LAST TRIP OF YEAR.

William, Nov. 30—If the gale
raging on Lake Superior does
increase in velocity before mid-
day it is certain the fleet of mail
steamers in port today will have
to make a final trip of the year.
The cargo of grain and depart-
ments of navigation closed at mid-
day. In their race against time to
take vessel owners against the al-
most prohibitive rate of insurance
which goes into effect tomorrow
the superintendents along with
the crews have reinforced their ar-
ranged of regular longshoremen
and crews of recruits who, know-
ing their services are indispensable
amounting fifty cents an hour.
The less grain than last year has
been forwarded from the head of the
lake, the receipts of general mer-
chandise and coal have been fully
a percent better than during
the same period before. The number
of vessels that will take storage grain
into winter quarters here will
be known until tomorrow morn-
ing and will probably depend largely
on the storm.

CALEDONIAN SOCIETY.

The annual meeting of the Caledonian society, held in the separate
hall, Thursday, John MacPherson
was re-elected president for the
year by a unanimous vote. The
Caledonian society now stands
at the head of the city's organi-
zations and its success in the past
has been in a great measure due
to its strong organization and executive
ability. The president, this is the
line in the history of the society
and a president has held office for
more than one term, and that in itself
is a testimony to the members
in Mr. MacPherson.

ecutive have been re-elected and to-

Liberals Are Jubilant

At the Carlton and the Unionist
places, much disappointment was
expressed. In Liberal quarters the great-
est enthusiasm prevailed for it was
predicted even among the staunch-
est supporters of the Government
that the Unionists would make a gain
of eight seats in the coming elec-
tion. A number returned unopposed
is Alderman Daniel Boyle for
North Mayo. Boyle won his seat last
January by a forty vote margin and his
unopposed return now is attributed
to appreciation of his services in ac-
companying John E. Redmond on his
recent mission to America.
Mr. Redmond tonight issued a public
denial of the allegation made by
Conservative circles that the
public speech he (Redmond) had re-
pudiated allegiance to the King.

Comments of Press.

London, Dec. 5.—The Radicals
had another bad day," says the Daily
Mail.
"Another shattering blow was deliv-
ered by the voters at the presen-
tations of the Peers yesterday. The
Tory party's last faint hope of suc-
cess were extinguished finally," de-
clared the Morning Chronicle.
Perhaps a more impartial judgment
on the day's results would be that
they constitute somewhat very like a
drawn battle with a slight advantage
to the Conservatives. "The Chronicle's
prediction does not make much of an im-
pression on the majority of 122, when
one-third of the seats in the Com-
mons are already filled and with
Scotland and Wales yet to poll. Pri-
vately it is probable that the Minis-
terialists are glad it is no worse, for
several seats fought were delivered by
very small majorities in the January
elections. That only two London seats
should turn over and those held by a
majority of 10 and 31 is not consid-

Conversion of Middle Classes.

Apparently the metropolis is much
the same as January in its attitude
towards the Conservative parties. Per-
haps rather significant are some of
the Liberal gains such as Wakefield,
a Cathedral city, which has been re-
presented by a Unionist for eight
years and Cheltenham another Tory
stronghold and residential city large-
ly composed of the middle classes.
It is also notable that in the Royal bor-
ough of Windsor the Liberals suc-
ceeded in reducing the Unionist ma-
jority. These signs of conversion of
the traditionally Conservative middle
classes may be an indication of a
similar change in the country agri-
cultural districts which went almost en-
tirely Unionist in January.

London Becoming Interested.

London, Dec. 5.—The returns tonight
displaying much enthusiasm and the
successful candidates are being borne
in processions through the streets
by torchlight. At the returns some-
thing is showing the closeness of the
contest. Interest is greatly increased
and crowds gathered in great numbers
at Trafalgar Square and other places,
where the results were shown, cheer-
ing and booing according to their
political affiliations. The returns were
fair scenes in Liverpool, Leeds and
other towns where elections were
held.

The weather improved greatly during
the afternoon and evening so that
the crowds were enabled to watch the
returns without discomfort. The po-
litical clubs were filled with members.

