Our Baseball Column.

PLAGIARISED AND OTHERWISE.

NEXT WEDNESDAY.

The fans are looking eagerly forward to next Wednesday's games. There will be two of them. The first will start in the morning at 11 o'clock and the other in the afternoon at 3.15. That interesting contest between the All-Comers and Natives which had to be called at the fifth inning on yesterday week is scheduled for the morning's exhibition. In the afternoon the team picked to play at Grand Falls will play a team from the other members of the League. These two games give promise of the best brand of baseball yet played here and should be witnessed by every lover of the "National" sport.

ANSWER TO "A FAN."
Editor, Baseball Column.
Dear Sir.—On reading the letter in your Column yesterday signed "A Fan," I was surprised to see him stating "the above thirteen men which comprise the team are CORRECTLY PLACED IN THEIR USUAL PLAYING POSITIONS" and in addition are the leading thirteen batters of the

League." How he made this mistake I cannot say, as if he witnessed any of the League games at all this season he must surely have seen that three of the players mentioned did not play the positions he has assigned them. I think the "Editor" of your Column last season very strongly objected to players being shifted from any position other than the one occupied by him with his own team, and especial mention was made at that time about playing infielders in outfielders' positions and vice versa.

So far as the premier positions on the diamond are concerned I entirely agree with him, viz. Pitchers, Hall, Carew, Catchers, Clouston, Brainerd, 1st Base, Hillz; 2nd Base, Williams; 3rd Base, Canning. Short-stop—Just here is where I differ from yesterday's writer. My choice for the position is McCrindle. While his average shows only .200 as against Murphy's fine one of .416 still we must look just a little closer into the matter. McCrindle scored 15 runs for his team in the six games in which he played and to my mind what a team wants to win is

RUNS. "Mac" is probably the best base stealer in our League, and for this reason, and the fact that Murphy's regular position is first Base, my choice for the short-stop job falls on McCrindle. Regarding the three outfield positions my choice would be Phelan, O'Reilly and Doyle. The reason for this choice is that these players belong in the outer gardens purely and simply. The spaces I would name are as follows: Hartnett, Britt and Murphy.

I hope you will be able to give this letter publicity in your Column and by doing so you will oblige,
Yours truly,
ANOTHER FAN.

We give the above letter for what it is worth. Personally we think the subject is open for much discussion, as owing to the very inadequate means of determining the correct averages of each player we are rather inclined to think they do not show the correct value of the players.

A Serious Matter

There is a delicacy about mentioning piles. And yet so many suffer needlessly who could be readily relieved and cured if they only knew about Dr. Chase's Ointment.

Men tell one another about this remarkably successful treatment. But many women pine away their health and vitality, dreading a surgical operation and not knowing how easily they can be cured at home by Dr. Chase's Ointment.

At the City Hall.

The weekly meeting of the Municipal Council was held yesterday afternoon. The Mayor presided and the full board was present. J. S. Keating, Deputy Minister of Finance, wrote acknowledging receipt of cheques for \$35,242.63 being half year's interest and contribution towards Fire Department due Newfoundland Government.

The caretaker at Windsor Lake reported on the woods being set on fire in that vicinity. Parties found lighting fires in this locality will be prosecuted.

Medical Health Officer Fraser, reported one case of diphtheria in the city for the week.

P. W. Freeman's application for permission to erect scaffold, 9 Bonclody Street, was granted, subject to Engineer's approval.

The following plans were approved subject to the City Engineer—Hon. W. J. Ellis, to build extension to garage, Adelaide Street; H. G. Herder, to build on Pleasant Street; Mrs. Thos. Stick, to build additional story to house, 3 Young Street; Alfred Learning, to build on McNeil Street.

Complaint has been made of fishermen making a practice of selling fish from their boats in Beck's Cove and not using the market for washing their fish. The fish markets are erected for this purpose and they will be made use same.

Councillor Mallory brought to the notice of the Board a letter of Hon. John Anderson's on the Housing Scheme, which appeared in the daily papers of August 30th in which he stated: "It seems a pity that the City Council did not see their way clear to assist and support the effort made by the citizens in the great housing scheme of the Dominion Co-operative Building Association, Ltd." On the contrary instead of this being the case the Council has never been approached or asked to assist the proposed Housing Scheme in any shape or form.

Reports of the City Engineer, Plumbing Inspector and other officials were read.
Pay rolls and bills for the week were passed and after disposing of some routine business the meeting adjourned.

WORK OF I. W. W.'S.

CHICAGO, Sept. 4. Four persons were killed and more than 75 others injured by the explosion of a bomb among a crowd at the entrance to the Federal Building at 3.10 o'clock this afternoon. The explosion not only wrecked the entrance of the building, but shattered every window on the first three floors of two buildings across the street. It was attributed to the I. W. W. by Philip J. Barry in charge of the local office of the Department of Justice.

Raid on two headquarters of the I. W. W. within fifteen minutes after the explosion resulted in the arrest of nine men. Several more were taken into custody within the Federal building, and a woman, whose name was suppressed, was arrested in a nearby building. To-night more than 1,500 Government agents and the entire city police force was seeking the perpetrators of the outrage.

WORK OF THE BOLSHEVIKI.

LONDON, Sept. 5. The attack on the British Embassy in Petrograd last Saturday, involving the sacking of the embassy and the killing of Capt. Cromie, the British attaché, has aroused intense indignation here. The London morning newspapers in their editorials denounce the attack in the strongest terms and endorse the British government's action in the demand upon the Bolsheviki Government for reparation and the threats of outlawry for the members of the Soviet Government should it fail to give complete satisfaction or should further acts of violence be committed against British subjects. They assure the Government that it will have the support of the nation in enforcing the punishment of the perpetrators. According to the Foreign Office advices, Capt. Cromie opposed the Bolsheviki troops and killed three soldiers with his own hands. Captain Cromie was killed and his corpse was mutilated. The documents at the Embassy were destroyed. It is feared that similar outrages will be committed against the French Embassy in Petrograd. Precautionary measures have been taken, the Foreign Office says, and some French soldiers already have arrived at Petrograd. The Bolsheviki are reported to be encouraging the populace to massacre the British and French.
