

Sheep—ewes, \$4.30 to \$4.60; bucks, \$3 to \$3.50; lambs, \$6 to \$6.40.
Hogs—f.o.b., \$8.50 to \$8.75; fed and watered, \$9 a cwt.

In Montreal choice steers are quoted at \$6 to \$6.25; medium, \$5.25 to \$5.50; ordinary quality, \$4.75 to \$5. Calves are selling at prices ranging from \$5 to \$14, sheep, \$3.75 to \$4 a cwt; lambs, \$5.50 to \$6 a cwt.

PETERBORO HOG MARKET
Peterboro, September 6th.—Danish hogs delivered on English market last week totalled 34,000. The demand for bacon in the Old Country is very poor. The delivery of hogs on the local markets is somewhat heavier. The George Matthews Co. quote the following prices for this week's shipment of hogs: f.o.b. country points \$8.65 a cwt.; weighed off cars, \$9 a cwt.; delivered at abattoir, \$8.75 a cwt.

MONTRÉAL HOG MARKET
Montreal, Saturday, September 3.—The local demand for live hogs has been fairly steady this week with a good demand from packers and other buyers, receipts into the city being just sufficient to supply the demand. Prices have been firmly maintained at \$9.25 to \$9.50 per cwt. for selected tons weighed off cars. Dressed hogs are meeting with a good demand, and have been selling freely at \$13 to \$13.25 a cwt. for fresh killed abattoir stock.

EXPORT BUTTER AND CHEESE
Montreal, Saturday, September 3.—The market for cheese this week has been rather firmer than during the previous week. In the country prices have ruled a fraction better. The lowest price paid in Ontario during the week was 10 1/2¢, and sales have been made as high as 10 3/4¢. The bulk of the cheese sold in the country, however, averages 10 1/2¢ to 10 3/4¢ a lb. In some sections colored cheddar commands a premium over white, but there is not the same demand for this class of goods just now, and prices during the coming week should be on a par with the demand from Great Britain has increased considerably during the past few days, and we should see a good demand from now on in view of the fact that we are getting into September, and the offerings in the country will include some September made cheese next week. The disturbing factor in the market is the fact that contracts are now being made for the output of the New Zealand, and the demand for this cheese on the other side are waiting to ascertain the prices to be paid for these cheese before stocking on Canadians to any great extent. The trade consequently is more or less of a hand to mouth character.

The receipts this week were fairly heavy, amounting to almost \$5,000, a decided increase over the corresponding week last year. Reports from various sections of the country indicate a good making going on, fully equal to last year, and there is no doubt that the fall make in Ontario will show up well.

The butter market is very firm, and prices are steadily advancing in the face of the big demand from the home trade, and a little export demand at full prices. The country-to-day prices are expected to rule at about 24¢ a lb. Prices next week in Montreal will probably be advanced to 24 1/2¢.
