The beginning of "Paisley Flour"
 The SURE raising powder

 was when Brown & Polson discovered that the addition of a proportion of their Corn Flour to the ordinary flour when making scones, buns, pastry and cakes, made a great improvement in added lightness, fineness and digestibility.
 To the Corn Flour were added raising ingredients of the highest purity, resulting in the production of a new raising powder, which by its ease in use and improved results has marked an advance in home baking.
 "Paisley Flour"—the sure raising powder—is sold in 27, 14 and 5 cent tins, really 28, 14 and 2 pence of ordinary flour. The 27 cent tin will raise 7 lbs. flour.

Reduce Your Coal Bill BY USING

'Kolecon'

The Coal Economiser.
SAVES 5 CWT. IN EVERY TON OF COAL.

KOLECON furnishes to coal just what coal lacks to make a perfect combustion, and by using it the coal is all burnt, and the air of the room remains sweet and pure. By the use of Kolecon a fire can be kept burning continuously, and the ashes will rake out free and soft.
 When Kolecon is used, the smoke and soot are consumed. No clinkers or half-burned coal are possible when using Kolecon, even the ashes become an almost impalpable powder, which is easily drawn away when necessary.
Kolecon will make a poor quality coal do the service of the best qualities.

TRIAL PACKAGE, 25c.
 This package is sufficient to treat half ton of coal.
