MELANCHOLY ACCIDENT AT TRENTON.—On Tuesday last, a little boy, aged two years and eight months, the only son of W. S. Northrop, of that village, accidentally fell into the River Trent, and although he could not have been more than five minutes in the water, every effort to restore respiration failed. The poor little fellow had just left his mother's side in the house, and strolled unobtrusively into a back kitchen which projects over the water, and fell through a hole in the loose floor. His mother upon being told the child had fallen into the water, hurried to the spot, and at once plunged in at the risk of her own life, grasped the child, and both mother and child were pulled out together. A doctor father and a good mother's grief at so sudden and unexpected a bereavement, is unmeasurable. A deep sympathy pervades the whole village for the disconsolate parents.—Huron Chronicle.

HER.—After the intense and has set in cold, rainy, and gardeners are beginning their tomatoes, beans, potatoes, and hope the storm may be at an end.

—We have in our sanctuaries, plucked as usual, belonging to Wm. Young, who, which measure three inches, was pulled on this. This is something like—

tioned a few days ago that air of our town had passed at Toronto, and we are he was called to the bar on Saturday last. We wish on in the practice of his profession.

BLANK VOTERS' LISTS For Sale at this office.

TO THE Independent Electors OF THE UNITED COUNTIES OF HURON AND BRUCE. GENTLEMEN, In consequence of the dissolution of Parliament, you are again called upon to exercise the elective franchise, in choosing a person to represent you in the Legislative Assembly of this Province.

At the urgent request of the Central Committee of the Reform Association of these United Counties, and at the solicitation of many personal friends, I have been induced again to offer myself as a Candidate for your suffrages and support in the approaching contest.

During the two sessions of the Parliament just concluded, I have endeavored to pursue a straightforward and independent course, and to fulfill the pledges which I gave at the time of my election.

My views upon the great questions before the country are so well known to you, having been frequently expressed on various occasions, that I consider it unnecessary to allude to them at any length in this address.

With regard to Representation by Population, I may state that, if re-elected, I will, as heretofore, invariably vote for the adoption of that principle, whenever, and by whomsoever introduced. I consider that the carrying of this measure is the most likely means of securing justice to Upper Canada, and, therefore, any Administration which will make this a Cabinet question shall receive my support.

I am strongly opposed to any further increase of the Provincial debt, and will lose no opportunity of advocating the most rigid economy in the public expenditure, always, however, bearing in mind the necessity of such an outlay as may be required for the development of the resources of the country. I am decidedly averse to the practice, so frequently resorted to by former Administrations, of spending Public Money without the previous knowledge and sanction of Parliament.

Firmly relying upon the loyalty and patriotism of the people of this Province, I shall support any efficient and economical measure which will tend to encourage the Volunteer Movement, and which may be required to place the country in a proper state of defence.

Believing that the property of this Province is, in a great measure, dependent upon the speedy settlement of the country, I will advocate the sale of the Crown Lands to actual settlers on easy terms.

I will advocate the improvement, and amendment, from time to time, of our municipal and assessment laws, and will endeavor to get a measure passed for legislating the assessments heretofore made upon unpatented wild lands, and for the more speedy collection of non-resident taxes.

Whatever will tend to promote the best interests of the Agricultural, Commercial, and Manufacturing classes, shall receive my cordial support. I will continue to urge upon the Government and Parliament of this country the necessity of aiding in the construction of adequate Commercial Harbours along the eastern coast of Lake Huron, the want of which has been so disastrous to life and property from year to year.

Contributing so largely to the general revenue of the Province, as they do, the inhabitants of these United Counties are justly entitled to receive increased Harbour accommodation, by which the value of their agricultural products would be greatly enhanced on the one hand, and the cost of goods required for home consumption proportionally lessened on the other.

Owing to the great size of the constituency, and the time appointed for the election being so near at hand, I will not be able to visit all parts of the Counties, but will endeavor to see as many of the electors as possible.

I remain, gentlemen, Your obedient servant, JAMES DICKSON. TUCKERSMITH, May 25th, 1863.
