

THE KAISER'S LATEST.

A Speech of His Which has Caused Considerable Press Comment.

Forced to Vindicate His Authority Against Those Who Question It.

BERLIN, Sept. 7.—The Post (Free Conservative) says of the Emperor's recent speech: "His declaration for religion, morality and order against the forces of the revolution, will find a loud echo throughout the land."

The National Zeitung (National Liberal) says: "We cannot sympathize with those who deny that anybody has the right to express his political opinions by parliamentary opposition."

The Radical journals have put out their nettles as usual. The Volkrecht Zeitung says: "The uly rather lives on the tree than protects it. When the storms come the tree does not require any ivy to protect it, if its roots have struck into sound ground. The speech does not reveal which party the emperor regards as the professional opponents of his government."

Another Capitalization. LONDON, Sept. 7.—A dispatch received by the Standard from Paris this evening says: "The issue of the new shares in the Panama Canal Company is fixed for the 18th. The capital is to be 65,000,000 francs, of which 5,000,000 will be handed to Colombia for prolonging the concession. Forty millions have already been disposed of by the liquidator, whose legal actions compelled the company to take up the amount, leaving about 20,000,000 to be subscribed. The shareholders and bondholders of the old company have preference rights to subscribe. The directors include representatives of the Crédit Lyonnais, Credit Industriel and the Societe Generale. The liquidator will hand over all the machinery, plant, etc. of the old company to the liquidation fund, getting in return fifty per cent. of the profits in the new one."

General Barrios, the special Nicaraguan envoy to Great Britain, presented his credentials at the Foreign office to-day. The general in an interview, said that legal documents were on their way to London which would show fully that the recent stories of British subjects and American citizens at Bluefields, Mosquito territory were fully justified. General Barrios said that Nicaragua was very anxious to form a "strong alliance with England," although he, the special envoy, was in no hurry to commence the negotiations. A rumor had been circulated that General Barrios is postponing the negotiations referred to in the hope that the Nicaraguan ship canal commissions would be sold to an English syndicate, which stroke of business, he reports, would "strengthen England's alliance."

AMERICAN NEWS.

KALAMA, Wash., Sept. 7.—Joseph M. Kuce, who has been confined in the county jail here for some time awaiting trial for the murder of John Keller, committed suicide by taking morphine. Jailer Webster said that at 4 o'clock in the morning he appeared all right, but at 7 o'clock he was found dead. A little later he discovered that something was wrong with him. Dr. Sims was called in without avail as he died about 7 o'clock, three hours later. A bottle containing a solution of morphine was found under his bed, also a paper containing morphine powder was found in his cell upon being searched. It is not known how he obtained the poison.

NEW YORK, Sept. 7.—The umbrella trust, which was organized about three years ago under the name of the United Umbrella Company, with \$5,000,000 capital, having branches in nearly all the large cities, went in to the hands of a receiver on July 16. Gladstone's Subscription. DUBLIN, Sept. 7.—The contributions made by Mr. Gladstone and Lord Tweedmouth to the Irish parliamentary fund are the subject of a letter which will appear in the Freeman's Journal to-morrow. The signers of the letter are William Murphy and Joseph Mooney, both directors of the Freeman's Journal. They decline to sanction the articles published recently in favor of accepting the votes of the based on the ground of refusing payment on account of suicide. A resolution was adopted sympathizing with the people of the burnt district in Minnesota, and directing \$200 to be sent to Governor Nelson for their aid.

Pythianism. WASHINGTON, Sept. 7.—At to-night's meeting of the Supreme Lodge of Knights of Pythias action was taken suspending the order of the endorsement committee, and approving the action of the board of control refusing payment on account of suicide. Francis Kossuth. LONDON, Sept. 7.—The Daily News correspondent in Vienna says that the Hungarian Government has refused to let Francis Kossuth stand for Parliament. The ostensible reason is that he is not a Hungarian subject.

FAST STEAMERS.

LONDON, Sept. 7.—Lord Brassey says in a long letter to be published in the Times to-morrow: "My friend, Mr. James Huddar, has asked me to assist him to put before the British public the advantages of an accelerated mail service between England, Canada and Australia. He argues that, even if Canada have a special interest in establishing a new trade and postal route across the vast Dominion, British interests are hardly less interested in the matter of communication between the colonies. Moreover, while Canada will find a large proportion of the money, all the expenditure to construct ships will be incurred by the United Kingdom. In assisting the scheme, conditions might be inserted requiring the conveyance at low rates of troops to Hongkong, and of relief crews to the Australian, Pacific and China stations. It might be insisted that the plans of the new ships insure their fitness for service as scouts and auxiliary cruisers. The subsidy might be partly made by a reduction of the amount now paid for mail services by other routes."

As regards the statement that the Gulf of St. Lawrence was difficult to navigate, Lord Brassey says: "The line has been free from disaster for many years. It is the present proprietors had been more of the same enterprise and with the same inducements to face risks in business as the founders of the line they would have put out vessels which would have been capable of earning the subsidy which has been granted to rival. The government ought not to make economy too far. High speed service can only be performed by subsidized steamers. Moreover, in the interests of imperial unity, when such a conference as the one at Ottawa talks for co-operation, it would be unwise to refuse. The decision in the whole matter largely depends on the Earl of Jersey's reports. If he recommends the subsidy no hesitation ought to be shown."

LONDON, Sept. 7.—(Special)—At the general annual meeting of the Bank of British North America to-day, Sir Richard Glynn, the chairman, said that the result of the last half year's business had been disappointing. DEBS' DELIVERANCES.

