

Farmers' Market Place

CONDUCTED FOR THOSE WHO

Want to Buy, Sell or Exchange

RATE ON CLASSIFIED ADVERTISING

4c Per Word—Per Week

Address all Letters to The Grain Growers' Guide, Winnipeg, Man.

Count each initial as a full word, also count each set of four figures as a full word, as for example: "T. B. White has 2,100 acres for sale" contains eight words. Be sure and sign your name and address. Do not have any answers come to The Guide. The name and address must be counted as part of the ad. and paid for at the same rate. All advertisements must be classified under the heading which applies most closely to the article advertised. No display type or display lines will be allowed in classified ads. All orders for classified advertising must be accompanied by cash. Advertisements for this page must reach us seven days in advance of publication day, which is every Wednesday. Orders for cancellation must also reach us seven days in advance.

After investigation, we believe every advertiser on this page to be reliable. Please advise us if you know otherwise.

Farming for Profit

Continued from Page 8

too early in the spring, or the results
may be serious.

During the winter the bees must not
be touched or handled in any way.

HOGS MUST HAVE A DRY BED

Hogs must have a dry bed, and it is in-
cumbent on every hog raiser to see that
they get one.

Every man who keeps hogs cannot af-
ford to put up expensive houses for them
with a raised platform for the animals
to sleep on, and which can be kept per-
fectly dry, but the big majority of hog
men have abundance of good straw
which they can use with equally bene-
ficial results.

The bedding in the hog houses should
not be left till it gets damp and tramp-
led into the earth, but should be
cleaned out and fresh straw substituted
at least twice a week.

Hogs should be got out of their pens
every day for exercise, and the bedding
should then get a good shake up.

Hogs need more bedding than the ma-
jority of live stock, as nature has not
endowed them with so much covering,
and therefore they need a generous quan-
tity of bedding.

Hogs which have a damp bed are ren-
dered liable to colds or pneumonia, and
if you see your hogs look wet or steamy,
then you will know it is time you looked
after the bedding, or you are likely to
lose some of them.

These little details may appear to
many readers as of no consequence, but
every man who raises hogs successfully
knows that it is attention to these seem-
ingly trivial matters that has made his
profits what they are.

THE ALBERTA BOARD OF AGRI- CULTURAL EDUCATION

The Hon. Duncan Marshall, minister
of agriculture for Alberta, who is deeply
interested in the agricultural welfare
of that province, and under whose direc-
tion the Demonstration Farms through-
out the province were started some years
ago, followed up a short time ago by
agricultural schools on three of the
aforesaid farms at Olds, Vermilion, and
Claresholm, has just appointed a board
of nine members as provided in the
Agricultural Schools Act, and this board
will act in general advisory capacity to
the Minister of Agriculture in matters
of agricultural education.

The Board will consist of the follow-
ing gentlemen: Dr. H. M. Tory, presi-
dent of the University of Alberta, who
will be chairman, is a keen agriculturist
and has given a lot of time to the study
of agricultural problems; Dr. J. O. Ruth-
erford, head of Natural Resources
Branch of C.P.R.; E. L. Richardson, sec-
retary of the Calgary Exhibition Asso-
ciation; James Murray, of Suffield, for
several years superintendent of the
Dominion Experimental Farm at Bran-
don and now manager of the Wheatlands
Company at Suffield, Alberta, conduct-
ing farming operations on a large scale
in southern Alberta; J. C. Drewry, of
Cowley, the well known breeder of Per-
cheron horses and Holstein cattle; Bryce
Wright, of Dewinton, breeder of Short-
horn cattle and Clydesdale horses, who
has been lecturer on live stock in con-
nection with short course schools in agri-
culture since their inception in Alberta;
John Hector McArthur, of Milnerton,
also a breeder of Shorthorns and practi-
cal farmer; Frederick West, sr., of the
Vermilion district, a pioneer farmer in
Alberta, and D. W. Warner, of Clover-
bar, director of Edmonton Exhibition
Association and one of original found-
ers of Alberta Farmers' Association,
which afterwards became United Farm-
ers of Alberta.

The Board will commence its duties at
once, in preparation for the opening of
the Agricultural schools of the province
this fall. The principals and most of
the staff are already on the ground.

GLANDERS

Losses amounting to thousands of
dollars have been caused lately by an
epidemic of glanders in the Pembina
country, and the government officials
are making a determined effort to
stamp the disease out.

When any symptoms of glanders are
observed the first duty is to call a vet-
erinary, as a heavy fine is provided for

SHORTHORN JOINT DISPERSION SALE

The undersigned will offer for sale their entire
herds of Shorthorns, about 100 head, all ages
and both sexes, about the end of October.

Wanted— Successful Farmers

In the San Joaquin Valley, California. This
great valley in the heart of California yet has
room for over half a million men who will
farm its fertile acres in the way they should
be farmed. There is no room for the failure—
no place for the man who can not succeed
where he is. But there is a wonderful oppor-
tunity for the man who has the success habit.

Here is a climate that will grow all the
products of the temperate zone, and many of
those of the tropical. You have no long cold
winters. Every day can be profitably spent in
out-of-door work. Here is a soil which under
irrigation is of surpassing richness. Here is
ample water and all conditions of pleasant
living in a well-settled land.

We will tell you of the opportunities in gen-
eral. We will search out for you just the kind
of a location you are seeking. It might take
you weeks or months and many miles of travel
to find the spot that our knowledge of local
conditions will direct you to at once.

After you have found the spot we will send
to you a man who knows this country thor-
oughly, and if you wish he will tell you the
methods and crop rotations which are most
successful here.

All this service is free. It is part of the
effort the Santa Fe is making to let people
know of the advantages along its lines. The
railroad has no land to sell and no interest to
serve but your ultimate success here.

What the San Joaquin Valley is, and what
others are doing here, is told in our two books,
which are free and yours for the asking.
Then if you are interested enough to ask fur-
ther questions, you will find me eager to an-
swer.
