

The General Elections.

A Cabinet Shuffle, in Which Mr. Bowell Goes Under.

Divided Councils as to Proposed New Blood.

Remarkable Declaration by a Chaplain Organ in Quebec.

Liberal Candidates Meet with a Cordial Reception.

Ottawa, April 23.—Sir Mackenzie Bowell, having been squeezed out of the Conservative leadership, Sir Charles Tupper has been asked to form a Cabinet to act until the general elections. He is now engaged in endeavoring to get together his material. He has been making a great effort to have Chief Justice Meredith and Lieut.-Governor Kirkpatrick lend their aid to patch up a Ministry, but it is believed here that the attitude of La Presse, the most influential Conservative newspaper in Quebec, will prevent the consummation of the deal, even were it probable that either of the gentlemen named were willing to ally their fortunes with the disorganized and dying cabinet. La Presse, which is edited and controlled by strong personal friends of Hon. Mr. Chapeau, in its issue of last night, begins by stating that the Conservative press all over Canada has been advising the new leader at Ottawa to infuse new blood into the cabinet, but it appears to have forgotten that the operation of infusing new blood in politics is as dangerous in politics as in surgical operations. If it required to infuse into the Premier's right arm the blood of the Merediths and the Kirkpatricks, and in his left arm that of the Angers and the Chapeaus, God only knows what the mixture of these fluids would result in when they met in the heart of the unfortunate chief of the Conservative party. Contagion would be immediately followed by paralysis. The task devolving upon Messrs. Meredith and Kirkpatrick would be to rally the Wallaces, the McNells, the Macleans, the Sproules, the Tyrwhitts et al., and to bring about the acceptance of the Government school policy by the Province of Ontario. Is it to be believed that in such company Chapeau, with all his eloquence and diplomacy, and Angers, with all his firmness, even if they were supported by the clergy and three-quarters of the population of this Province, could redress our wrongs, vindicate our rights, and strengthen our influence at Ottawa? Is it wise to sacrifice our best men to allies who have so cruelly deceived us, and is it to be supposed that Chapeau and Angers are in a hurry to become the step-ladder by which these men will climb to power? We cannot answer these questions, but it seems to us that there should be a limit to all this.

This is the Quebec view of the manipulations of the usurper of the Premiership. It may be interesting to quote an Ontario view of the same man, given on June 9, 1891, by the Toronto Mail. Referring to an address by Hon. Edward Blake, the Mail then said: "Of the system which Mr. Blake deplores, Sir Charles Tupper has notoriously been the chief agent, all that is worst in it and has been most to debase the national character is familiarly connected with his name, which may be said to be a household word of corruption and dishonesty. He is doing the dirty work of a political party, his hands are clean, or that, if he governed the nation, its honor, while it might be in danger from such exposures as that of the Pacific Railway scandal, would be secure against a deeper stain. His name is at this moment unpleasantly connected with a suspicious commercial affair in England, and if the sentence of the arbitrators in the Oudepond contract case next month should be against the Dominion, another sinister transaction will be recalled to mind. It is too evident what sort of scene would be opened by his accession to power. He is the Prince of Political Cracksmen, no doubt, but we cannot afford to purchase ability even of so rare a kind at such a price as that of continued and increased demoralization. The appointment of such a man at the head of the State would not be merely the inauguration of a new era of corruption or statesmanship; it would be the signal for a disruption of the community and for a moral civil war."

Archbishop Langevin, of St. Boniface, Man., preached at Hull on Sunday. In the course of his remarks he said it was the duty of every Catholic elector, before voting, to exact from every candidate a pledge that he would give Roman Catholic separate schools to the minority of Manitoba, and not accept a compromise of any kind. The Catholic minority in Manitoba knew what they wanted. They wanted separate Roman Catholic schools, and nothing else will be acceptable to them. Long speeches from candidates to the Catholics were unnecessary—a pledge was what was wanted. Those who refused to give the pledge that the minority wanted were false friends. The bishop, he said, would issue a mandament, instructing the electors who to vote for.

