THE CANAL DEPUTATION.

Government Interviewed About Deepening the Welland.

Twenty-Two Foot Canal Needed to Retain Trade.

Waterway Via the Saskatchewan and Rainy Rivers.

(Special Wire to the Times.) Ottawa, Ont., Nov. 24.—The propa ganda of the Great Lakes and St. Law deepening of the Welland Canal to twon-ty-two feet, was brought forcibly before the Government this morning by a large deputation, including representatives of many lake ports, from Fort William to Kingston. 'The deputation, which was reed by Sir Wilfrid Laurier and Hon. G. J. Graham, included the Mayors of Toronto and Hamilton and of several of the smaller ports on Lake Ontario, and

a considerable number of members of the association joined the constitunts in the deputation. Mr. German, M. P. for Welland, intro-

S. Spence, of Toronto, quoted the ofcial report of the Deputy Railways and Canals to show that the deepening of the Welland Canal was now the most urgent of water transportation he most urgent of water transportation eeds of the country. Mayor Frencis King, of Kingston, sec-etary of the Lake Marine Association.

retary of the Lake Marine Association declared that he had never heard a ves-sel owner in Canada declare in favor of the Georgian Bay Canal project, as com-pared with an improved Welland Canal. Mayor Campbell, of St. Catharines, and

ASTOR YACHT SAFE.

Message From Owner Ends a Nineteen Days' Search.

New York, Nov. 24.-The Astor yacht puzzle is solved. Mail from Col. John Jacob Astor and his party reached New York to-day on the Insular Line steamship Harry Luckenwhich sailed from San Juan, Porto Rico, on Nov. 17. On that date an officer from the yacht Nourmahal came aboard the Luckenbach with the mail just before the latter sailed for New York. This officer told Capt James Dalton, of the Luckenbach that the Nourmahal was to sail nex for Cuban ports. According to Capt Dalton, the Nourmahal was safely a

STORM AT ELORA.

Trees, Telegraph Poles and Wires Broken and Destroyed.

Elora, Ont., Nov. 24.-Nothing has been heretofore know nin this section to equal the destruction of trees and wires ocasioned by the ice storm of Monday night. One of the beauties of Elora is its profusion of shade trees. To-day these are everywhere dropping and broken, many streets being almost impassable with the fallen branches. There is no wire communication in any direction, as all telephone and telegraph wires are in a state of chaos. For about a mile between Elora and Salem the telephone wires are lying in the middle of the road, with only three poles standing intact. Whole sections of cross-bars are hanging from the poles, and many poles are broken in two. Electric light wires are also broken and the town is without light in consequence.

Pacific's First Concrete Pier ocasioned by the ice storm of Monday

Pacific's First Concrete Pier

Pacific's First Concrete Pier.

The first concrete pier on the Pacific coast, and a big one it is, has been completed recently. Extending in a straight line 1,600 feet out into the Pacific Ocean, this latest example in wharf construction is at Santa Monica, where the longest wharf in the world,—the Southern Pacific Railroad's pier at Port Los Angeles—is already located.

So far—and the piles of the landward end of the new pier have been in position for several months—the sea has not made the slightest impression on the concrete posts. Teredos, those sea worms which make the life of the wharf builder a continuous nightmare, are powerless to penetrate the new piles; barnacles cling to them in small numbers, but can do no damage, while strongest waves of the sea break aimlessly against the smooth concrete and without deleterious results to the wharf which they support.—From Cassier's Magazine.

TEA TABLE GOSSIF.

A second-hand overcoat was stolen om in front of 159 James street north

Trom in front of 109 James street north yesterday.

—The first of a series of four lectures under the 'auspices of the Hamilton Teachers' Institute, by Prof. Earl Barnes, of Philadelphia, will be given in Centenary lecture hall to morrow evening. The subject is "Recreation as a Constructive Force."

The annual exhibition of the Hamilton Camera Club will open in the museum, Library building, to-morrow evening, and will continue every afternoon and evening for the rest of the week, with a lantern slide exhibition on Monday evening.

on Monday evening.

—Mrs. Barnes gave a delightful progressive euchre party on Tuesday evening, eight tables. The dainty prizes were won by Mrs. Morrison and Miss Douglas Irvine, Mr. Jack Mason and Mr. Lumsden. The supper table looked pretty with their many shaded lights and American Beauty roses.

THREE WILLS.

Many Bequests Made by the Late M s. Quimby.

Mr. German, M. P. for Welland, introduced the speakers.

