

Here and There

In appreciation of its wonderful exhibit at the Toronto Exhibition this year, the Canadian Pacific Railway has been awarded a special medal.

The Prince of Wales' Ranch at High River, Alberta, contributed the highest priced bull at a recent fall sale in Calgary, Princeton Crusader, which fetched \$285.

Canadian wheat exports for the twelve months ending September 30th, 1923, amounted to 225,747,861 bushels, valued at \$259,445,816, while for the twelve months ending September, 1922, they were 160,637,898 bushels, valued at \$194,577,125, according to a report of the Dominion Bureau of Statistics.

Exports of bacon from Canada to Great Britain increased almost 3,000,000 pounds during the first nine months of the current calendar year. For this period, during 1922, there were 70,988,000 pounds of Canadian bacon shipped to the British market, while this year the corresponding figure rose to 73,954,000 pounds.

The value of the asbestos exports of Canada for the 12 months ended August, 1923, according to the Dominion Bureau of Statistics, exceeded the value of those of the previous year by nearly \$3,000,000. These exports for the last year amounted to 202,444 tons, valued at \$3,375,249, compared with 122,785 tons, valued at \$5,604,551 in 1922.

The first consignment of 1,000 pounds of British Columbia Douglas fir seeds has been shipped to the British Forestry Commission, London, by the Dominion Forestry Branch, from its plant at New Westminster, British Columbia. The seeds were extracted from the cones recently gathered in the Fraser Valley districts.

The year 1923 will see a new record in Alberta coal production. It is expected the total production for the year will reach 7,000,000 tons, in comparison with less than 6,000,000 last year. The production up to November 1st is 1,600,000 tons greater than the production for the same period last year. The record production previously was in 1920, when 6,400,000 tons were produced. The pay-roll this year is expected to exceed \$18,000,000.

Great interest is being manifested in the International Dog Derby to be run at Quebec during the Winter Carnival on February 21st, 22nd and 23rd, 1924. The race is for teams of huskies driven by Indians, trappers, traders, mail carriers and others. At present ten entries have been received and others are expected from the north shore of the St. Lawrence and from the Abitibi mining district. As navigation will soon close, it will be necessary for entries from the latter district to mush 400 miles to reach Quebec. About five American teams will probably take part, their object being to regain the gold cup for the United States.

What might have resulted in a very serious train wreck was avoided in the nick of time on the Canadian Pacific Railway Parry Sound subdivision, by section foreman Connaught, who while patrolling the track near Brimley recently discovered two large iron nuts on top of the rails, securely fastened with hay wire. The foreman had just time to unfasten the wire and remove the nuts to clear the track for a train was due in five minutes. Two boys in the vicinity admitted, after questioning, that they wired the nuts to the rails. They were sentenced to the local shelter for one month and their fathers were required to give bond and report to the authorities for two years.

Evidence given by farmers before the U.S. Tariff Commission showed that under American railway rates a bushel of wheat could be hauled only 35 miles for one cent, while under Canadian rates the same amount of money would move the same amount of grain 66 miles. American farmers claim that this is a saving in favor of the Canadian producer of 44 per cent, or about 8 cents a bushel. The reason given for the difference is that in the United States grain rates are based on cost of moving it to-day, while in Canada they are based on 1897 costs, when the Crow's Nest Pass agreement was made between the Government and the Canadian Pacific.

When people delight to tell the faults of others they tell at least one fault of their own.

WISE LAD

"Now, Willie," said a generous father, as he and his little son were gazing into a tailor's shop window, "I am going to buy you a new pair of trousers, and you shall choose them. Which pair do you want?"

After a moment's hesitation, the little boy said:

"Please, father, may I have those marked, 'Cannot be beaten'?"

MOTION PICTURE NOTES

Maxine Elliott's beauty could not be communicated to the screen, and she was extremely awkward in her movements.

Miss Maude Adams may go to India to film "Kim" in the near future, according to the programme made known some time ago.

The most self-satisfied and conceited of the screen stars is Pola Negri; she takes pains to let everyone know she considers herself the greatest of all screen stars.

Fanny Ward one of the great stars of several years ago used to entertain the leaders of the movie industry very lavishly; however she never partook of the choice dishes she served to her guests; she always ate frankfurters. Few people ever saw her eat anything else while she was in Hollywood.

Alan Holubar, prominent motion picture producer and actor, and the husband of Dorothy Phillips, film star, died at Los Angeles recently of pneumonia.

Gloria Swanson plans to make her home in the east in the future. She has rented her beautiful home in Hollywood for a year and expects to remain in New York indefinitely.

Talking moving pictures are soon to be brought into use with perfect synchronization of the sound and the picture. Dr. Lee DeForest, inventor of the three electrode audion, told radio fans at Chicago last week.
