

LAND FUND.

The sum of \$20 00, the balance of the Land Fund which remained in Mrs. Dunlop's hands last year, she still holds, in hopes of getting a sufficient sum of money to make a payment to Mr. Allan, on account of the Land.

The Managers of the Boys' Home cannot express too warmly their great obligations to Governor Allan, for materially lessening their expenses by permitting all the clothing of the boys to be made up by the inmates of the Jail; and, besides, all the stockings which are required at the "Home" are knitted there. The Managers also take this opportunity of thanking the Matron of the Jail, for superintending the above work.
