Toronto, April 26.—Robert A. Falconer, M. A., B. D., LL.D., Litt.D., of Halifax, has been selected by the Board of Governors for the Presidency of the University of Toronto. At the regular meeting of the board yesterday afternoon it was unanimously decided to ofter him the position. A cablegram was sent to Dr. Falconer at Naples, where he is this week on his way to Greece. It is expect ed that he will at once return to Halifax in order to meet the Board of Trustees of Pine Hill College, of which he is Principal, after which he will formally announce his decision in the matter of the Toronto affair. It is believed that he will accept the appointment at an early date.

### CEMENT SIDEWALKS.

CEMENT SIDEWALKS.

To the Editor of the Times:

Sir,—As the most of Hamilton's streets have cement walks, where the grade is permanet, there are some localities where the roadway is higher than the walk, which, as you know, proves obnox ious in wet weather. With cement walk a fixture (especially about our north grid), on Macaulay street east, north side of St. Lawrence Church, the street has been, graded above the walk level. The G. T. R. on their new spir, Sincoe and Wellington, have made a good grade just now about 4 feet above cement walk level. Of course flood rains on either side the track can be drained into overflow sewer built last year. As our cem ent walks are one complete stone from block to block and must needs be bro ent walks are one complete stone from block to block and must needs be broken up should occasion require through sagging, or other cause, I might make a suggestion with a view to improvement. If good for Hamilton, it might be for other cities or towns, and that is to make those flags to appearance, made separate when laying them half check ends, two holes one end, two short bolt studs in the other end. The on buttends when laying, or sheet from. Made with gravel and cement and thick wire cloth in middle, thus making a complete flagstone. These, should occasion at any time require it, could be severed to any height required, without breaking up the weaks, which now are only a ricket of stones. I believe it would pay the city for the Council to grant privileges to Board of Works foremen to experiment in the city yards on sidewalk ideus as they think proper—that is best suited for summer heat, or winter frost, such as suggestion made by wire netting compounded material, Trinidad asphalt and sawdust, or cement and coal tar, if it will adhere. To do on a small scale, as foreman thinks proper, the expenses would be trifling and the Council could sawdust, or cement and coal tar, if it will adhere. To do on a small scale, as foreman thanks proper, the expenses would be trifling and the Council could see the results and draw conclusions. If it does not suit Hamilton, other rising

towns may take it up through your North End Ratepayer.

### HELD AN AT-HOME.

SENIOR SCHOLARS OF FIRST METH ODIST SUNDAY SCHOOL.

A unique event took place in First Methodist Church school room last evening, when the eight senior classes of the Sunday school gave an at-home. There were about 125 present, with Mr. Hugh Murray in the chair. The early part of the evening was devoted to a programme which included songs by Miss A. Tallman, Mr. J. Brethour, Miss Rhoda Evans, Mr. George Nixon and Miss Sadie Brethour; recitations by Miss Clara Salisbury; a trio by Misses Hill, Epps and Tallman, and addresses by Mr. Murray and Rev. Mr. Treleaven. After half an hour devoted to promenating the gathering sat down to supper, which the ladies had provided. This was followed by toasts, as follows:

"The Ladies" — Responded to by Messrs. Woods and Roy Hamilton.

"The Gentlemen"—Responded to by Miss Smith and Miss Jessie Miller. Miss Miller introduced a number of local hits

of the Y. M. C. A. was a distinct success, and those who had the programme in hand must have been more than satisfied with the results of their efforts. The corridors were filled with crowds of corridors were filled with crowds or young ladies and gentlemen, while the gallery of the gymnasium was filled to capacity. The invited guests were the members of the Epworth Leagues of First Methodist Church, Wosley and Erskine Churches, and the Y. W., C. A., who had helped to entertain the boys of the Y. M. C. A. during the past winter. Howard's orchestra was in attendance, and rendered several selections throughout the evening. One of the features of the programme was the presentation of the Swedish weaving dance, by a number of young ladies from the Y. W. C. A. This dance was given the same as at the Alexandra Rink some weeks ago. The dancers were given a grand reception, and they performed it with the same grace as before. Messrs, K. Green, W. Davis and J. Tuck did some mat and parallel bar work that won the approval oung ladies and gentlemen, while the

### A LIFE SENTENCE.

PEOPLE OF ONTARIO SHOULD COME TO MRS. PERKINS' RELIEF.

Toronto Mail and Empire: As Miss. Perkins was proved not guilty of the killing of her husband she did not suffer capital punishment or the entire loss of her liberty. But because she was accused, she had to undergo several months' imprisonment, and to bear defence costs amounting to three or four thousand dollars. For her this heavy fine is a life penalty. She will be working with her needle all her days to make up the money thus sunk in a fight for her life against the "theory" of a detective, and against the pitiless officers and resources of the Crown. Robbsd of a husband who cherished and supported her, deprived of his small estate, which she had done her part to gather and conserve, she is left to make her own way in the world after an ordeal that, if it does not shorten her years, has left upon her man access. Toronto Mail and Empire: As Mis. that, if it does not shorten her years, has left upon her name a stigma that no innocence can wipe out. So she limps out of the iron clutch of the that no innocence can wipe out. So she limps out of the iron clutch of the law, crushed and all but broken. What

at should be in the power of the people of Ontario to lift from her life the weight of a blighting debt. So much reparation is due to her, and not less should be made without delay. Nor is it'a day too soon to give trial judges the power to order the expenses of defence in criminal trials to be borne by the prosecution, as in civil cases. Should such a reform spring from the trial of Mrs. Perkins, the case would have at least one associated incident upon which the mind of a just man could dwell without alarm, and without disgust.

FOUGHT TO THE BITTER END. Man Dragged From Cell to Scaffold and

Hanged. Hanged.

Guntersville, Ala., April 25.—Bob Watts (white) was hanged for murder here to-day, under tragic circumstances. He had become possessed of a knife, and resisted to the end. Ammonia was thrown into his cell and he was thus overcome and dragged to-the scaffold by force, coughing and moaning piteously.

ING EXERCISES LAST NIGHT. Toronto, April 26.—The closing exercises in connection with Wycliffe College were held in the Convocation Hall last night, with a large attendance. Diplomas were awarded to fifteen graduates, who were presented to the president by Rev. Dr. Cody. The report of Principal O'Meara was very gratifying, showing that the college was quite incapable of accommodating the students that were seeking admission, but that arrangements had been made for an enlargement of the building that will permit of a much more satisfactory condition. The meeting opened with an address from Mr. N. W. Hoyles, K. C., LL.D., president of the corporation. Never in the history of Canada was there such need for a college like Wycliffe. Bernard Shaw Again.

London, April 26.—George Bernard Shaw, addressing a meeting of the National Art Collection Fund, referred to the deficit for the year and the urgent leads of money. He regretted that people with big, uncarned incomes did not take much interest in the society's work. There was, he said, £500,000,000 in England belonging to people who did not work. Therefore the society must tell that it was merely a new decoration and passed on.
