# WASHING MACHINES.

The Subscribers would call particular attention  
to the style of WASHING MACHINES  
which they manufacture.

THEY ARE  
VERY EASILY OPERATED,  
ARE  
LIGHT TO HANDLE,  
USE COMPARATIVELY LITTLE WATER,  
Do their Work well,  
AND ARE CHEAP.

Their manufacture has only been introduced  
into this Island about twelve months  
and they have already attained  
to a BRISK DEMAND.