Burnley, where the Unionist major-

of winning Battersea, where, how-

ever, Right Hon. John Burns, has put
up a hurricane fight. The Government
majority is now estimated on the
stock exchange from 83 to 88, while
the premium against the return of
the Liberals has been reduced at
London from 26 to 15 per cent.

Call the Register Unfair.

Taking a line from Mr. Balfour's
speech at Sheffield last night most
of the Unionist morning papers blame
the Register for "rubbing" the
elections on the old register, and as
a further excuse for the failure of the
Unionists to make a better showing
at the polls complain that they did
not have sufficient time to perfect
their electoral organization.
The Daily Telegraph says: "If it
had not been for the deplorable in-
feriority of the Unionist organization
both in London and Manchester the
work of stamping out the 'dollar do-
mination' would be still further ad-
vanced."

Telegraph, Very Cross.

The Telegraph proceeds to outdo it-
self in rabid denunciation of the As-
quith-Redmond coalition and their in-
feriority "charlatanism or ignorant
minds inflamed with class hatred by
insincere men."
The advance of the Telegraph and of
all other Unionist organs to their
party today is to work their hardest
in the remaining pollings to increase
the gains already secured.
The Liberal papers editorially ex-
press entire satisfaction.

COMMISSION SYSTEM
IN FORT WILLIAM.

Fort William, Dec. 4.—
Government by commission
will be the issue during the
coming municipal election.
The Commercial Club is active
in advocating the idea of
three paid men to take full
control of the city's business,
with the council only as a
legislative body and asking
the ratepayers to vote on the
subject at the earliest possible date.
The present council favors the
idea and is preparing to ask
the Ontario government for
the proper authority.

EMPHASIZES NEED OF
STRENGTHENING POLICE

Commissioner White of Mounted Police
Presents Annual Report to Sir Wilfrid
Laurier—Urges Increasing the
Strength of the Force—Now 600
Officers and Men.

Ottawa, Dec. 4.—The need of
strengthening the North West Mount-
ed Police is emphasized in the annual
report of Commissioner Fred White,
on September 30th, there were 600
officers, non-commissioned officers and
men in the force. In Alberta there are
261, Saskatchewan 302, Territories 25,
Yukon 60.
"In the last annual report," says
Col. White, "I ventured to express to
you my views upon the inadequacy
of our present strength. The experi-
ence of the year has only confirmed
and strengthened these views. Settle-
ment is going on apace, railways are
building into every portion of the
provinces, and towns are springing up
along these lines. No one will dispute
the value of maintaining law and order
among the new-comers from the very
beginning. The moral and materi-
al advantages to Canada of a well-
ordered and well-conducted police
force in these new provinces are well
understood that I feel justified in re-
submitting the question of an increase
of strength to your consideration."
The Commissioner's recommendations
for the continuation of the force in
these provinces for another term of
five years are:
"During twelve months 10,689 cases
were entered, convictions resulted in
3,012 cases, being 30 per cent of the
cases tried; 1,218 cases were dismissed
or withdrawn and 148 cases were
awaiting trial on September 30. There
is an increase of 3,195 convictions over
last year.
"This appears startling, but on ex-
amination of the returns it is found
that the increase is almost entirely due
to convictions in minor cases. Un-
der assault account for 2,131 offences. Un-
der the vagrancy Act there were 1,130
convictions. The remainder were for
convictions and the conviction under
provincial laws, which are not crim-
inal, accounted for 1,113.

RECOMMENDING
AND WRITING TESTS

U. S. Commission on Immigration Pre-
sents Report on Voluntary and
Recommendations, Including Re-
quirement of Certain Amount of
Money.

Washington, Dec. 5.—The commis-
sion on immigration appointed in
1907 expired today and the results of
its investigations into all phases of
the question make about forty vol-
untary recommendations. The recom-
mendations made by the commission
whereby in certain cases restriction
might be effected, in reading and
writing tests, exclusion of unmarried
unskilled laborers, limitation in the
number arriving at one port and from
certain races, as well as the amount
of money to be in their possession on
arrival.
It is stated that the immigrants
coming do not furnish any more
criminal or subjects for charity than
the native born, while statistics show
the immigrants to be more successful
in agricultural pursuits than in city
life. The report urges that a more
beneficial distribution of new arrivals
among the agricultural districts be
carried out. Among the recommenda-
tions made are: efforts to exclude all
East Indians, through an agreement
with Great Britain, the continuance
of the present Chinese exclusion laws
as well as the regulation with regard
to Japanese and Korean immigrants.

