"Stayput" ALL-STEEL PORTABLE Granary

CAPACITY 1000 BUSHELS
 WEIGHT 1200 POUNDS
 Diameter 13 ft. 8 in. Wall 8 ft. High

The only upright portable granary built consisting of sixteen sections and a like number in the roof. It is easily erected. The only tool required is a wrench. We guarantee that one man can set it up in less than an hour. Very few bolts are required and these are placed in the angle iron frame (NOT ONE IN THE STEEL). The cupola on top of the "Stayput" granary may be raised or lowered to get the necessary amount of air for ventilation.

Fourteen Special Features

Portable—All steel, fireproof—All steel frame—Reinforced interior construction—Reinforced roof—Interchangeable sections—Easily erected and taken down—Interlocking joints on interior—Flax tight—Exclusive bunker board system—Roof bolted solid—Bolted to platform—Cannot blow away—Lasts a lifetime.
 Price only \$110.00 f.o.b. Winnipeg. We are manufacturing a limited number this year. Place your order early. The "Stayput" is built by a reliable firm you can depend on to render good service. Write for further particulars and circular "Q" today.
BIGGEST \$110.00 VALUE IN THE WEST

ALWAYS GIVE WHEN ORDERING: NAME OF PUMP, DEPTH OF WELL, DISTANCE TO DRAW WATER

YOU'RE LOSING IF NOT USING THE PATENT PUMP GOVERNOR

It makes the hardest working pumps work easy. It can be adjusted to lift any weight desired, from about fifteen to two hundred pounds, by turning the nuts at the top ends of the levers. It can be applied to all pumps that have vertical either flat or round, iron or wood, all lengths of strokes. It will make your pumps work as easy as a child can operate them. Your windmills will pump more than double the amount of water for they will run in lighter winds. The days of light winds are the days the most water is needed.

Regular \$2.50 \$2.75 \$3.00
 Special \$1.95 \$2.10 \$2.25

few hundred to clear at this Extra Special Price now; but never again. Send cash with order. We deliver at these prices free to nearest Post Office.

Western Steel and Iron Co. Ltd., Winnipeg

Go to Market in 1/4 the Time

Think of the pitiful waste of time spent in going to market and back—if it is a ten mile drive it takes you probably two hours each way. And you could do it in half an hour or less if you had a FOX Trailer for your car.

The Auto Trailer has proved so successful in the United States that thousands of them have been sold in the last few months. This splendid utility—the FOX Trailer—can be attached to any make of car. It causes no injury to the car—no inconvenience to drive. Built like an automobile with steel chassis, steel axle, ball bearing wheels interchangeable with Ford wheels, solid Dunlop tires guaranteed for 10,000 miles. Size of body 6 feet by 4 feet. Write for descriptive catalogue.

Don't Worry About Shortage of Help One Man, with a

"Happy Farmer" Tractor

Can do the Work of 6 to 8 Horses and 2 to 3 Men

Weight 3,500 lbs. **"The Tractor That Pays"** Constant Drawbar Pull 1,500 lbs.
 85% on Traction Wheels **\$850 f.o.b. Winnipeg**

Here at last is the practical, profitable Farm Tractor, as was proved at Brandon Fair—weight and cost cut down so low, in proportion to power, that it does not compete with it. Besides lowering the actual cost of farming per acre, it will enable you to work more land, do it better and at the right time. With a "Happy Farmer" you can cover ground so fast that plowing, sowing, harrowing and thrashing can be done when they should be, instead of just when you can get ground to them. And when the job is done, expenses drop—the "Happy Farmer" takes no fuel or care when it is not working. The "Happy Farmer" wheel gives, showing 85 per cent. of the weight on the traction wheels. It gives it more pull for its weight—or less weight for its pull—than any other tractor. It is as cheap—only two-thirds as many parts as the average—and so sturdy that it is always on the job, with little or no expense or delay for repairs. It does so much work, saves so much time and wages, and runs so little to buy and run, that it will cost you much more to do all other work than to buy and run a "Happy Farmer".

All orders can be filled immediately. We now handle "Happy Farmer" light tractor power lift gives in two, three and four bottom sizes. Write us for illustrated description and full information.
