ANTICIPATE AMICABLE SETTLEMENT LATER

Joint Meeting of Operators and Miners at Calgary brought to Sudden Termination--Real Reason Has Not Been Made Known--Will Reconvene March 18th.

Calgary, Mar. 6.—The convention being held here between the operators and the representatives of the miners, came to an end suddenly yesterday afternoon when by an unanimous vote it was decided to adjourn and reconvene again on March 18.

What the real reason of the adjournment is not yet been made public but among the miners it is rumored that it was because the operators were not ready to go ahead with the formation of an agreement.

This does not mean that there is any probability of a rupture between the two parties as representatives of both the operators and the miners assert that the prospects of a settlement being reached at the time of reconvening are very bright.

A meeting of the district board for district No. 18, which is the Calgary district, will be held today at which delegates Sherman, Galvin, Morgan, Patterson, McDonald, Crab, Sullivan and Graham will attend.

LAND DEAL REVIEWED IN REPORT

Of Insurance Commission, Recently Presented to Federal House--Pope, Fowler, Bennet Lefurgey Syndicate's Manipulation Shown in 'Unpleasant Light--Foster Got a Rake-Off Too.

Ottawa, Feb. 28.—The insurance report which was brought down yesterday comprises some 500 typewritten pages and anything approaching a comprehensive review is impossible until it has been printed. In the meantime the following paragraphs from the Citizen, the Conservative organ here, deal with some phases of considerable public interest toward the Conservative members of parliament who were interested in timber transactions are reviewed. The Citizen says:—

The long-looked-for report of the insurance commission was tabled in the House yesterday. It is a voluminous pile, consisting of some 500 typewritten pages, in which is reviewed the evidence taken before the commission, with comments aplenty upon the trend of it, vigorous censure of certain parties whose connection with insurance funds' investments have come under press review during recent months, and the recommendations of the commission in the insurance act for the better protection of policy holders.

THE SPECULATIVE QUARTETTE. Great interest naturally attaches to the report of the insurance commission, and Messrs. Foster, Fowler and others, and the Independent Order of Foresters, who were interested in the insurance act, are "undoubtedly" embroiled in speculative transactions, the commission says.

SECURITIES COST \$100,000 ABOVE VALUE. "The Union Trust company became a great center of investment for the Foresters. No limitation upon investments was made with reference to the insurance act so far as the monies of the Foresters took the form of capital stock. The operations of the company were not limited to the purchase of timber lands, saw mills, western lands, United States railway securities, residential real estate, and other investments to officers in their private speculations."

THEY WENT TO THE STATES. "The estimated value of which was then \$100,000. The estimated value of the same date had, besides, the following assets: Kamloops Lumber company \$310,000; Alexandra Palace shares 150,000; Alexandra Palace stock 130,000; improved Realty Co.'s stock 80,000; Northern Bank shares 188,000; Northern Bank shares 50,000; Vancouver bonds 25,000; Crow's Nest Pass coal 12,500.

Total \$1,015,000. This amount added to the total of \$1,200,000. RAKE-OFF FOR BUYING SECURITIES FROM HIMSELF. The report proceeds to give the particulars of the Montague syndicate loan made in 1906, and the purchase of the lands purchased to the Union Trust company in trust. It mentions that "in connection with the purchase of the Carrot river lands, a commission of \$18,000 was due by the vendors to one Pritchard, their agent."

It being 5 o'clock the speaker left the chair. "This clause would impose a serious hardship upon them."

Mr. McKenney speaking for his constituents said that this clause would impose a serious hardship upon them.

BRANCH FROM CAMROSE TO STRATHCONA

Bill to Grant Charter for Construction of This Line Passed Second Reading--Projected Line Will Run Through Populous Territory--Believed to be Start of Short Route to Winnipeg.

Ottawa, Mar. 5.—The second reading of a bill granting a charter to the Canadian Pacific railway company to construct a branch line between Camrose and Strathcona was passed by the House this evening.

The passing of this bill is of the utmost interest to Edmonton. In the first place it will open up a populous district, the trade of which must centre in Edmonton as a result. But a more important feature of the bill is found in the fact that a project to give Edmonton a more direct C. P. R. connection with Winnipeg. It is conjectured that this branch will be extended from Camrose to the main line, probably at Moose Lake. If this materializes it is generally admitted that the C. P. R. will then push the line through to the coast. The branch from Camrose to Strathcona will probably run north by way of Hay Lakes, New S