Vancouver, Dec. 5.—Six hundred feet

the Fraser River between Pitt river
and Hammond station, on the Cana-
dian Pacific, has been secured by the
half of the Alberta Pacific Elevator
Co., in connection with its project of
shipping export grain, via the Pacific
route. The site is about two and one-
half miles west of Hammond. It is
understood that it will be used as a
site of the proposed elevator. The
same company also plans to erect
another elevator in the east end of
this city on the south shore of Bur-

A. & G. W. BILL GOES
TO THIRD READING

LEGISLATURE ADVANCES THE
MEASURE THROUGH THE
COMMITTEE STAGE.

The Legislature intends to drop
the speech-making that has been the
main feature of the past three weeks
and get down to business was apparent
from the debate on the A. & G. W. bill
yesterday. At the afternoon session all
the items on the order paper were wiped
out with the exception of the bill for
committee of the whole. At the even-
ing session a number of those were
disposed of.
With the closing of the debate on
the Waterways bill the public interest
is dying off. Yesterday afternoon the
speakers did not number more than
a dozen people and the law officers
who last week had their hands full
were given little work to do.
There were a number of seats vacated
on the floor of the House. C. W. Cross
and A. Bramley Moore are con-
fined to their homes with severe cold
and J. K. Cornwall, J. J. Roberts, and
R. Patterson, R. T. Telford, Lucien
Boudreau and Joe Stauffer were am-
ong the other absentees.
A. & G. W. ADVANCED.
The bill respecting the A. & G. W.
was advanced another stage
and passed through committee of the
whole on the floor of the House. The
bill proposed by the Premier.
R. B. Bennett conducted a strenuous
opposition to several of the clauses
so interested was the committee in
the discussion that the House did
not adjourn till nearly half past six.
The bill was advanced to the second
stage of the bill, however, Mr. Bennett
met more than his match in the
Premier who succeeded in convinc-
ing the House of the correctness of his
view.
Mr. Bennett objected strongly to
clause two wherein were the words
"that the money would form part of the
general revenue fund" without any
set-off, counterclaim or other deduc-
tion whatsoever. He offered an amend-
ment that these words should be stric-
tly deleted. The amendment was defeat-
ed.
Another bill to compensate
Premier Sifton said he proposed to
bring in another bill dealing with the
legitimate claims for work done or ex-
penditures incurred by the Government.
Mr. Bennett urged that these two
bills should be discussed together. The
Premier said he would do his best to
know the other.
"This bill has already passed on its
merits," said the Premier.
Mr. Bennett, in reply, replied the
junior member for Calgary.
He also moved an amendment that
the money should be paid, "out of the
proceeds of the sale of the natural re-
sources of the country, and not out of
the A. & G. W. Co. or its successors
and assigns." This also was defeated.
The Premier said he would do his
best to know the other.

shall not be entered on the list of vot-
ers for any electoral division of the
Province until after the expiration of
six months from the date of his ceas-
ing to be such judge.
BILL NOT QUICK DEATH.

Mr. Bennett in introducing the bill
said it was one which probably would
not meet with the endorsement of a
majority of the House as at present led.
Its object was to prevent another oc-
currence such as that in the Province
after the resignation of Dr. Rutherford.
The correspondence tabled in the
House did not reveal one line as to why
the Chief Justice stepped down from
his high office to become a bitter po-
litical partisan. Possibly there was
some reason but he had not learned
to the present time. The last days
of the bill was the worst of the
Attorney-General several days ago
when he said he did not see why he
should not step down from the bench
to accept political office. If he was con-
sidering the idea of stepping down from
the bench he must necessarily be
looking for a constituency. He said
he could not see how he could adhere
to the high ideal attributed to him.
The bill would apply equally to Liberals and
Conservatives though it had been re-
ferred to the latter as the best legis-
lator of the bench to resign.

