What might have been a fatal a occured one day last week to Mr James Stewart, concession 2, Turnberry, Mr Stewart was engaged in grooming his entire horse, when the animal suddenly seized him in his teeth, tossed him in the air and was proceeding to demolish him with his feet when a couple of gentlemen, who were standing near, grasped the bridle and managed to check the horse's fory and rescue Mr Stewart from his dangerous position. Fortunately the latter sustained only slight injuries, and he has reason to congratulate himself that he escaped with his life. A short time ago the old and faithful horse, so well known to most of the people in this vicinity, and which belonged to the late Rev Mr Ross, Brucefield, met with an accident which resulted in its

death. The animal had been tethered in the orchard to feed upon the grass, and in some way got entangled in the rope by which it was tied and in its struggles for freedom broke its leg and had to be killed. It had been a faithful servant of the family for about twenty years. With their characteristic generosity, the members of the congregation purchased and presented Mrs Ross with suitable horse to replace the faithful animal that had come to so un-

fortunate an end. Dungannon.
