The Brotherhood of Engineers.
CHICAGO, Dec. 28.—About 250 dele have frequently been held in the east, but this is the first meeting including the engineers of all western lines and excluding all others. The delegates expect that the deliberations of the meeting will be greatly beneficial to the order of the brotherhood of locomotive engineers. None of the delegates could be induced to talk of the probable methods to be addopted by the convention, but judging from the remarks of several of the delegates, they do not feel kindly towards the Burlington road and the engineers employed by that company. In answer to a call issued by Chairman Cavanaugh of the general grievance committee of aine, appointed at the Richmond convention, will convene in this city to-day. In this committee is vested power and authority to settle the present difficulty between brotherhood and the "Q" railroad, and any arrangement made by this committee will be binding upon the brotherhood.
