

Gunner Keeshig the accused whom I recognize was a member of the regiment which I inspected. According to my knowledge it is the duty of the regiment to remain in the guard room when not actually out on post unless they have the permission to leave from the NCO i/c. I then looked through the school where we are quartered to see if the accused was in the building. I did not find him. At approx 2100 hours I went to the guard room as a result of a report to me by the NCO i/c regiment & saw the accused there. He had returned. I put the accused under close arrest. I know of my own knowledge that at this time the accused was undergoing field punishment.

Cross examination. I did not read any orders to the regiment. To the best of my knowledge a copy of standing orders to regiment is posted in the guard room.
