QUEENSTON CEMENT

are the cheapest and best.
Read what our customers say:

Kingston, Ont., Aug. 12th, 1903.

Mr. I. Usher, Queenston, Ont.:
In the fall of 1900 I laid stable floors with Portland and Queenston cement gauged in the same proportions with gravel, and find the Queenston barrel will do as much work and is just as durable as the Portland barrel, although I was led to believe by interested parties that this was not true, but am forced to admit the proof in my own stables.
Yours truly, (Sgd.) D. D. ROGERS, ex-M. P.

We have many such testimonials coming to us every day, voluntarily, but space will not allow us to publish them here. Do not be misled by statements from those who sell the goods most profitable to themselves. Write for prices, estimates and full particulars.