Calgary College Bill
BEFORE COMMITTEE

R. B. Bennett Takes Objection to the
Name Which He Says Will Conflict
With Calgary University, Which
Was First in the Field.

The bill to incorporate the new Cal-
gary College was up for discussion
Tuesday before the Miscellaneous
and Private Bills Committee. The
bill is being promoted by E. Michener,
Red Deer, who is one of the directors.
The college will be non-sectarian,
though it will be supported almost
entirely by the Methodist denomina-
tion.
There were a few amendments of
importance made to the draft bill.
One of the changes was the striking
out of the word "higher" in referring
to the education and inserting the
word "secondary."
Mr. Bennett took objection to the
name "Calgary College." If the bill
were passed incorporating the Cal-
gary University without degree confer-
ing powers it would necessarily be called
Calgary University College, a name
which would conflict. As the univer-
sity was first in the field, he
thought it should be given the prefer-
ence in name. He suggested the
words "Calgary Methodist College."
This matter was allowed to stand un-
til the meeting of the Calgarvian Univer-
sity was considered.
A bill relating to the transfer of
certain land to the City of Lethbridge
was also before the committee. Dr.
Coryear, of Lethbridge, appeared on
behalf of this bill, which was dis-
cussed at some length before adjourn-
ment.
Paris, Dec. 2.—Flood conditions are
again general throughout France.
About three and one-half feet of rain
fell in November, and from all sec-
tions come stories of immense dam-
age. Although the Seine and Rhone
were stationary today, the Gironde,
Garonne and Lot rivers continued
rising. The rivers of Normandy
and Brittany are greatly swollen.
Great jars of the serious effects upon
next year's cereal and wine crops is
felt.

TEAM PLUNGED
OVER THE BANK

SENSATIONAL RUNAWAY ON SIX-
TEENTH STREET AT MID-
NIGHT LAST NIGHT.

At midnight last evening a team
of horses drawing a pair of sleighs
and a wagon box dashed at head-
speed south on Sixteenth street, to-
wards the brow of the hill overlooking
the river. Within a block of the
south end of the street their progress
was temporarily checked by a pile of
lumber in which they became entan-
gled, but breaking away once more
they headed at top speed for the hill
and disappeared over the edge, and
carrying the sleighs with them took
the first fifteen feet at a leap and
then rolled in a confused mass down
the steep declivity to the E. and F.
track, a distance of sixty or seventy
feet.
A pedestrian whose attention had
been attracted by the noise at once
notified the police. Sergeant Camp-
bell and several men set out immedi-
ately to investigate the accident.
Descending the hill they found the
mangled remains of one of the horses
lying beside the sleigh, the tongue
of which, by the force of the fall, had
been driven several feet into the
ground. Lying at a short distance
and tangled in the harness was the
second horse which when overtook
was found by some miraculous means
to have escaped injury.
About to leave the scene with the
surviving horse, under the impression
that there had been no driver with
the team, one of the officers stumbled
over a man's cap, and upon further
search discovered a coat. The possi-
bility at once presented itself that the
team had had a driver, who, injured
by the fall, had crawled away in
search of assistance and who, if not
found, would certainly be frozen to
death. A vigil was kept, and in-
deed, but proved fruitless, and the
police at last returned to headquar-
ters.
In the course of an hour or two
information was received at the police
station which led to the discovery of
the owner of the team, who was found
at the Richelieu hotel. The driver
was B. T. Herbert, a farmer who re-
sides in the vicinity of Morville. The
second horse was an exceptionally good
one.

SENTENCED TO THREE YEARS.

Royalist Who Assaulted Premier
Benedict and Seize Three Years.

Paris, Dec. 5.—The Royalist, Lacour,
who assaulted Premier Bénédict two
weeks ago during the ceremonies in
the Tuileries garden in connection
with the dedication of a statue to
Jules Ferry, was sentenced today to
three years' imprisonment. Lacour
pleaded the point that the court was
incompetent to try the case and re-
fused to plead. He was therefore
condemned by default.
