CHILDREN ARE DYING FAST FROM HUNGER

Two Hundred Thousand are Monthly Death Rate of Infants in Petrograd.

Paris, April 12.—Hjalmar Branting, the Swedish Socialist leader, and Dr. Fridtjof Nansen, head of the Norwegian Food Mission to the United States and several other prominent Scandinavians and Swiss subjects, have been conferring with members of the Inter-Allied Relief Council in an effort to arrange for the feeding of the large cities of Russia, especially Petrograd.

A proposition by the Council of Four to send food to Soviet Russia if the Bolsheviks ceased hostilities was presented yesterday. This plan, however, met with serious opposition particularly from the French, on the ground that it would constitute recognition of the Bolshevik Government. The proposed plan would have placed the food entirely under the control of a neutral commission, and consequently the American position on the revivalling of Soviet Russia would not constitute recognition on the part of the Entente. However, the French hold it impossible to ask General Denikin and the Don Cossack Governments to cease fighting, even if the Bolsheviks are willing. Dr. Nansen is anxious that the re-

virtualizing plan be adopted speedily so that food ships can approach Petrograd as soon as the ice breaks up. Dr. Nansen estimates the death rate at 200,000 monthly, directly or indirectly due to starvation. He says the world cannot stand idly by and watch women and children starve. Virtually all children of less than two years are now dead in Petrograd, according to Dr. Nansen, and conditions are terrible beyond description in the orphan's homes and hospitals.

LOCAL MAN INVENTS MILK BOTTLE RECEIVER

One of the most useful articles on the market for sale today is the new milk bottle receiver which has been invented by Mr. S. J. Pratt, 200 Wellington Avenue, and patented by Featherstonhaugh and Company, of Toronto, on July 30th, 1918. The article is of two designs, one to hold from one to three bottles and the other to hold from one to five bottles. It is attached to the house with an alarm running through to the kitchen, or any other part of the house as the house keeper desires, which notifies her that the milkman has arrived, or notifies her if any person is tampering with the bottle, stealing the money or destroying the milk tickets. It also keeps the bottle out of the way of dogs, cats or even children who might be playing about the different steps where the milk may be left by the milkman.

Inspected By Citizens.
Mr. Pratt has been visited by many curious people who have heard of this invention which is not considered a luxury, but an absolute necessity. He has already engaged agents who have started out on routes with perfectly good results, and partiality will be shown to returned soldiers, some of which are already engaged. Letters and communications of all descriptions are being received daily by Mr. Pratt in connection with this wonderful invention, and no doubt, in a very short time, the milk bottle receiver will not only be in the hands of agents in St. Catharines, but in every village, town and city throughout the Dominion and United States. Two prices are connected with this article, one for the bottle receiver without the alarm, the other for the receiver with the alarm.

LIQUOR ACT IS INTRODUCED IN ACT
The long awaited bill to provide for the re-entrenchment on the Ontario Temperance Act was introduced in the Legislature yesterday afternoon by Premier Hearst, who was in his place after his absence through illness yesterday. No discussion on the scope or purpose of the bill took place on its first reading.

AT HIPPODROME

FROM THE NOVEL "K"
Why should a famous physician suddenly sacrifice friends, fame and fortune, disappear to hide his head in shame from his fellow practitioners? What reasons are powerful enough to cause him to thus give up the benefits

CIVIC GOSSIP

It is rumored in City Council circles that if the demands of the school boards for new sites and schools is granted the Council may have to abandon some of the proposed local improvements. The Board of Works early in the year mapped out quite an extensive plan of local improvement work to be done this summer which was taken care of in the estimates. But as a percentage of the cost of these improvements is chargeable to the city at large and the borrowing power of the city is limited, with big grants to the schools it looks like some of the work will have to be laid over until another year in order that the Corporation may keep well within its borrowing power.

In The Spring-Time.

Any fool knows enough to carry an umbrella when it rains, but the wise man is he who carries one when it is only cloudy. Any man will send for a doctor when he gets

bedfast, but the wiser one is he who adopts proper measures before his ills become serious. During a hard winter or the following spring one feels rundown, tired out, weak and nervous. Probably you have suffered from cold or influenza which has left you thin, weak and pale. This is the time to put your system in order. It is time for house-cleaning.

A good, old-fashioned alterative and temperance tonic is one made of wild roots and barks without the use of alcohol, and called Dr. Pierce's Golden Medical Discovery, in tablet or liquid form. This is nature's tonic, which restores the tone of the stomach, activity of the liver and steadiness to the nerves, strengthening the whole system.

CENTRAL BUTTE, SASK.—"I have used the 'Golden Medical Discovery' for a number of years and am pleased to recommend it as a blood purifier. I know it has no equal. I think my boy would not be alive today had it not been for the 'Discovery.' I also keep it on hand for coughs as it differs so from other medicines, instead of upsetting the stomach as cough syrups do, it is good for the stomach."—Mrs. PEARCY WOOD.

LAEL DORRIS

In Booth, Tarkington's comedy "Seventeen" at the Grand Opera House, Thursday, April 17.

that came as the result of a lifetime's endeavor?

"The Doctor and the Woman," the Jewel adaptation of Mary Roberts Rinehart's powerful novel "K" tells the story of the physician's predicament. Photoplay patrons who attend the Hipp Theatre will have the opportunity of seeing it when the management of that Theatre present it on Wednesday and Thursday.

Of special interest is the fact that "The Doctor and the Woman" was directed by Lois Weber, whose recent production "The Price of a Good Time," created such a sensation in this community.

True Boardman appears as co-star with Miss Harris, enacting the role of "K LeMoine," the physician who seeks to hide himself from his fellowmen.

It is understood that a number of applications for the Matronship of the Children's Shelter have been received by the Committee of Management, who will likely make a choice next week.

EVACUATION OF SEBASTOPOL BY THE ENTENTE IMMINENT

Paris, April 12.—The advance of the Bolsheviks is likely to force the Allies to evacuate Sebastopol, on the Black Sea, near the southern extremity of the Crimea, according to Intransigent.

A Bolshevik official despatch by wireless announces the occupation of Birgula, 115 miles northwest of Odesa, and of progress in the direction of Tarnopol and Sarvak.

KING GEORGE

A big double attraction is in store for the patrons of the King George Theatre on Monday and Tuesday when in addition to the regular feature the famous British made picture "Canada at Mons" will be shown. This feature has been selected from a large number of British made productions because it is of exceptional interest to all citizens of Canada and as the capture of Mons was the last battle of the world war before the armistice was signed and the fact that our Canadian boys were the heroic victors makes this picture of intense interest to all. Canada at Mons is a picture that every Canadian must see and will be shown just before the regular feature at each show on Monday and Tuesday. The regular attraction for these days is a very special offering in itself. The very popular and beautiful young screen star May Allison will be seen in an appealing story of a fascinating and irresistible mad cap "Peggy Does Her Darndest," adopted from Royce Brown's Red Book Magazine story.

MOVIES AND CHILDREN

Hamilton Spectator:
Magistrate Jelfs delivered himself of this dictum on Saturday: "I would impose no restriction or age limit on children seeing moving pictures—providing the pictures are of the right sort." That is the crux of the whole matter—"providing they are of the right sort," and as the Magistrate remarked, "that is up to the censors." All sensible people will agree, we fancy, with this opinion. If the quality of the films were improved so that they would be fit for all to see, there would be no necessity to bar any section of the community, however young. What is not good for the unsupervised boy or girl is not good for the grown-ups.
