

No. 210 Bent-Front Delivery Sleigh

AN UP-TO-DATE sleigh for up-to-date merchants; style is correct, construction the very best, painting is attractive, price is right, and last, but not least, the driver can keep warm and comfortable.

BODY

Bolted pattern; 7 feet 6 inches by 38 inches inside from front of seat to rear end; 17 inches underneath seat; sills bent in one piece; dash good height, making a very warm front; drop end gate full width; band-iron strips on top edge and on bottom inside.

PAINTING

Body and gear bright red, plain striping.

NOTE—Supplied regularly with solid bar side-draft shafts. Complete with nickel line rail.
