The Nutritious Condiment is the only Condiment used in the stables of Her Majesty the Queen.

Certificate from J. Taylor, Esq., M.R.C.V.S., London, Inspector of the Royal Stables. Since ordering the N. B. C. Food Company's Condiment to be used in the Royal Stables and Model Farms we have had no ailments amongst our Cattle. I consider it to be the best Condiment offered to the public, and the only one worthy of their attention.

June 4, 1870. J. TAYLOR, M.R.C.V.S., London.
From Mr. A. W. Alloway, Veterinary Surgeon, Cote St., Montreal, Dec. 15, 1871:

You can use my name as testifying to the genuineness and utility of the Nutritious Condiment for horses and cattle. A. W. ALLOWAY.
From Messrs. Bancroft & Sharpe, Great St. James St.: The information contained in the North British Cattle Food Co.'s Circulars respecting their Condiment is true to the letter. We have it and are satisfied. For horses that have been stall-fed for several seasons it is invaluable; after using it a week or so, they are as fresh as if they had been out at grass all spring. Independent of the saving it effects in our feed, we should continue to use it.

Bancroft & Sharpe, City Express and Livery Stables.
Montreal, Dec. 18, 1871.

From Mr. D. T. Irish, Agent of the National Express Co. and Canadian Express Co., Montreal: The North British Cattle Food Company's Condiment is being used in our stables, and the men inform me the horses relish it, and are much improved under the new regimen.
D. T. Irish, Express Agent.
7 and 9 Place D'Armes, Dec. 18, 1871.

This celebrated Cattle Food is composed of health-giving seeds, herbs and roots, grown for their fattening properties and health-giving qualities. By using it a saving of 20 per cent. is effected on the cost of feeding, and the animals are in better condition. It is not only the best but the cheapest Cattle Food in existence, being at the rate of one cent per feed. All the principal prize cattle at the Royal Agricultural shows held in the Agricultural Hall, Islington, London, at Xmas of 68, 69, 70 and 71, were fed on the Nutritious Condiment. Prize medals awarded to this Condiment at the London Exhibition of 1862 for genuineness and utility.

Manufactured by the North British Cattle Food Company, at Glasgow and London. Depots in Canada:—Montreal, 451 Commissioner's St.; Toronto, 6 Palace St.; Ottawa, Little Sussex St.; The North British Cattle Food Co.'s Manager in Canada, GERALD GORDON.
Lowest wholesale and retail rates forwarded on application to any of the Depots as above.
J. F. LATIMER, Agent,
Dundas St. London.

Address,

JAMES VICK,
Rochester, N. Y.

LAMB & WARREN'S COMBINED PLOUGH & SUBSOIL-ATTACHMENT

Plowing, its Object and How to Accomplish it.—New and Valuable Invention.—A 2-Horse Subsoiler.

THE REAL OBJECT OF PLOWING
It is well known, is not to turn over an immense quantity of soil without disintegration, but rather to change the relative position of the particles. It is a fact well known to every practical and intelligent farmer that Plowing from 5 to 8 inches in depth, year after year, has the effect of closing the pores of the earth, and forms a hard pan under the surface, on which the water either stands in pools until evaporation takes place, or runs off into creeks without filtering into the ground, and thus affords nourishment to the roots of growing plants in the heat of summer. Barrenness of soil and exhaustion of the grain bearing qualities of land are the result of this system of light Plowing. To obviate this difficulty of light Plowing, to get a proper depth of pulverization without entailing the expense of purchasing and working the heavy subsoiling Plows, we have introduced what we call our COMBINED PLOW AND SUBSOIL ATTACHMENT. This can be used on a common Plow, and is composed of an anti-friction wheel placed between the land side and mould board of the Plow, and a Subsoiler formed of two coulters, set into an iron frame immediately in rear of the wheel, and falling from 6 to 8 inches below the bottom of the furrow. The wheel is placed about three-quarters of an inch below the land side of the Plow, and by resting on the furrow lessens the draft on an ordinary Plow about 200 pounds, as has been proved by actual experiment. By this means it makes up for the resistance of the subsoiler, so that the whole is no heavier in draught than an ordinary Plow. The Cultivator teeth which form the subsoiler are placed about the width of the furrow apart, and by so tearing up the earth under the furrow that it is completely pulverized. One grand advantage in these attachments is that they can be used with a common Plow, while by their use a common Plow is made a subsoiler, and yet can be drawn by an ordinary team without more difficulty than is experienced in ordinary plowing.

The great advantage of subsoiling is now fully recognized, and in this country, where the average of dry weather is greater than in Europe, subsoiling is a necessity to good crops. It prevents plants from suffering in dry seasons by enabling their roots to spread in the soil. In wet seasons the pulverization of the soil causes the excess of moisture to pass off below the surface, and in stiff, clayey or other tenacious soils, by the use of the attachment the hard pan or stiff under soil which is formed by repeated plowings to the one depth is opened and pulverized, allowing free circulation to moisture, and a greater radius to the roots.