In the Spring:

Purify the Blood by way of the Kidneys. This is Nature's way of doing it, and the way.

DODD'S Kidney Pills Do It!

That you get DODD'S Kidney Pills is dangerous!

Western Ontario.

Latest Happenings in this Section of the Province.

Protestant Separate School at Tilbury—Explosion at Walkerville—Peculiar Accident to an Elgin Man.

The St. Thomas city engineer has reported that it will cost \$57,970 for an electric lighting and railway plant. Mr. J. Watkins, of Woodstock College, has received and accepted a unanimous call to the pastorate of the Hartford Baptist Church.

Rev. G. B. Davis, having completed a two years' pastorate in Sparta, has moved his family, including Grandma Ranney, now 95 years of age, into Ingersoll.

The county of Essex sold \$10,000 worth of 4 per cent debentures at a premium of \$15 and accrued interest. The latter may bring the price up to \$500 premium or more.

Mr. Walker Green, one of Elgin's oldest settlers, died on Friday, at his residence in Union, of heart failure, after a week's illness, aged 83 years. He was born in Yorkshire, and came to this country in 1847.

The death occurred on Friday at Kingsville of John W. Wight, a manufacturer. The deceased was one of the oldest and most respected settlers of the county, a son of an U. E. Loyalist. He was 70 years of age.

Miss Jennie Crawford, of Ingersoll, will leave next month for St. Peter's Mission, Hay River, where she will assist Miss Marsh in the Indian school. She will go in company with Mr. and Mrs. Stringer, who return to Peel River by way of Fort Simpson.

Station Agent Dunn, of the C.P.R., Chatham, has been putting forth strenuous efforts to buy the picnic of the C. P. R. employees to that city this summer. The most probable date is June 26, and the attendance will number less than three thousand persons.

Robert McDonald, of Blenheim, is charged with having started the fire that destroyed one of F. L. Pardo's torches at that place. It is said to be something of a pyromaniac, as he has already served a ten years' term of imprisonment for arson. He has also been confined in the asylum for the insane.

George Gordon Martin, solicitor, Chatham, on Saturday received a letter from a solicitor in Badenoch, in the Scottish Highlands, announcing the good news that he and his first cousin, the wife of Henry Rotz, merchant, Blenheim, have been named in the death of a near kinswoman, the late Mrs. Jessie McEldwards Cameron.

The spring show of the West Kent Agricultural Society was held on Sunday. For two years the event had been abandoned on account of the lack of interest in horse-breeding. This year it was resumed, and the solicitation of horsemen in the vicinity. There was a fair attendance. The entries were not numerous, but the class of horses shown was superior to anything ever before shown.

Emile, son of Mr. Yauch, collector of the township of Aldborough, while using a team of horses the other day, met with a serious fracture of the skull, a large, oblong fragment being embedded in the brain. After surgical aid was rendered, by which the fragment was elevated, the skull was left open to permit elevation; the young man became conscious, but is unable to give any explanation of the occurrence, a period of time and his incense being blank at present.

A sad and fatal accident occurred last evening at the home of Michael Gleeson, near Fletcher. The Gleesons, a little party were playing around the yard near the well. In some way one of the boards of the well covering had been dislodged, and the children were taken too close to the death trap, one of them, James Francis, only 2 years of age, fell through. His little playmate gave the alarm, but before assistance arrived the unfortunate babe was drowned. The body was soon recovered, but medical skill could not restore life.

The dissenting Protestant ratepayers who complain of the high rates which French is being taught in their section, petitioned the council of Tilbury North, asking that a Protestant separate school be established to be composed of the Walsh and Morris school sections of the township. The council decided to grant the request of the petitioners, and passed the necessary bylaw, to take effect next year. The new section will include 43 ratepayers, an area of about 2,500 acres, and an assessment of about \$75,000. When made it one of the most wealthy school sections in the township.