Captain h. W. Rychardson, of Kingston, in opening the argument, declared that the most vital necessity of inland transportation interests was now the deepening of the link between Lakes Eric and Ontario. Trade would always follow the cheapest route and unless Canada took steps to improve the Welland Canal route the new deepened New York State canal system would capture the grain trade from the west. with a twenty two foot waterway through from the head of the lakes to the St. Lawrence, grain rates from the west could be reduced by three cents per bushel.

Mr. A. E. Kemp, ex-M.P., representing the Toronto Board of Trade, urged the deepening of Welland canal, in preference to waiting for the Georgian Bay Canal, which was a far more expensive way, and not so certain a proposition. It would ensure a rate of 3 1-2 to will of the late Mary Ann Burtensur and the special stream of the late Mary Ann Burtensur and the special stream of the special stream of the special stream of the special stream of the stream of the special stream of the special stream of the special stream of the special stream of the stream of the special stream of the stream of the special stream of the special stream of the special stream of the state is \$11,792.58, composed of household groods, \$2018.60; cash, \$353.74; cash in bank, \$2,018.60; cash, \$353.74; cash in bank, \$2,018.60; cash, \$355.74; c The will of Rebecca E. Quimby has

ference to waiting for the Georgian Bay Canal, which was a far more expensive way, and not so certain a proposition. It would ensure a rate of 3 1-2 cents per bushed in grain from Fort William to Montreal, as compared with six cents per bushed now.

Mr. Lawrence Henderson, of Montreal, declared that an expenditure of from twenty-two to twenty-five millions in deepening the Welland canal or in reconstructing it in whole or in part, would be a far better plan.

Mayor Mine, of Sarnia, Mayor Daniels, of Prescott, and Thos. Conlon, of Thorold, supported the views of the preceding speakers. The latter presented a memorial from the Thorold Board of Trade, which went so far as to claim that a waterway for one thousand ton vessels should be opened up via the Saskatchewan and Rainy Rivers, right through to the foot of the Rocky Mountains, from Lake Superior.

The cost of this project, and of the deepening of the Welland would be less than the estimated cost of the Georgian Bay canal.

F. S. Spence, of Toronto, quoted the of-

WAS A DRAW.

Law Students' League Debated Woman Suffrage Last Night.

The Hamilton Law Students' Association held their first regular debate of the season last night at the Court House, the president, Mr. C. Awrey, acting as chairman. The subject discussed was: "Resolved, that the franchise was: "Resolved, that the franchise should be given to women." The affirm-ative was upheld by Messrs, H. Robinson and John Flett: and the negative was argued by Messrs. F. Brown and Leo Brennen. The judges, Messrs, H. Car-penter, A. M. Lewis and J. M. Telford, decided that the arguments had been so strong that no decision could be arrived at and it was declared as drawn. at, and it was declared a dray

The subject for the next debate next Tuesday night is, "Resolved, that a con-stitutional monarchy is preferable to a

MANY MORE.

Congratulations to Sub-Dean and Mrs. Sutherland.

To-day Rev. Canon and Mrs. Sutherland are celebrating the 40th anniversary of their wedding. On November 24, 1869 Canon Sutherland was married at Bruce Mines by Rev. James Chance, at Bruce aimes by the Komman of St. Austele, Cornwall, England. They came to this country the same year, and have resided in Hamilton for 36 years. Canon to the hand of time has turned Revenue of the hand of time has turned Revenue. country the same year, and have resided in Hamilton for 36 years. Canon Sutherland has been rector of St. Mark's Church for 32 years, and is dean of all the clergy in this city.

BRITISH LIBERALS.

Party Convention to Outline Plan of Campaign.

London, Nov. 24.-At a prolonged meeting of the Cabinet to-day, held to discuss the crisis arising from Lord Lansdowne's motion to withhold from the budget bill the consent of the House of Lords, it was decided to call an im-mediate meeting of the Liberal party for the purpose of outlining a plan of ampaign.

GOLD MINE PRODUCE.

Washington, Nov. 24.—The gold mines of the United States produced \$94,560,000 worth of the precious metal during 1908, according to the United States Geological Survey and the Bureau of the Mint.

NEWSPAPER MAN DEAD.

Toronto, Ont., Nov. 24.—Word reached here to-day of the death of W. J. Grigg, B. A., B. Th., a graduate of McMaster University, at Calgary, where he lived, a member of the editorial staff of the Calgary Herald.

American's Wires.

The telephone and telegraph wires of the United States would encircle the earth at the equator more than 600 times.

168 BODIES DISCOVERED.

(Continued from Page 1.)

fortified themselves against hunger, thirst and the supposedly lesser danger of gas that naturally would be generated after a few days' imprisonment.