Those who are now using the Combined Plow and Subsoil Attachment with a common team, can almost say that they have discovered another farm beneath that represented on their map.
Strathroy, Jan. 10th, 1872.—I have tested Lamb & Warren's Subsoil Attachment and Light Draft Plows, and found it to exceed my expectations. My experience as a plowman extends to 40 years, partly in Canada and partly in Scotland. In all that experience, varied as to localities and soils, I have never found anything to equal this simple invention. The Subsoiler is a complete pulverizer, and the Anti-Friction Wheel so great an assistant, that two horses are all that are needed in the stiffest soils. The plow went to a depth of six inches, and the pulverizer six inches below in the trials to which I refer.
JOHN BURNETT.

Strathroy, Jan. 10th, 1872.—I have seen Lamb & Warren's Subsoiler at work, and affirm that I have not a tool in my garden that so effectively pulverizes the earth at the depth of 12 inches.
WILLIAM PHILLIPS, Market Gardener.

We, the undersigned farmers and others have tested Lamb & Warren's Combined Plow and Subsoil Attachment thoroughly, and unhesitatingly pronounce it a perfect success and believe it is destined to be of great benefit to every agriculturist. In recommending it we feel that we are recommending an article that will prove of immense benefit to farmers: Wm. Rapley, D. M. Cameron, S. G. Chamberlain, A. Hilton, Luther Bullard, M. Street, Wm. Chalmers, F. Kittredge, Dr. Bettridge, M. A. M. B., Richard Saul, W. H. Saul, Wm. B. Walker, W. Sellers, Isaac Moore.

RESTORE YOUR SIGHT.

OLD EYES MADE NEW.

All diseases of the Eye successfully treated by

Bull's New Patent Ivory Eye Cups.
Read for yourself and restore your sight. Spectacles and Surgical operations rendered useless. The inestimable blessing of Sight is made perpetual by the use of the new PATENT IMPROVED IVORY EYE CUPS.

Many of our most eminent physicians, oculists, students and divines have had their sight permanently restored for life, and cured of the following diseases:

1. Impaired Vision; 2. Presbyopia, or Far Sightedness; 3. Dimness of Vision, commonly called Blurring; 4. Asthenopia, or Weak Eyes; 5. Epiphora, Running or Watery Eyes; 6. Sore Eyes—especially treated with the Eye Cups—cure guaranteed; 7. Weakness of the Retina, or Optic Nerve; 8. Ophthalmia, or Inflammation of the Eye and its appendages, or imperfect vision from the effects of Inflammation; 9. Photophobia, or Intolerance of Light; 10. Over-worked Eyes; 11. Mydriasis—moving specks or floating bodies before the eyes; 12. Amaurosis, or Obscurity of Vision; 13. Cataracts, Partial Blindness; the loss of sight.

Any one can use the Ivory Eye Cups without the aid of Doctor or Medicine, so as to receive immediate beneficial results and never wear spectacles; or, if using now, to lay them aside forever. We guarantee a cure in every case where the directions are followed, or we will refund the money.

2399 Certificates of Cure.
From honest Farmers, Mechanics, and Merchants, some of them the most eminent leading professional and business men and women of education and refinement, in our country, may be seen at our office.

Under date of March 23, Hon. Horace Greeley, of the New York Tribune, writes: "J. Ball, of our city is a conscientious and responsible man, who is incapable of intentional deception or imposition." Prof. W. Merriek, of Lexington, Ky., wrote April 24th, 1869: "Without my Spectacles I see you this note, after using the Patent Ivory Eye Cups thirteen days, and this morning perused the entire contents of a Daily Newspaper, and all with the unassisted Eye."

Truly am I grateful to your noble invention; may Heaven bless and preserve you. I have been using Spectacles twenty years; I am seventy-one years old. Truly Yours, **PROF. W. MERRICK.**
Rev. Joseph Smith, Malden, Mass., cured of partial Blindness, of 18 years' standing, in one minute, by the Patent Ivory Eye Cups.

E. C. Ellis, late Mayor of Dayton, Ohio, wrote us Nov. 15th, 1869: "I have tested the Patent Ivory Eye Cups, and I am satisfied they are good. I am pleased with them; they are the Greatest Invention of the age."

All persons wishing for full particulars, certificates of cures, prices, &c., will please send your address to us, and we will send our Treatise on the Eye, of 44 pages, free of charge, by return mail.

Write to
DR. J. BALL & CO., P. O. Box 957, No. 91, Liberty Street, NEW YORK.

For the worst cases of Myopia, or Near-Sightedness, use our New Patent Myopia Attachments, which applied to the Ivory Eye Cups, has proved a certain cure for this disease.

Send for pamphlets and certificates—free. Waste no more money by adjusting huge glasses on your nose and disfiguring your face.

Employment for all. Agents wanted for the new Patent Improved Ivory Eye Cups. Just introduced in the market. The success is unparalleled by any other article. All persons out of employment, or those wishing to improve their circumstances, whether gentlemen or ladies, can make a respectable living at this light and easy employment. Hundreds of agents are making from \$5 TO \$20 A DAY. To live agents \$20 a week will be guaranteed. Information furnished free of charge. Send for pamphlet, circulars, and price list. Address
