On the that I second day the extraordinary incident previously referred to took place. This will be treated in a separate paragraph. On this day of his address, Sir Michael referred to railway matters. The Government, Ite declared, had taken over the control of the Railway after the House had closed, with disastrous results. The Government made an arrangement with the Reid Co. sible only for liabilities up to \$100,000 and other matters, in 12 manner which

Here and there little knots of members of both parties discussed the situation. Everywhere warmed the people who had invaded was everywhere. Ashes and ink mingled on the rich carpets and there in the Speaker's chair, still sat the man who had taken it, calmly smoking a cigarette. It was a sight which no legislative Chamber had ever previously witnessed. It was not until Sir Michael Cashin addressed them, did the crowd listen to reason. At the Opposition Leader's request, they moved off in an orderly fashion after calling for more cheers and by 6.30 p.m., beyond the stains on the carpet, no signs of the disturbance could be seen.

Amongs the Bills passed during the pass session, there were few of any great importance, and these few will be dealt with in special paragraphs. Of the minor legislation there is not very much to be said. The debate on the Bill to Repeal the Codfish Exportation Act was lengthy but did not bring out many facts which had not been previously stated in the debate on the Address in Reply. Several Bills were passed in connection with Pulp and Paper contracts, the exportation of pit props. Exploration for oil and several similar matters. In the matter of the Woman Suffrage Bill the Government similar matters. In the matter of the Woman Suffrage Bill the Government was guilty of a most despicable act. They bueyed up the hopes of the suffragettes and premised that the Bill should be introduced as a party measure. It was presented to the House by the Prime Minister, who, in spite of his previous promise, declared it to be a non partizan measure. After a division, the Bill was referred to a Select Committee whe have not yet reported. The same course was taken Select Committee whe have not yet reported. The same course was taken with the Moderate Prohibition Bill. The Bell Island Ore Tax Resolutions were passed after being dealt with by a Select Committee, as were also the Bills concerning the Welfare of Children and Pensions. There was little importance to be attached to all of these Bills although some are likely to have considerable effect upon, the economic condition of the country.
