

PAGE	PAGE
Chlorine, acids and oxides of..... 150	Iodine, preparation and properties of 181
" bleaches..... 172	Indestructibility of matter..... 10
" decomposes water..... 173	
" disinfects..... 174	KK
" test for..... 176	Kindling temperature..... 243
Coal..... 159	
Coal-gas..... 156	L
Combination by volume..... 16	Lampblack..... 68
Combustibles and supporters of combustion..... 157	Laughing gas..... 110
Combustion, definition of, ordinary..... 157	Law of Avogadro..... 17
" spontaneous..... 41	" Boyle..... 73
Corks..... 225	" Charles..... 75
Cork borers..... 224	Lead, action of water on..... 138
	" testing for..... 138
D	Lime, caustic..... 88
Definite proportions..... 11	" slaked..... 84
Detection of arsenic..... 209	" water..... 85
Diamond..... 69	Limestone..... 84
Diffusion of gases..... 146	Litmus, solution..... 226
Displacement, collection of gases by..... 51	Luminosity of flame..... 160
Drying gases..... 53	
	M
E	Marsh gas..... 153
Electrolysis of water..... 14	Magnesium, combustion of..... 2
Element, definition of..... 6	" in oxygen..... 35
" number of..... 7	" in carbon dioxide..... 89
Empirical formulae..... 220	Manganese dioxide, manner in which it acts..... 29
Equations, chemical, calculation of..... 71	Mercuric oxide..... 25
Etching on glass..... 183	Molecule, definition of..... 20
Explosion of oxygen and hydrogen..... 51	Multiple proportions, law of..... 115
Experiment, definition of..... 1	
	N
F	Nascent state..... 119
Flame, definition of..... 159	Nitrates, common..... 101
" luminosity of..... 160	" presence of, how detected..... 106
" structure of..... 160	Nitric acid, preparation and properties of..... 102
Fluorine..... 182	Nitrogen, preparation and properties of..... 60
Formulae, empirical, rational, graphic..... 220	Nitrogen monoxide, preparation and properties of..... 167
Free gases exist as molecules..... 119	Nitrogen monoxide, distinguished from oxygen..... 110
Friction matches..... 203	Nitrous acid..... 113
Fuel, composition of..... 159	
	O
G	Olefiant gas, preparation and properties of..... 155
Gas, illuminating..... 156	Order list of chemicals..... 228
Glass, composition of..... 204	" apparatus..... 229
" manipulation of..... 225	Oxygen, preparation..... 25
Graphite..... 69	" supports combustion..... 31
Graphic formulae..... 220	" liquefaction of..... 39
	" precautions in making..... 28
H	Oxides..... 37
Hard water..... 134	Ozone, preparation and properties of..... 42
Hydrogen, preparation and properties of..... 45	
" liquefaction of..... 58	P
" precautions in making..... 53	Phosphorus, preparation and properties of..... 201
" product of combustion..... 54	
" standard of specific gravity..... 19	
" arseniuretted..... 210	
" phosphuretted..... 205	
" sulphuretted..... 196
