An Inducement.

The inducement to feed Herbageum is the actual practical profit derived by the feeder by its use. The prize to be striven for is the time and feed saved, and this is ample. A pig fed Herbageum regularly from the first will, at five months, equal other pigs at seven months, and the cost of the Herbageum is considerably less than one cent a day for each pig. This is the inducement, and every man that feeds Herbageum gets the profit. One tablespoonful fed twice daily is sufficient for a horse, cow or full-grown hog; a tablespoonful is sufficient for three calves, sheep or young pigs, and, although Herbageum is harmless, it is never necessary to increase the amount fed. It will do the work, and do it economically.

HOG CHOLERA IN KENT COUNTY.

Hog cholera has broken out again in the corn belt of Ontario. Mr. Alex. McBrayne and Mr. I. Hildreth, of Blenheim, have had their entire droves killed by the inspector. In both Canada and the United States, hog cholera invariably originates in the corn country. The disease undoubtedly begins with acute indigestion. Evidently, there is no cure, but the regular use of Herbageum is a sure preventive. Herbageum simply supplies the hog with what nature intended him to have to aid him in digesting rich and coarse foods. In his wild state, he has free access to all kinds of roots, barks and plants of an aromatic nature. Civilization has deprived him of these, but Herbageum affords a perfect substitute, and wise is the hog owner who uses it regularly.
