The people of the United States, if they are not the greatest hypocrites in the world, must be both surprised and surprised and surprised and surprised from the purpose of exploration of the purpose of exploration in the interior of the island, called the Lion's Head. The expedition started from the ship on Wednesday, the 5th inst. Natives from different parts immediately rushed on them with tomahawks and clubs, but, as triple alliance, not for Great Britain, to heavy club. This native at the time the attack took place was attempting through the medium of signs to induce the lieutenant to give up his revolver in ex-change for his club, which I understand was a very tine weapon. The sailors being prepared with their rifles, at once opened fire upon the attacking party, and after a few minutes put them to flight. A considerable number of natives were shot in this affray, but it is
