of God and the Lamb, whence flows he river of the water of life. It is there, and only there. that thou canst there, and only there, that thou can be be filled with the Spirit. Cultivate carefully the habit of daily, yea, con-tinually honoring Him by the quiet, restful confidence that He is doing His work within. Let faith in His indwelling make thee jealous of what-ever could grieve Him,--the spirit of the world or the actings of self and the flesh. Let that faith seek its nourishment in the Word and all it says of the Spirit, His power, His comfort, and His work. It is faith in Jesus that brings the anointing; the anointing leads to Jesus, and to the abiding in Him alone.

The Moly Spirit was given for this one purpose,-that the glorious re-demption and life in Christ might with Divine power be conveyed and communicated to us. We have the Holy Spirit to make the living Christ, in all His saving power, and in the completeness of His victory over sin, ever present within us. It is this that constitutes Him the Comforter: with Him we need never mourn an absent Christ. Let us therefore, as often as we read, or meditate, or pray in connection with this abiding in Christ, reckon upon it as a settled thing that have the Spirit of God Himself within us, teaching, and guiding, and Let us rejoice in the con working. fidence that we must succeed in our desires, because the Holy Spirit is working all the while with secret but Divine power in the soul that does not hinder Him by its unbelief.

Canning the Early Vegetables

Mrs. M. L. Woelard, Terente. THIS is the day of the man who can." So wrote Carlyle man

But that was yesterday, and to-day is the day of the woman who can. But her cans are, or should be, glass jars filled with the early vege-

On every available signpost placed placards bearing the words in large red letters: "Save Food 01 Starve," and those plain words con vey a message to everyone that the

time has come to act seriously. Last year the canning campaign launched by the Ontario Department of Agriculture. Women's Institutes Branch, proved a boon to many. The instructions were thorough and 0.0 ganization complete in every detail. The Women's Institutes did a splendid work in helping women all over the Province, and the Department 'rovince, and Department were begged by other organizations to send their demonstrators here. there, and everywhere, and the wo-men of the Province were aroused to the great necessity of saving the perishable food.

This year the situation is much more serious, and not one bit of food should be allowed to waste.

should be allowed to waste. We can start now and take care of the early vegetables. By using all we can on the table, we save wheat and meat for overseas. My slogan has al-ways been: "Eat Vegetables and be Healthy," and I will continue to use that slogan.

Canadians have not vegetables in the past, and that really accounts for much of the physical unfitness found in the men examined for overseas-a lack of the sulphur, salts and nitrogen, etc., of which quantities are found in different vegetables. At this season of the year, when our sys-tem requires toning up, we should use more of nature's remedies, such as watercress, rhubarb, lettuce, young onions, in fact all green stuffs, and nothing will stimulate the appetite more than a tempting salad.

It is a well established fact that vegetables are necessary to the human system. We should know more of our fruits and vegetables as therelies health. Many a mother has in said to me: "My family do not care for vegetables, so I never use them." The time has come when everyone must eat them, to save other food.

The canning of vegetables, with the exception of corn, peas, and toma-toes, has not been carried on by the romen in our province to any great extent until within the last two years when almost every variety has been canned. Some women have made a great success of the canning. Others have had failures, but will try again, for our women of Canada are true patriots and know we must save and serve.

We are very apt to leave the canning of the vegetables until later in the season. This will be a great pity, as so much delicious stuff will be missed. Get busy as soon as the first vegetable is ready, and can as many jars as possible. One thing is certain:

We will never return to the factory-canned vegetables-and there is such a difference in price. A small bottle of tomato catsup, holding one cupful a scant one at that, will cost from twenty-five cents to thirty-five cents. You can make eight good cupfuls, wo quarts, for the price of the little

This year we are making a great effort to get the people interested in drying the vegetables and fruits, and much has been printed concerning the dehydration plants in use in the U.S. Every woman can use a rack over her stove and dry any vegetables or fruit. Especially can she have a soup mixture containing such vegetables as onions, parsnips, car rots, potatoes, parsley, having it al-ways ready, just as fresh as the fresh vegetables. Again I say: Eat vegevegetables. Again I sa tables and be healthy. Again I say: Eat vege-

Note .- In our issue of next week Mrs. Woelard will give some practical pointers concerning the canning of various kinds of vegetables.

More Homes Wanted

FEW weeks ago we published A information concerning children for whom homes were de Several of Our Folks got sired. in touch with the inspectors of the Chil dren's Aid Societies who were in search of homes for these children, and we anticipate that good homes were secured

Mr. Geo. Powell, Inspector, Chil dren's Aid Society, Peterboro. Ont advises us that he has three children boys, for whom he is anxious find good homes, preferably in the county of Peterboro. Their ages are Their ages are one year, one between two and three years, and one between five and six Mr. Powell tells us that some years months ago, when we put an an-nouncement in our columns that he wished to secure homes for eight children, the response from Our Folks more than filled his requirements, we trust that these children may also find good homes.

We have advice also from Mr. Hugh Ferguson, Inspector, Children's Aid and Humane Society, Stratford, Ont., who is looking for a home for a boy, and writes us as follows: "We have a pleasing, healthy, promising boy in readiness for a home with a good Roman Catholic family. He is three years of age."

Anyone desiring to secure further particulars concerning these children may do so by communicating with Powell and Mr. Ferguson

Amos Tovel, Inspector, Chil-s Aid Socie'y, Guelph, Ont., s us as fc." ws: "I am very Mr. dren's grateful to you for your assistance. grateful to you for your assistance. Many applications were received as a result of your kind notice in a recent issue of Farm and Dairy. Homes were opened for four of the little were ope and for four of the little boys we had ready for them. The twins, brother and sister, whom we wished to place with a Roman Cath The we wished to place with a formal Catter olic family were not called for and are yet available. Bobby aged five, Billy aged four and Frank aged two, are three brothers. They are desir-able hoys. They need good homes. I hope to send you a photo of these in a few days."
