

proving its appearance; and also for the further improvement of the lot by sodding, planting flowers, and keeping them in order. During the remainder of the year a student from Knox College conducted the Sunday evening services. The average attendance was 177.

Mr. John Smith, who had been elected Superintendent for 1892, having to leave the city early in the year, was succeeded by Mr. R. McRae, who remained with us until the close of next year, when his services were required by Knox Sunday School.

At the annual meeting of the congregation in 1893, a step forward was taken; the Session being authorized to secure a suitable man to work in connection with the Mission, all the year round, and also to act as an assistant to our Pastor. The services of Mr. D. Robertson were secured, and he worked most faithfully, from the early part of the year until January, 1894, when he received and accepted a call to King Street Church, London.

During this year the school was painted and kalsomined, a new Library was obtained, and we now have as comfortable a room as could be desired. Average attendance for 1893 was 197.

A Junior Endeavor Society was organized on December 10th, 1894, with a membership of 37. This Society now has 47 members, and continues to do good work in visiting the sick, distributing flowers to these, and calling on absent scholars. An addition was also made to the Sunday School building which serves the double purpose of kitchen and primary class room. This room has proved a great convenience to the primary class, as more effective work can be done than when the class met in the large room.

On the return to College of Mr. H. A. Macpherson, the work was given into the hands of Mr. J. G. Cheyne, the Superintendent, who was looking forward to the ministry. He worked very energetically until leaving for College last October, since which time the evening services have been provided for by the Session. Twenty-nine scholars have earned prizes for regular attendance during 1895.

We are now entering upon the ninth year of the Mission's history, with Mr. James Stevenson as Superintendent, and although we do not yet know what provision will be made for the welfare of the Mission this year, we trust we will be able to press forward and do greater things for the cause which is dear to the hearts of so many. Average attendance for 1894, 168; for 1895, 150.
