Available timber ft., 19,000,000,000
Available pulpwood cords, 300,000,000
Undeveloped water powers h.p., 4,000,000

The Hydro-Electric Commission was formed in 1906 by the Ontario Legislature to undertake the generation and distribution of electrical energy at cost to the Municipalities in Ontario. The Commission now supplies approximately 120 municipalities and operates approximately 2,000 miles of transmission line. The Province has advanced to the Commission \$12,490,712.08.

In the Temiskaming and Northern Ontario Railway the Province has an asset on which has been expended the sum of \$20,483,415.77. The Government Railway of Ontario is operated and directed by a Commission composed of three Commissioners. The main line from North Bay to Cochrane is 252.29 miles in length, with a total mileage of 455.19, including branch lines of 78.31 miles and 111.95 miles of yards and sidings. Subsidiary to the T. & N. O. Ry. is the electrically operated Nipissing Central Railway with a mileage of 12.64. The T. & N. O. is a modern railway of the latest standard of efficiency utilizing all steel trains and modern equipment, connecting Northern Ontario with the older portions of the Province. The T. & N. O. Ry. serves through regions which not only constitute an ideal tourist and sportsman's country, but which are also immensely rich in lumber, mineral and agricultural possibilities.
