libel action against Edward Beck, he must proceed with the service of the writ tomorrow. Otherwise the writ issued some days ago will be null and void.

Such was the ruling handed down by Mr. Justice Beaudin, one a petition presented today by Mr. Beck, who charged in his weekly that Crepeau had accepted money and promised his influence to obtain contracts.

INTERVENTION IN MEXICO A DISASTER FOR THE U.S.

Continued from page 1.

Referring to the President's failure to specify what foreign relations prompted him to appeal for intervention repeal, the Senator did not hesitate to give "what I feel might have been his reasons." He then entered upon a recital of acts of aggression on the part of the United States, beginning with the taking of the Philippines.

You entered in the Philippines upon a system of colonial government," said the Senator, "and gentlemen who cry 'England' from the other side of this chamber will not overlook that it was the influence of those who controlled in England by which the nation was delivered into the colonial policy of an English form of government."

Taking up the Mexican situation and reviewing the operations of the United States in other lands and the interests in Mexico of England, France, Japan and other nations, Senator Lewis dramatically declared:

"The very first moment we move down into Mexico with a view of executing the Monroe Doctrine against these foreign nations, who have now stationed themselves there upon the theory that we no longer had a right to execute the doctrine because of our past folly, Japan would promptly seize the Philippines. She would then seize Hawaii, and then, in such conditions—our armies in Mexico, the canal not finished, no way to have a jointed of our navy—in what condition would our country be?"

Russia Would Even Up.

"Russia with her grievances, she who sent aid to the Union at a time when it was threatened in discord and disunion, feels that because of English influence the administration in power the last ten years lent its aid to Japan against her. Russia remembering this wrong, now in an offensive and defensive alliance of life and death with Japan would not lose her opportunity. Russia with her grievance now so great that she has no treaty with the United States, would promptly aid in seizing Alaska and the north near by."

"Our navy divided would sail to the frigid sea against the enemy and to the south to protect the Philippine Islands. The army would be divided, part in Mexico and the other part moving to our possessions to protect them. England feeling under these conditions no friendliness to us, we would not seek her alliance on the northern border without friendship and South America already imbued with a feeling that when under the administration of President Roosevelt we performed a Caesarian operation upon Columbia and excised from her the government of Panama, only waits that it may duplicate the performance upon one equally defenceless on the south near the canal; furnishing supplies to the enemy and supporting the assault in what a splendid condition we would stand. Sad, indeed, it is, to contemplate."

Senator Lewis appealed to Congress to trust the President "hoping that we may return to the doctrine of a true party."

In the Senate Senator Owen read into the record a plank of the Baltimore platform denouncing ship subsidy. This, he said, was a flat contradiction of the plank favoring exemption in the Panama Canal and was the expression of Democratic doctrine for many years. He insisted that agents of the coastwise steamship companies "had busied themselves arousing public sentiment and bringing to bear pressure" to get the exemption plank into the platform though not a state convention of any party had favored it.

Senator Owen declared he favored repeal of the navigation laws giving American owned and manned ships a coastwise trade monopoly. Under these laws, he declared, the companies had so divided the traffic among themselves that they extorted improper rates from the shippers.

For Fear of Cuts.

The colonel of a certain regiment, who was very strict with his young officers, was continually inspecting their rooms, to see if everything was tidy. One day he inspected the room of an officer who was noted for his wit. He had nearly finished his inspection, when he noticed a cobweb in one of the corners, and thought to himself, "Now I have got him."

"What does this mean?" asked the colonel.

The young officer coolly replied, "We always keep one, in case a man cuts his finger."