An explosion of gas in the boiler-room of the Walkerville distillery blew out the brick flues and came near causing the death of David Cross, who on Sunday went down to start the fire under the battery of boilers. Hardly had he applied the torch when there was an explosion, the brickwork overhead came down by the run, and Cross was beaten to the ground. When the dust cleared away there was seen a gap in the brickwork about 30 feet long by 6 feet wide, and in the rear there was another gap almost as large. Cross was taken to the hospital, but he has sustained, ugly, but not dangerous gashes on the head, neck and breast. He is a married man, with several children. The explosion is supposed to have been caused by gas leaking and accumulating under the boiler.

Le Soir has made a calculation, and shows that the Conservatives were really responsible for the obstruction of the Manitoba school bill. It makes out that Liberals spoke 150 times and 515 hours, and Conservatives 161 times and 1,222 hours.

Dr. Sproule, M. P. for East Grey, was read out of the Conservative party by Sir Charles Tupper, but that fact only seems to have commended him to his constituents, for the doctor was welcomed home to Markdale by a great crowd, who repudiated Tupper and upheld their member.

TOWN AND COUNTRY.

Rev. J. C. Pilkey, of Brighton, has accepted a call to the churches in Mount Brydges and Carleton Place.

ILBERTON.

Ilberton, April 24.—There was not a very large attendance at the spring show held here today, and a small number of horses and cattle were exhibited.

Benish and family, of St. Mary's, have moved to their new farm lately purchased from Mr. G. Colbert. Quite a large number attended the St. Mary's Bazaar concert last week under the auspices of the Ilberton Bicycle Club.

The farmers around here are all busily engaged in seeding just now. Miss McRoberts is visiting her sister, Mrs. Benish, at present.

Mr. George Colbert has moved to the village to live.

Mr. W. Guest was arrested by Constables Paisley and Hughes here yesterday and tried before Magistrate Patrick and Kennedy, who sentenced him to jail to await his trial at the sessions.

Dr. J. H. Wilson, of London, was in our village today attending the spring show.

The roads around here are getting in very good shape for wheelmen now.

Mr. Richard Armstrong was called away last Monday to attend the funeral of his niece, Miss Maggie Armstrong, of Waukegan.

The Ilberton Bicycle Club met last week to reorganize the club and to elect officers for the ensuing year. They are as follows: Honorary president, Dr. Robson; president, J. Clatworthy; vice-president, C. Catmole; secretary, F. Charlton; treasurer, J. Calvert; chaplain, W. Metcalf; first lieutenant, B. Little; second lieutenant, W. Smith. The club is to meet on the first Tuesday in every month.

Prosperous Financial Concern.

Sir Leonard Tilley Becomes Identified With the Globe Savings and Loan Company.

Authorized Capital, \$10,000,000. In Shares of \$100 each.

Subscribed Capital, Feb. 29, 1896, \$2,572,600. Paid Up Capital, \$500,000.

The Globe Savings and Loan Company is one of the prosperous financial concerns of the country. Organized some six years ago, it has been expanding its business from year to year, until now it is thoroughly organized from the Atlantic to the Pacific.

Mr. E. W. Day, late of the Winnipeg branch, has now got settled in his office as general manager at Toronto, and to a World representative, who dropped in at the office, corner of Victoria and Lombard streets, one day last week, stated that business was satisfactory. "Of course, competition is pretty strong," he said, "but I think we are getting our share."

"What kind of loans do you handle?" he was asked. "Our particular line is loaning money on homes, the homes of people who wish to become their own landlords. We can offer terms which make it an object for men to get in homes for themselves, rather than to be paying rent from year to year, which is often burdensome."

"How did you find business last year?" "Notwithstanding the general depression, we had a good year, and were able to increase our assets 20 per cent. Then our business is expanding all round. Mr. F. S. Sharp, our agent at St. John, N.B., has just advised me of the formation of a strong board there, with no less a personage than Sir Leonard Tilley, ex-Minister of Finance of the Dominion, and Lieutenant-Governor of New Brunswick, as chairman. Only yesterday we received a batch of excellent loans from the board. The fact that so prominent a gentleman as Sir Leonard Tilley has identified himself with the business of the company is particularly gratifying, showing that our methods commend themselves to the best men of the country."

