NOVEMBER.—As the cold and chilly season of the year is again upon us, and a long winter is before us, we may hope that all necessary precaution has been taken, and all necessary arrangements made for the warmth and comfort of the cattle. It is shameful to see how careless some farmers are in this respect. Dumb animals cannot reproach their masters with neglect, but their appearance declares their condition, and it is both a blind and cruel policy to let the poor cattle be shivering in the cold and wet or snow. Make good and tight sheds. Feed well and often. Your cattle will thus be comfortable and you will be amply repaid.
