Miss Myrtie Salls' Recovery.—After a long term of illness from kidney trouble, obstinate constipation, headaches and general bodily pains, Miss Myrtie Salls, of Marlington, Stanstead county, P.Q., has quite recovered, and is able to work about the house as in past years.

For months this young lady's condition was serious; and notwithstanding the fact that she received regular medical treatment and great care, her condition became alarming to herself and friends. Miss Salls, like thousands of other suffering individuals, determined to try Paine's Celery compound, which some friends recommended. The results that followed the use of that great medicine were wonderful, and delighted everyone who was interested in the young lady's recovery. Miss Salls is now a firm believer in the efficacy and value of Paine's Celery Compound; and her friends are of opinion that no other medicals in the world could have restored Miss Salls to her present good health. Under date of May 23, 1893, Miss Salls writes as tollows:

"Your Paine's Celery Compound has done so much for me that a sense of duty compels me to speak in its favor. For a period I suffered terribly from kidney trouble; often I was so bad that I could not stand. Owing to kidney disease other sufferings were endured, such as constipation, headaches and bodily pains. I was unable to work at anything, my appetite was bad, and I did not sleep well. Thank God, things are now changed; I used your Paine's Celery Compound and have been entirely cured of the kidney trouble, and now find myself a new being. I can now work hard every day, my appetite is good, and I sleep well. I feel satisfied that your wonderful medicine has done more for me than any doctor could have done. I will take pleasure in recommending it to my friends as the best remedy in the world."

Draymen Resent an Accutation.

To the Editor of the Advantisan:

On reading the Free Press report of the Garner fire we are forced to believe that for some purpose an attempt is being made to cast suspicion on the draymen of the city—the rivals in business of Mr. Garner. This is scarcely fair to a body of 65 men, many of whom hardly know Mr. Garner, and, in fact, rarely see him or speak to him. While we do all not claim to be perfect, we think that, as a body, we will compare favorably with any other body of hardworking citizens. Many of us have held licenses and have resided and carried on business here for years, and our good names are as dear to us as they can be to other citizens. While we deeply sympathize with Mr. Garner in his loss, and are willing as we have ever been to help any one in distress, we think that, if he made the statements attributed to him, that he went out of his way to injure us without any cause or reason whatsoever. If Mr. Garner has had any trouble or dispute with one or more any trouble or dispute of the dray stand was about the removal of the dray stand was with Mr. O'Mara, and the afair was continued to the many of the dray than any way. Now, Mr. Editor, we wish it in any way. Now, Mr. Editor, we wish it in any way. Now, Mr. Editor, we wish it in any way. Now, Mr. Editor, we

At the World's Fair.

To the Editor of the Advertiser:
As so many of our civizens are interested in knowing whether the rumors regarding exorbitant prices in Chicago are true, I beg to offer a few words on the subject. Three weeks' experience shows me that one can live as cheaply at the World's Columbian Exposition as at the Toronto fairs. Lunch can be had as cheaply within the grounds as at the Grand Trunk lunch counters in our own city, with the advantages of sitting at a table, having an opportunity to rest and having your refreshments served in first-class style. Fifty cents admits you to all the exhibits on the main grounds. On Midway Plaisance you can spend as much as you choose by visiting the Irish village, the streets of Cairo and many other side shows. The grounds are fairly well provided with seats, where you can enjoy looking at gigantle steamers and the unmerous electrically-propelled boats and gondolas on the lagoon. Drinking tanks are to be found at short distances apart. In the fine arts department each provided with sofas, where you can sit and view at leisure. The hotel accommodation within a few you can sit and view at leisure. The hotel accommodation within a few blocks of the grounds is about ten times in excess of the present demand. Our old friend, Sam Grigg, at Hotel Manitoba (immediately across the street from the grounds, and only about 500 feet from two of the main entrances), has good rooms at from \$1 to \$15 per day, and meals in the from the sire of the city, as you are comparative, at 50 cents, or at the cafe at prices to suit, and it is far better to stop next the grounds than six miles away in the heart of the city, as you are comparative, fresh air from the lake.
