

TO NEWSDEALERS,

Orders for EXTRA WORLD on DOMINION DAY should be sent in To-Day.

THE TORONTO WORLD

AT 1000 MORNING, JUNE 25, 1888.

The Fee Given Away by a English Prince.

Among the items in the estimate of expenses for the Duke of Edinburgh's special mission to Moscow is £1000 for "gratification."

People who think that this amount is excessive will probably change their opinion on learning that when the Duke of York visited the Queen at Windsor castle in 1844 he gave £2000 to the servant and £1000 to the housekeeper, as well as six gold snuff boxes, with his picture on it, and six to the lords of the household, and six to his aldermen to the equeries and the press in waiting.

These were the chief gifts for the dependants about a vessel of rings, watches and brooches were distributed. When the late Emperor Napoleon stayed at Windsor in 1855 he left £1500 for the servants.

The Favorite Cure.

Devil's Spleen. A billious mixture for biliousness, sick headaches, constipation, etc.

A subscription-book publisher says that out of a thousand book agents he only finds about ten who are worth retaining after a month's trial.

We suppose that the other 990 become too much crippled up to keep on working.

A New York regiment in camp in Peekskill threatened to revolt if they were not furnished with napkins.

One cannot conceive of a more thrilling and striking picture of the "horrors of war" than a soldier without a napkin—unless it may be a corporal with a dollar store scarf pin.

A Georgia girl is weeping over four acres of pine on her own raising, and no young men will come to weep with her.

"Throw Away her Supporter."

Dr. PIERCE: A neighbor of ours was suffering from "female weakness," which the doctor could not be cured without the "Favorite Cure."

After considerable treatment with this cure she was cured.

Her friends and acquaintances will please accept this testimonial.

CLUTHE'S PERFECTED TRUSS

Rupture cured.

Latest Patent, U. S. and Canada, Dec. 20, 1882.

There is hardly any other disease which so undermines the health and happiness of hundreds of thousands of families as Hernia, or Rupture. It increases to almost every household as a woman; it causes nervous debility, impairs memory, anticipates the work which it creates a relation of life in domestic circles, and inspires devotion to the most sacred institution of marriage, morality, etc.

In addition to the above it especially affects men, both physically and socially, of all ages and positions. It destroys energy, and wears out the human machine quicker than age or labor.

Sufferer, for Wm. Rupture as well as deformity, can only be cured by mechanical treatment. After the doctor has failed to heal your Rupture, stop you have tried your doctor's stock and "Lumbricals," and failed. Rupture always increasing instead of decreasing. I say come to or write to me, and I will do for you all I can.

Mr. H. Philadelphus Costello, and first prize whosoever exhibited. Nineteen years' material experience, 12 years established in Canada, thorough acquaintance with the Anatomy of the Human Frame, national individual attention has made me a perfect master of this profession, and every body Ruptured or Deformed should and must turn for help on his own side and the Human Frame, containing valuable information, registered by a notary public, and in the name of the Human Frame, and sold by Charles Cluthe & Co., 115 King Street West, Toronto.

We wish, no rubber. Really Perfect. Call about the 9th of July, as it will take all that time to all standing orders on improvements.
