

TO THE MUNICIPAL ELECTORS ST. JOHN'S, EAST and WEST.

GENTLEMEN,—

On Monday, the 27th inst., you will be called upon to make your choice of the six men to represent you in the Municipal management of the City for the next four years.

As one of the candidates seeking your suffrage, I thank all those who have assured me of their valued support. I also take this opportunity to ask those with whom I did not have the privilege of a personal interview for their vote and influence, and if returned will assist my fellow councillors in every way to better the condition of the city.

Again thanking you gentlemen, in anticipation, I remain yours, respectfully,

MICHAEL W. MYRICK.

C.E.I.-C.L.B. Sports Yesterday. Notes From Harbor Grace.

Under very favourable conditions the annual sports of the C. E. I.-C. L. B. took place yesterday afternoon at St. George's Field.

There was a large gathering, and a light easterly wind prevailed after four o'clock made the weather ideal for the competitors and not too unpleasant for the spectators. Amongst those who came to see the contests were:—His Lordship the Bishop of Newfoundland, Chief Justice Howard, Judge Johnson, Rev. Canon Dunfield, Rev. Canon White and Lady Howard.

The band of the C. L. B. played appropriate music at the opening of the programme. The College football contest in the final five between St. Bon's and the Collegians was very exciting. No scoring was done within the ten minutes, and in the "play off" the Collegians gained a corner thus winning the gold medals; St. Bon's boys won silver medals.

The presentation of prizes did not take place. It is likely that the prizes will be presented next week.

The hundred yard dash was also an interesting event, and the contest was exciting between G. Knight and E. Bowring. They came neck and neck to the third when the victory fell to Knight, who also distinguished himself by breaking the quarter of a mile record by one second and a half, covering the distance in 54 1/2 seconds.

Following is the programme in full and the winners:—

Notes From Harbor Grace.

Owing to some of the members of the band being unable to get off from work, the British band concert and dance at Brigus has been postponed until Wednesday, 29th inst.

Lads and lassies with smiling faces are wending their way to the Academy and St. Paul's Halls as I write. The C.E.I. exams. commence to-day.

A glance at the tidy and neat appearance of the candidates seems to indicate that a large number will pass, that is if their work proves as good as themselves. We wish them all success. I will endeavour to give you all the names for a note in your columns.

FIELD COMMITTEE.

Capt. D. Connolly of Messrs. Ryan's Virginia was in town yesterday to see his friends. The Virginia is on her way to Labrador with a coal cargo for the Hawk's Harbor wharf and touched into Carbonar on her way.

RECEPTION COMMITTEE.

Mr. John Ryan, the very efficient mail carrier to and from the station here, was apprised on Saturday night that another man had been given the conveyance of the Labrador mail to Brigus, etc. This was always the work of the regular man, and as Mr. Ryan had gone to considerable expense to secure the necessary vehicles for such work, he considers he has not been dealt fairly with. Since taking charge of the mails Mr. R. has given every satisfaction, and it seems a pity to have him put to this unnecessary expense. Mail carrying is a very important part of the public service, and it is something that should not be handed around from one to another. A man receiving the appointment for carrying His Majesty's mails should be compelled to do so himself as far as possible. This Mr. Ryan has done since entering the service.

JUDGES.

Farmers tell us that owing to the backward weather at present vegetation is not making so much progress as was at first thought. One farmer has planted some potatoes on April 18th, and more on May 18th, and a third lot on the 8th of June, and there is very little difference in them now—peeping over the ground is all I can say.

LONDON, June 22.—A Spanish sailor who was washed ashore at Penzance yesterday claims that he is the only survivor of the Spanish steamer Febro, from Bilbao for Newport. The sailor says that the steamer foundered with the crew of 25 off Lands End Monday night.

Chicago Stock Co.

Large audiences at both matinee and evening performances yesterday greeted the Chicago Stock Co's production of "The Great Gatsby" of Old Drury. The play proved most entertaining, and better pleased audiences have rarely filled our local playhouse. In the name part, Clara Belle Fraser had a character which fits her personality to a nicety. The entire company were at their best and the rich costumes and handsome scenery displayed everything to be desired. This evening the company will present Clyde Fitch's modern play of city life, entitled "The Straight Road." It tells a tale of manhood and rescue and reform through the efforts of the mission house, and carries a moral that will be stamped upon the heart of all. It is a heart story and once seen will never be forgotten.

TO-NIGHTS MATCH.—The Fieldians and Casuals will meet in the League Football match on St. George's Field to-night and a good game is looked forward to.

"Nothing seemed to build up my nerves until I made use of Dr. Chase's Nerve Food. After having used about \$12.00 worth of this medicine I feel like a new man. I can walk all right, have a good sleep, and have a good appetite and sleep well every night."

When you have tried all experiments you can turn to Dr. A. W. Chase's Nerve Food knowing that persistence is bound to be rewarded with lasting beneficial results. But you must get the genuine, bearing portrait and signature of A. W. Chase, M. D.

FRENCH BIRTH RATE.

Special to Evening Telegram.

PARIS, June 22.—A series of measures designed to stimulate the birth rate in France was introduced in Parliament to-day. They include the imposition of additional military service upon a bachelor over 25 years of age, making obligatory the marriage of state employees, who have reached the age of 25 years with supplementary salaries and pension allowance for those with more than 3 children, and the repeal of the law requiring the equal distribution of estates among the children. The dislike of Frenchmen to divide their property is a frequent cause of restricted families according to those who have made study of the subject. This proposed legislation follows the recent publication of statistics which showed that the births in the Republic during 1909 were 770,000 against 732,000 in 1908, and that the population has been increased by only three million since 1851.

INSPECTION OF OVERSEA FORCES

Special to Evening Telegram.

LONDON, June 22.—In the House of Lords, Lord Lucas stated that the Overseas Dominions would be asked at the next Imperial Conference whether they approved of the idea of inspection of their forces by the Command-in-Chief of the Mediterranean Forces. Lord Lucas emphasized the fact that there was no officer of this country sending an officer, however eminent, to inspect the self-governing dominions except at their request. It would not necessarily be a periodical inspection, he concluded.

The passengers were some of the directors of the company and guests. They occupied the mahogany walled and carpeted cabin situated between the Gondolas. The route had been carefully marked out in advance and was followed exactly.