CHICAGO, Sept. 7.—Edwin Mulford and his stack of telegrams consumed the entire time yesterday in the contempt cases against the officers and directors of the American Railway Union. President Debs was in court early and remained throughout the proceedings. The following is a fair sample of the telegrams offered in evidence: "To E. B. Eldridge, Leadville, Colo. Do not be frightened by injunctions, arrests and troops. I have got a horse full of them. This is cowboy all over. This fight is now against the money power and combined hoodlums to annihilate Labor and enslave those dependent upon Labor, backed up by injunctions, arrests and troops. Children and childless men have no part in this. Only strong men and broad minds can free Labor. You in Colorado ought to understand what the gold money power means, and be willing to reject it, even to starvation. Injunctions and troops cannot operate therein, and there are no courts enough to fill one-twelfth of the vacant seats. There are 50 men quitting to every one returning. The general situation was never better than to-day. One hundred trades unions will strike for the railroad to-morrow. Will they not help themselves? The newboys have struck and boycotted the subsidized press. Let me return to work until the General Managers' Association agree in writing to renounce every man the country over. Good men will win this fight." (Signed) E. V. Debs.

The body of the telegrams and the signatures were both typewritten. It was sent under date of July 10, eight days after the Woods-Groscup injunction was issued. G. F. Crook, an employe in the Revue horse telegraph office, testified that the American Railway Union's secretary, Sylvester Kellner, paid for the telegram which had been read. When cheques were given in payment they were signed by Debs and Kellner.

Henry C. Raw, the inventor of a new method of making water gas, is in the city. The Lowe system, with its many modifications, was the system adopted before Mr. Raw's invention. By this method coke or anthracite coal was used for fuel, both very expensive. By Mr. Raw's discovery bituminous coal is used by direct heat, immediately utilizing the resulting coke for the manufacturing of gas and enriching the water gas by the coal being generated. Mr. Raw is making operations on a large scale to start gas works here on his system. He promises very cheap gas.

CABLE LETTER.

The Irish Parliamentary Party's Circular and the Letter to Mr. Gladstone.

Probable Upshot of the Triumph of Timothy Healy and His Friends.

LONDON, Sept. 8.—The explanations of Justin McCarthy and John Dillon in regard to their circular issued in the name of the Irish Parliamentary party appealing for funds, leaves the Healyites as greatly dissatisfied as ever. The executive committee of the Irish National League of Great Britain assume the responsibility for the issuance of the circular, but deny that they forwarded a copy of the letter to Mr. Gladstone or to any member of the ministry. Taking this denial for what it is worth, it is inexplicable in the face of the now well known fact that 12,000 copies of the circular were distributed. It was obviously a general appeal to the English Liberals to contribute to the cause of the Irish Parliamentary Party.

and Messrs. McCarthy, Dillon and O'Connor must have been cognizant of it. The event assumes the proportions of a matter of first importance as assisting Tim Healy to secure a seat in the next meeting of the Irish party, when the matter of selecting an executive officer to succeed McCarthy, will be voted upon. Mr. McCarthy is certain to retire from the presidency as the expiration of his term and Healy has it in his power to name his successor if not to debate the office himself. Mr. Sexton maintains a discreet silence in regard to the new turn of affairs and the belief is becoming general that his reticency is due to the fact that he has discovered that he compromised himself by his assertion in the course of debate in the House of Commons that neither to the government nor any wealthy English partisan of Irish Home Rule was any member of the Irish party indebted for a pension, nor will any of them ever be. This declaration is the source of sarcastic comment on the part of

PANAMA CANAL.

LONDON, Sept. 7.—The Daily News comments thus on the prospect that work on the Panama canal is to be resumed: "The good will of the concern as it stands cannot be worth anything, nor are American or French capitalists the sort of people to pay overmuch from sentiment. If \$20,000,000 can complete the work, there seems to be no reason why commercial success should not dawn on the enterprise at some distant day."

Would Not Sell With a Japanese.

SAN FRANCISCO, Sept. 6.—If the attitude of the Korean minister, who is in this city, toward the two Oriental powers now engaged in war is any indication of the feeling which Korea entertains for its neighbors, then Korea is the firm friend of China. The Korean minister, Soo, arrived here from Washington City a few days ago on his way home. He had intended to sail on the China, but he became ill and had to postpone his departure. He declined the services of an American doctor, and also spurned the services of a Japanese physician who offered to attend him. Feet in a Block.

Foot's Sarsaparilla is peculiar to itself, in a strictly medicinal sense, in three important particulars, viz: first in the combination of its ingredients; second, in the proportion in which they are mixed; third in the process by which its active curative properties of the ingredients are secured. These three important points make Foot's Sarsaparilla peculiar in its medicinal use, as it accomplishes cures hitherto unknown.

Elections the Latter Part of October—Natives Continue to Register.

Royalist Commissioners to Washington Say They Have Assurances From the President.

(United Press Report per S. S. Warrimoo.) HONOLULU, Sept. 1.—The President and cabinet have appointed the election of the legislature to take place on October 29. Registration is in active progress. In some districts the natives have registered in considerable numbers. In a majority of the districts not more than 10 per cent. of the native voters have come forward. They are waiting to know whether the Queen is to be restored. Two months remain for registering. The government will use all possible means to make the natives understand that the Queen can have no hope for help from Washington.

Notwithstanding President Cleveland's recognition of the Republic of Hawaii, respectable native papers continue to assure the people that the Queen will certainly be restored.

The Royalist commissioners arrived back from Washington the 30th. They are very reticent, but permit the idea to go forth that they have valuable private assurances in the Queen's favor. It is believed that they will soon make known the fact that their mission has proved that no hope of her restoration remains.
