Overland Has Real Sensation

Interest is Attached to Beautiful New Light Overland Four

Distinctive in body lines and of unusual quality in mechanical achievement, the new Overland Four models of the Willys-Overland Company are a feature of the automobile show.

The new Overland Four marks the greatest advance in years in light car construction. The models displayed are attracting unusual attention because of new engineering ideas which provide high priced car comforts at small operating and maintenance costs.

Salesmen in charge of the Willys-Overland booth in the automobile show are besieged constantly with questions concerning three-point suspension tripler springs which give the Overland Four models a cushion between road shocks and the car body, providing a riding comfort hitherto unknown in light cars.

This particular improvement, an exclusive Overland Four feature, is regarded as the most notable achievement of automobile engineers in years. Some have termed it the greatest improvement in motor car comfort since pneumatic tires.

The interest manifested in the Overland Four touring models is emphasized with earnest admiration over the Sedan models. The Sedans are finished in Copenhagen blue; the body lines are beautiful. The Sedan models are making special appeal to women.

Overland Four not only satisfies the demand for a light, economical, comfortable car, easy to handle in traffic, but it is in every particular a quality car. Light weight and reliability could not be combined with out the best of materials.

The triplex springs, for example, are of chrome vanadium steel. The front axle, steering gears and arm, the steering knuckles and knuckle arms, propeller shaft, axle shaft, transmission gears, axle drive, gear and pinion, clutch shaft, valve tappets and all important keys and bolts are of alloy steel.

The frame of the car is of heavy 3 1/2 inch steel pressed into channel, from 3 1/2 inches deep and 1 1/2 inches wide. The body of the car is of heavy pressed steel. The fenders all so are of heavy pressed steel. It is only because of this all steel body that the Willys-Overland Company is able to give it that high gloss, permanent finish.

Quality in Overland Four goes further than materials. It applies to design which has given that perfect balance that means years of life to the car and economy of operation and upkeep.

For Sale and on Demonstration by Wm. J. Hogan, Newcastle, N. B. t. f.

CANADA'S AUTOMOBILE INDUSTRY

Throughout Canada there is one automobile for every twenty-five people, the Dominion in this respect taking only second place to the United States, where there is one to every fifteen persons. Since the introduction of the car into Canada, the industry has made phenomenal strides. Just how remarkable the growth has been may be realized from the fact that whereas in 1903 in all the breadth of the Dominion there were but 220 car owners, in 1919 the number of registrations totalled 324,886.

At the present time the sum of \$50,000,000 is invested in the Canadian motor industry, and its various lines account for the employment of more than 15,000 people. The estimated aggregate sale of cars in Canada last year was over \$100,000,000 and expert investigation has elicited the probability of a 35 per cent increase over these figures for the year 1920.

Ontario Canada's Motor Province.

Ontario is the motor province of Canada in many respects as well as ownership. Windsor, with its surrounding communities of Walkerville and Ford City, Oshawa and Toronto are the most important manufacturing towns. The Ford Motor Company at Walkerville employs 3,170 employees at the home office. The plant covering 9 acres. The recently completed plants of the Canadian Products, Ltd., division of the General Motors of Canada, constructed at Walkerville, cost \$3,000,000. Other large plants in the Windsor district are Maxwell's and the Studebaker Corporation. In addition to which there is a large number of plants turning out accessories and automobile parts. At Oshawa the General Motors Corporation of Canada has three large plants where McLaughlin, Chevrolet and Oldsmobile cars are manufactured. Last year between \$2,000,000 and \$3,000,000 was spent in this town on extensions and improvements in connection with the industry. In Toronto the Willys-Overland is the principal plant, whilst London, Chatham, Kitchener, Hamilton and Brockville are also interested in the manufacture. Montreal, in Quebec, is also largely interested in motor industries.

Imports and Exports.

Canada is largely interested in both the import and export of automobiles. In 1919 the imports of cars, parts and accessories amounted to \$12,201,119, while exports for the same period were valued at \$10,889,234. The imports were practically all from the United States. The growth of the export trade can be seen from a comparison with the figures of 1917 and 1918 which were \$3,210,120 and \$4,418,976 respectively. Australia was the Dominion's best buyer last year the Commonwealth buying \$2,440,000 worth of cars. New Zealand came next with \$1,185,000, then the United Kingdom, \$721,000 and India \$664,000. Turkey took freight automobiles to the value of \$621,023, exports to the United States totalled \$329,068, mainly parts, and to the Argentine Republic \$552,460.

The British preferential tariff which went into effect on September 1st, 1919, is expected to impart a considerable stimulus to the Canadian automobile industry. It grants preference of one-third provided that not less than 25 per cent of the labor on the finished car shall have been done within the British Empire.

Natives of Ireland, Russia and Germany don't need to resort to jazz when they desire excitement.

More than 200 rescue homes for fallen girls are maintained by the Salvation Army throughout the world. More than 85 per cent of those passing through these homes are permanently restored.

10 CENT "CASARETS" IF BILIOUS OR COSTIVE

For Sick Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Casaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

St. John Has \$150,000 Fire

St. John, N. B. April 28—Fire which spread from floor to floor with remarkable rapidity started in the large brick building, extending from Prince William to Water street, occupied by Dearborn and Company, Limited, wholesale grocers, spice and extract dealers and baking powder manufacturers, and other firms, late Tuesday night and practically destroyed the building. The total loss was estimated at nearly \$150,000, very largely covered by insurance.
