Ottawa, Dec. 1, 1924.

Honourable D.O. L'Esperance,
Quebec, Que.

My dear Senator:

I am enclosing copy of a letter which I have written to the President of the Young Conservative Association of Quebec. I am doing so because I want to have you advised of my view on this matter. I write the President because of his office and because I think the Association of which he is President is interested to help and do practical work. I know you will give co-operation wherever you feel it can be given to advantage.

Have you any idea when you will be down this way? I have written Senator Webster. I am anxious to see you both together.

Yours very truly,
