

GOSSIP.

W. R. Elliott & Sons, Maple Hill Stock Farm, Guelph, Ont., in ordering a change in their advertisement write: "Our Shorthorns are wintering exceptionally well. Our cows have nearly all calved, and have a very promising lot of youngsters, sired by Wanderer's Star =48585=, and Lucerne (imp.). The latter bull we recently sold to Mr. W. D. Platt, Hamilton."

In the Horse Department of this issue appears a life-like engraving of a Hackney tandem, owned and driven by Mr. A. Yeager, of Simcoe, Ont. Mr. Yeager writes: "The wheeler, Gay Boy 2nd, is rising five years old, sired by Sensation, winning first at Toronto Horse Show after only being broken three months, beating Show Girl and Sporting Duchess, that it was claimed had cost five thousand dollars, and with the reputation of winning at all the leading American shows; also won first at Galt Horse Show, and at the Toronto Exhibition two firsts and a second. The leader, Banker, is also sired by Sensation, and is rising four years old, has never been shown. Bar accidents, he will be a strong candidate for championship honors for 1905."

Messrs. J. & W. Russell, Richmond Hill, Ont., advertise in this paper for sale 14 Scotch-bred Shorthorn bulls. The breeding and reputation of their herd is of the first rank, as is also their prize-winning record, which covers a long period of time and reached its proudest position at the World's Fair at Chicago, when they won the \$600 grand champion prize for the best young herd of any breed, bred by exhibitor; first for four animals, get of one sire; junior championship for bull, one of their own breeding, and many other high-class awards. In 1900 at Toronto, Canada's greatest show, they won six first and four second prizes, including the first herd prize, the champion for best female, the first prize for aged cow, three-year-old cow, for the best four females, bred by exhibitor, and second for three animals, the get of one sire. This herd also produced the great champion bulls, Lord Stanley, Money-fuffel Lad and Topman, the greatest trio ever bred in one herd in America. The herd was founded on imported Scotch-bred females, and represents such noted families as Nonpareils, Miss Ramsdens, Minas, Maids of Promise. The principal sire in service at present is Imp. Stephen Fitz-Forrester, by Stephen Fitz-Lavender, bred by Mr. Deane Willis, and sired by Bapton Javelin, by Count Lavender, of the Sittytown Lavender family, to which belonged Langford Eclipse, sold at the late Thistle Ha' dispersion for \$1,425. Parties looking for thrifty, vigorous young bulls of the best breeding should write Messrs. Russell, or better call and see their stock at the farm, which is convenient to Toronto; the electric railway passing the gate nearly every hour of the day.

CLYDESDALES AND HACKNEYS FOR CANADA.

Mr. Wm. Graham, of Graham Bros., Claremont, Ont., sailed on Jan. 14th, by the Donaldson liner, Kastalia, with a carefully-selected shipment of Clydesdale and Hackney stallions. Mr. Graham had eleven Clydesdales and four Hackneys for himself, and two Thoroughbred stallions for Mr. Robert Davis, Toronto. Amongst the Clydesdales were half a dozen exceptionally good big young horses well-fitted to win at the Canadian or United States fairs. These were got by the celebrated H. and A. S. first-prize horse, Moncreiffe Marquis (9953), the sire of the still unbeaten Clydesdale geldings in the States; the solid, big breeding horse, Up-to-Time, perhaps the most successful sire seen among the sons of Baron's Pride; the Ayr first-prize horse, Woodend Gartly, whose produce in the Stewartry have turned out very well, being both numerous and of selling merit; Airies, a local horse, got by Prince Sturdy (10112); and the H. and A. S. champion horse of 1896, King of the Roses (9927). The others are by well-bred Clydesdale sires, and are sound, well-colored, good-selling horses, which are pretty sure to be in high favor in Canada. Graham Bros. have made four shipments of good horses inside twelve months. This is an indication of the growing demand for Clydesdales on the other side.—[Scottish Farmer.

Nine Nations

Now Use Liquozone. Won't You Try It-Free?

Millions of people, of nine different nations, are constant users of Liquozone. Some are using it to get well; some to keep well. Some to cure germ diseases; some as a tonic. No medicine was ever so widely employed. These users are everywhere; your neighbors and friends are among them. And half the people you meet—wherever you are—know some one whom Liquozone has cured.

If you need help, please ask some of these users what Liquozone does. Don't blindly take medicine for what medicine cannot do. Drugs never kill germs. For your own sake, ask about Liquozone; then let us buy you a full-size bottle to try.

We Paid \$100,000

For the American rights to Liquozone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquozone destroys the cause of any germ disease.

Liquozone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are ex-

hilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquozone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquozone. It is the only way known to kill germs in the body without killing the tissues too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help nature overcome the germs, and such results are indirect and uncertain. Liquozone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.
