### 2379

This is the number of new subscribers secured by the Maritime Telegraph & Telephone Company during the past year. This represents an increase of about 16 per cent., and the directors state that it would appear from present indications that this rate of increase will be maintained for some time to come. What this means to the holders of the Common Shares of the Company will be readily appreciated.

We have instructions to offer a small block of this Common Stock at an attractive price, to yield well over six and one half per cent.
