The report of the Canada Iron Corporation presented to the shareholders at the second annual meeting yesterday, showed profits of \$375,140 for the year ended May 31st, as compared with \$401,885 the previous year. After meeting interest and other charges a balance of \$46,566 was carried forward to the credit of profit and loss, making the total at credit at the end of the year, \$406,373. Mr. T. J. Drummond (president) explained the somewhat disappointing results as due to the adverse conditions in the United States iron trade, which resulted in large quantities of pig iron being dumped into the Canadian market and sold at sacrifice prices. These shipments have now fallen off, owing to the revival of United States trade, and the corporation has at present on its books orders for a large tonnage of pig iron at remunerative prices. The balance sheet of the Corporation for the year shows total assets of \$15,229,955, compared with \$14,602,765 a year ago.