"And as to the outlook at present?" "We consider the prospects good. As I said before, the competition is strong, but applications are coming in in sufficient numbers to warrant the statement that we are doing our share, and will be able to show at the end of the year 1896 a further substantial increase in assets."

Mr. Day brings from Winnipeg a good record. He was a member of the school board and was prominently identified with the interests of the Prairie City in different ways. His manner is genial and attractive, and while his countenance indicates frankness and integrity, it is easy to detect there shrewdness and business capacity. It is safe to predict that the interests of the Globe Savings and Loan Company will be well guarded under his management.

The directorate of the company is a strong one, with Mr. William Bell, the well known capitalist, of Guelph, as president.

LONDON CURES.

A healthy condition of the kidneys is the best safeguard against all the ills of this or any other season. Purify the blood by helping the jaded kidneys, and do this use Dodd's Kidney Pills, accepting no substitute or imitation of them.

The surest safeguard against spring catarrhs is a healthy condition of the kidneys. They become overworked during the winter weather, when people neither bathe so frequently nor perspire so freely; hence the greater need of kidney help in the shape of Dodd's Kidney Pills.

"Gentlemen—About three months ago I caught a severe cold which left me suffering severely with some kind of kidney trouble. I was advised to use Dodd's Kidney Pills, and from the first box I found great help, and continued taking them until I had used four boxes. My cure is perfect, and I am passing them on with a good word to every one in a fix similar to mine. Yours, J. L. McKAY.

"60 Euclid Avenue."

A Scottish ballie, anxious to get away from the court house, summarily dismissed a boy brought before him for breaking a window, with the following caution: "If you do this time, I dismiss ye wi' an admonition; but the next time, mind ye, the sentence will be double!"

No obligation to justice does force a man to be cruel. A boy's sharp sentence—Jeremy Taylor.

OUR MAIL.

Our mail brings us every day dozens of letters about Burdock Blood Bitters. Some from merchants who want to buy it, some from people who want to know about it, and more from people who do know about it because they have tried it and been cured. One of them was from Mr. J. Gillan, B.A., 39 Gould Street, Toronto. Read how he writes:

GENTLEMEN,—During the winter of 1892 my blood became impure on account of the hearty food I ate in the cold weather. Ambition, energy and success forsook me, and all my efforts were in vain. My skin became yellow, my bowels became inactive, my liver was lumpy and hard, my eyes became inflamed, my appetite was gone, and the days and nights passed in unhappiness and restlessness.

For some months I tried doctors' and patent medicines of every description, but received no benefit. Being advised by a friend to try B.B.B., I am glad to have the opportunity of testifying to the marvellous result. After using three bottles I felt much better, and when the fifth bottle was finished I enjoyed health in the greatest degree, and have done so from that day up to date. Therefore I have much pleasure in recommending B.B.B. to all poor suffering humanity who suffer from impure blood, which is the beginning and seat of all diseases. J. GILLAN, B.A., 39 Gould St., Toronto.

LITTLE MONEY NEEDED.

How to Dress the Youngsters Well.

Diamond Dyes Keep the Children in New Clothes.

Little money is needed to keep the children well and comfortably dressed. Thrifty mothers rarely buy new clothing for their little ones, yet they always appear nicely dressed. This is the result of using the Diamond Dyes, which make all the fashionable colors with but little work and trouble.

Father's suits and mother's dresses can be taken to pieces, re-dyed, and made over for the boys and girls at a very small expense. The use of imitation dyes means waste of time and money.

Windsor Salt, Purest and Best

The up-to-date Photo is the new Patent, only \$2 per dozen. Cooper & Sanders, corner Dundas and Richmond streets, 777.

TRY IT in Cottolene

Fry your food in Cottolene instead of lard and it will be free from that greasiness and "richness" so distressing to dyspeptics; the flavor will be delicious instead of rancid, and your food will do you good. Put it in a cold pan, heating it with the pan. Cottolene reaches the cooking point much quicker than lard—care should therefore be taken not to overheat it. Follow these instructions—you will never use lard again.