The fans fashioned by the men they asserted, were crude, but would have dispelled the gas formed in small quantities, and have given them enough fresh air to sustain them for weeks. With the reversal of the fans, they assert, the deadly gas forming in the second gallery, and creeping out of the escape shaft, went into the lower level and the men were suffocated before they had opportunity to seek pockets or protection against it.

YOUNG MAN'S DIARY. Cherry, Ill., Nov. 23.—A diary was found to day in the clothing of samuel D. Howard, 21 years old, whose body was found in a pocket of the mine yesterday. The diary was begun on Nov. 13, the day the fire started, and covers a period of two days, describing the struggle for life until blackdamp ended the weird tale, written with a pencil on loose leaves of an account book. The diary follows:

period of two days, describing the struggle for life until blackdamp ended the weird tale, written with a pencil on loose leaves of an account book. The diary follows:

"Alive at 10.30 o'clock yet. By Sam D. Howard. Brother Alfred is with me yet. A good many dead mules and men. I tried to save some, but came almost losing mysell. If I am dead, give my diamond ring to Mamie Robinson. Henry can have the ring I have in my good crothes. The only thing I regret is that my brother (Alfred, sixteen years old), could not help my mother out after I am dead and gone."

"I tried my best to get him out, but could not. I saw Jim Davidson and Steve Timke lying along the road and could not stand it any longer. It is 11.05 o'clock and the air is fine, but somethines it is so bad it almost puts a fellow's light out. It is something fierce to see men and mules lying down all over. We have our buckets full or water, sump water, and we drink it and bathe our heads with it, 3 o'clock and poor air and blackdamp.

"It is 4.15 o'clock. Change of place. Number of men tried to get out and could not get back. 7.50 o clock, tired, hungry and sleepy, but could stand quite a bit of this if I could get out of this hole.

"Now 7.50 o'clock in the morning. This is Sunday. There is no air. We farmed ourselves with the lids of our buckets. Blackdamp coming both ways. 10.25 o'clock. We gave up all hope. We have done all we could. The fan had better start above soon. I think I won't have strength to write pretty soon.

"It they can't give us air we will make fans ourselves. We take turns at the fans. We have three of them going. "Now 27 to 3 p. m. and the blackdamp is coning on us.

"Now 27 to 3 p. m. Dying for the want of air. We have six fans moving. One

"Now 27 to 3 p. m. and the blackdamp is coming on us.

"Now 11 to 4 p. m. Dying for the want of air. We have six fans moving. One fan after another, fifteen feet apart.

"It is 25 after 10 p. m. Sunday evening. We all had to come back. We can't move front or backwards. We can stand it with our fans until Monday morning.

"At 25 after 2 a. m. Monday morning. Am still alive. We are codd, hungry, weak, sick and everything else.

"At 9.25 a. m. Monday morning. Still breathing. Something better turn up or we will soon be gone.

"At 16 to 1 p. m. Monday. The lives are going out. I think this is our last. We are getting weak."

The men evidently were all killed by blackdamp late on Monday afternoon. Governor Deneen to-day placed Hector McAlister, a mine inspector, in charge of the exporing work. Officials of the United Mine Workers had wired the Governor asking him to appoint a practical way to take charge of the work. Governor asking him to appoint a prac-tical man to take charge of the work.

SAM SMALL.

Celebrated Evangelist and Temperance Orator Coming.

Rev. Dr. Small, familiarly known over he whole American continent as "Sam Small," and unquestionably one of the most unique figures of the day in temperance and evangelistic work, is to speak in Hamilton next Sunday Monday. First Methodist Church holding its anniversary those days-its 85th. Rev. J. V. Smith, D. D., of Centenary Church, will preach at the morning service and Dr. Small in the afternoon and evening. The afternoon meet-ing will be especially for men and will start at 4.

The hand of time has turned Rev. Sam Small's once raven black hair into snowy white, but it has left no perceptible earmark upon his virile tongue. Small in name, he is small in naught clae. With a supply of investives which he hurled with all the power at his command in his array of charges against the licensed liquor traffic he aroused Brantford local option workers and citizens to enthusiasm at the meetings held on Sunday afternoon and evening at the Grand Opera House and Victoria Hall until the rafters fairly shook, while his quips were told in such a droll manner that the risabilities of his hearers were touched, and he pressed home his words with a virility which was really surprising. ing.

PROFESSOR'S LOVE STORY.

PROFESSOR'S LOVE STORY.

Manager Hooley is showing at the Colonial to-day and to-morrow a film which has not been surpassed in this city for pathos and romance. It depicts the Professor's Love Story, which is well known by all followers of the drama and has maintained a steady hold on the affections of the people since it was produced many years ago. Three other films, of an amusing character, will also be supplied, while Miss La Viere, George Drennan and Baby Gamble will introduce new songs. Leader Levy has selected an excellent programme of incidental music for the orchestra, made up of some of the more popular airs from the most popular grand and comic operas.

