ENGINE WAS EMPLOYED

Sluiced Out the King Street Sewer

Was Filled up With a Vile Mass of Corruption That Was Sickening to be Hold.

The work of constructing the sewers on King, Queen and Harper streets is progressing with as much speed as could be anticipated considering the character of the ground that has to be removed and the further fact that only a limited number of men can be employed, it not being desired to have a long stretch of the street torn up while the work is going on: On King street the sewer is completed as far as the east side of Second avenue, where another manhole has been put in immediately in front of the Melbourne. The old Site Purchased for the sewer which was laid during the Ogilvie regime several years ago and which was uncovered day before yesterday was found to be in a frightful condition. When the top boards were removed and the filth that covtred the bottom to a depth of two Of the Athletic Association at the feet was stirred up the stench that arose was so great that two of the laborers were overpowered and had to be helped out of the excavation. The mass was a conglomeration of sewage of every character and de-
