Nocal Rews.

PROPOSED INSTITUTE.—A number of the Methodist people propose organizing a Musical and Literary Institute, to meet weekly Mauger for her readings, to Mr. C. H. during the winter months.

St. Andrew's Society Dinner.—Next Monday evening, the members of Saint Andrew's Society of this city, are to celebrate the day of their patron Saint by having a dinner at the Waverly House.

It may be interesting to a number of our readers to learn that the Frélexicton Curining Club is the oldest institution of the kind in the Maritime Provinces, having been organized, Dec. 16th, 1854. There were present at that meeting, Wm. A. McLean, at that time High Sheriff of York Co., now deceased, John McInnis, Esq., Alex. McKilligan, Alex. Smith, John F. Taylor, Rob. Thorburn, who is yet an active curler and one of the skips of the Club this season, John Neill (father of James S. Neill) and Thomas Ruddock.

UNIVERSITY CONVERSAZIONE.— The students of the University held a very successful Conversazione last Saturday night in their Debating Hall, and during the evening were honored by the presence of a number of visitors, including Dr. Jack and Prof. Fletcher. The programme consisted of S. S. Allan, '20, A. W. Wilkinson, '80, and J. McMillan, '80, which are spoken of a fine efforts. Mr. W. Q. Ketchum, '82, read his "Imitation Sketches" to the great delight of the audience, and the instrumental music of Messars. Russell, '82, Cowperthwaite, '82, Hannington,' '80, Devitt, '81, and Grant, '81, reflected credit on those young getlemen, Messrs. Cowie, '82 and Minigomery, '81 gave select readings, and F. McLeod sang two solos which were entertaining parts of the programme. The good old choruses "Balm in Gilead," "Old Grines," and "Alma Mater were admirably sustained by the company, and in fact the whole entertainment was well worthy the talented, jolly lot of fello "se that compose the University classes of 1879.

Y. M. C. A. Annual Mesting of the Y. M. C. A. held on the series of the series and the regime already mentioned, band carmed dillers, terraine latures and mentaged and conditions are given by the presence of the fellows that compose the University classes of 1879.

Which were successfully carried out a series of the programme of the successfully carried out a series of the programme of the successfully carried out a series of the successfully carried out and the work of the successfully carried out and the

The membership of the Association now numbers 80. After the transaction of minor business the financial question was discussed, the general opinion being that as a public Institution the Association does not receive the support and encouragement from the citizens that it is entitled to. The Association is considerably in debt, and to assist in clearing it off the following resolution was unanimously passed:

Machine Shop—Eleven men, with Gordon Kelley as foreman.

waring it on the system of the supporters of the Maculine Corp.

Kelley as foreman.

Foundry—Eleven men; Alex. McKenzie

"That the Financial Committee be directed to make an appeal to the supporters of the Association in order to ascertain whether any considerable sum towards the liquidation of our present debt can be obtained, and further resolved that if the Committee of management thus received as insufficient they be requisted to let our rooms on the 2nd flat and move to the hall above."

We trust the appeal of the Association will be heard by our citizens. Such an Institution is certainly deserving of the warmest support. Apart from the moral influence it exerts in the community it extends, privileges which are found no place size in the city. A free reading room supplied with all the daily and weekly newey papers of the Province, the most prominent American weeklies and visited by large numbers every lay in the week (Sunday excepted). To maintain this requires a large sum and taxes the revenues of the Association quite heavily. We again express the hope that the Institution will receive a more liberal support than hitherto.

James Torrance has charge of the tin department; and Harry Perkins is teamster, and Moses Pond night-watchman. Peter Mc-Farlane makes the mowing-machine wheels during the winter, and travels for the firm in summer,

The firm say that they made during the part season 150 mowers, 178 rakes, 40 cultivators, 260 plows, and 15 Whitby Harvesters. Next year about the same amount of agricultural implements will be constructed; perhaps, however, there will he an increase, elepending altogether upon the financial condition of the times.

Notwithstanding the strong competition the firm have to encounter, they are getting along successfully. Their enterprise should

Ing to the Penitentiary, Eastern Extension, etc.

B. W. Foster of Mangerville, left here yesterday morning for Colorado, intending, if all goes well, to take up his abode there. We often wonder what leads young men, so comfortably circumstanced as Mar Foster was to leave their homes and friends and seek a clime entirely unknown to them and in many less forbidden. The hardships that so many undergo in Colorado and other Western States and Territories, should be an example to our young men and should be the means of keeping them at home rather than of driving them to the inhospitable Countries we have spoken of.

Special Colorado intending, Children, the Aged and Infirm, alike, are benefitted by the Strengthing and Blood the Ming Power of "Hanington's Quining Wine and Iron." It stimulates the circulation, improves the Appetite; and removes all impurities from the Blood. It is the best medicine you can take to give you lasting Strength.

The Hornible, Unsightly, Blotches and PIMPLES, and the Sallow, Colorless Complexion can be Quickly and Expectually replaced, by a Clear Healthy skin. The remedy is CERTAIN and EASILY PROCURED, and is simply "Hanington's Quining Wine and Iron." It stimulates the circulation, improves the Appetite; and removes and impurities from the Blood. It is the best medicine you can take to give you lasting Strength.

The Hornible, Unsightly Colorless and PIMPLES, and the Sallow, Colorless Complexion can be Quickly and Expectually and Pimples and Pimpl

University Examination.—The terminal examinations in the University commence on Monday, the 15th of December, and continue until the following Wednesday. The public oral examination will be held on the 18th prox.

THE NEW BRUNSWICK FOUNDRY.

Our reporter called at the New Brunswick Foundry, King street, yesterday, and was shown through the establishment by one of the present firm

The pr

Much of the machinery used in the Foundry is of the firm's own manufacture. This includes the engine already mentioned, band saws drillers, turning latnes, planers, and other inferior machines. These articles are also made for sats. The buildings themselves are large and convenient, and are heated throughout by steam-pipes. The wood used in the manufacture of the agricultural implements, with the exception of the hickory out of which the wheels of the rakes are constructed, is procured here. The steel comes from England, the iron from Scotland and Londonderry, N. S. and nearly all the

we stern young men and should be the means of keeping them at home rather than of driving them to the inhospitable Countries we have spoken of.

Special Notice,

While we have contracted, and are yet willing to contract, for long time advertisements at low rates, we beg to remind our patrons that the rates for transient advertisements will be strictly for other to hereafter, viz:—six cents per line for each subsequent one. Twelves lines make one inch in length, and customers will bear this in mind when sending their orders.

No family in this broad land should undertake to keep house without fainson's Anordyne Liniment, many have tried to but failed. It is worth more to a family than a whole medicine chest.

The most contemptible fraud that has been practiced upon farmers and others in the last few years is the selling of immense picks of worthless horse and cattle powders. There is only one kind now known in this country that are unadulterated and those are Sheridan's.