Be "From Missouri." Let us show you—don't be uneasy who stands the loss. That falls on certain Montreal houses. Such qualities and prices are quickly appreciated. \$18 suits and overcoats \$13.99; \$15 suits and overcoats \$9.96.—Fralick & Co., 13 and 15 James street north.

RUNAWAY TRAIN.

Plunges Over Embankment and Kills the Engineer.

Pottsville, Pa., Nov. 24.-A Pittsburg and Reading coal train got beyond control of the brakes while descending the heavy Frackville grade, on the Broad Mountain, from Frackville to St. Clair, early to-day, and dashed down the mountain at a speed of more than a mile a minute with the whistle tied down to give warning along the road for five miles ahead. After running about four miles the engine jumped the rails near Broad Mountain station, and plunged over the embankment, followed by the 28 steel cars, all loaded with coal. The engine turned over and buried Engineer. over the embankment, followed by the 28 steel cars, all loaded with coal. The engine turned over and buried Engineer George A. Ammon, of Pottsville, be-neath it, crushing out his life. Other members of the crew were dug out of the wreck of twisted steel and piled up coal badly hurt, but alive.

JAILED THEM.

Zelaya Imprisoned U. S. Men Who Did Not Subscribe.

New Orleans, La., Nov. 24.—A cable from Panama to-day says that Edgar S. Harris, of Columbus, Ohio, a commercial traveller in Central America, declares that several Americans are in jail at Managua and other places in Nicaragua. Every American in business in Nicaragua who refused to contribute to the war fund levied by Zelaya was promptly arrested and thrown into prison, Harris says. A few Americans bought their way out of jail by paying the price demanded. Harris says it is unsafe for an American to appear in the section of Nicaragua to the section of Nicaragua. manded. Harris says it is unsage to American to appear in the section of Nicaragua controlled by Zelaya.

MASHER FINED.

\$10 and Costs For Trying to Speak to Young Lady.

Toronto, Nov. 24.-In the police court to-day Richard McGregor admitted he had followed a young lady and tried to speak to her on the street. "We'll have to stop that sort of thing," said his Worship, as he imposed a fine of \$10 and costs or fifty days in jail.

Goods We Are Proud of.

Last night at a meeting held in Tor-onto the Capitals decided to default their game to the Alerts. The Alerts and Tiger Cubs will play off for the jun-ior championship at the Cricket Grounds next Saturday afternoon.

THE CHANCES OF LIFE. What They Are at Various Ages and

How They Decrease. After we are dead, it probably will not concern us whether we died at 20 or 50 or 90, but just now most of us are intensely interested in the matter, and, being average persons in sound health.

50 or 90, but just now most of us are intensely interested in the matter, and, being average persons in sound health, we can figure out with certainty just what our chances are of reaching any particular age.

If we are just 20 years of age, our chance of living to or beyond 30 are nearly 12 to 1; of living to be 40, 5 3-8 to 1; to be 50, 3 to 1; to be 60, 1 2-3 to 1. Of living to be 70 we have less than one chance in 2 1-2; to be 80 less than one chance in 5 1-2; and to be 90, less than one chance in 50.

If we have reached 30, our chance to reach 40 are nearly 11 to 1; to be 50,

reach 40 are nearly 11 to 1; to be 50, nearly 4 1-2 to 1; to be 60, 2 1-8 to 1; to be 70, 4 1-2 chances in 10; to be 80, 1 chance in 5 1-2; to be 90, 1 chance in

The average man of 40 has 8 3-8 chances to 1 of reaching his fiftieth birthday, 2.7-8 chances to 1 of reaching 60, only five chances out of 10 of reaching 70, one chance in 5.3-8 of reaching 70, and one chance in 100 of becoming 60, and one chance in 100 of becoming 60. Having been lucky enough in all the

Having been lucky enough in all the drawings up to 50 years, the average man has 4 7-8 chances to 1 of becoming 60; to become 70, the chances are 1 1-4 to 1 in his favor; to become 80, he has but one chance in five, and to become 90, one chance in a hundred.

If already 60 the average citizen has two chance to one of becoming 70, one chance in four of becoming 80, and one chance in 65 of reaching 90.

The man of 70 has three chances in eight of becoming 80 and one in 50 of becoming 90.—Harper's Weekly.

Ancient Mines in Asia. Most portions of Asia Minor are be-lieved to be rich in mineral deposits. Some few mines have been worked and proved to be highly remunerative, but ost of the mineral wealth of the coun

try remains undeveloped. According to try remains undeveloped.
