THURSDAY MORNING, FEB. 19, 1885.

An American Labor Bill.

A very formidable agitation for the protection of some labor laws in the United States, and it is likely to grow in strength as time rolls on.

The bill was debated in the senate on Friday last, and elicited some pretty strong expressions of opinion.

A letter to the president of the senate from the grand master works their views on the labor law was read, saying that while the senate was throwing away its time talking about the late conference, there were bills of the highest importance awaiting its consideration.

The other day we mentioned Messrs. Hewitt, Carlisle and Randall as likely candidates for the post of secretary of the treasury in Mr. Cleveland's cabinet.

Albany. Mr. Manning has the reputation of being a very influential "boss" among the democrats, and it is said to have done more than any other man to secure Mr. Cleveland's nomination at Chicago.

The Cost of Ship-Rollings. It has been estimated that the monthly working expenses for a vessel of one thousand tons with a crew of twenty men, under the flag of various nations, are:

Table with 2 columns: Nationality, Cost. American \$1000, British 725, French 675, German 675, Italian 475.

These figures are very suggestive with regard to differences in wages in the countries indicated.

A Pointer on Reciprocity. In the report of the minister of marine and fisheries is included one from Lieut. Gordon, who commanded the Hudson's bay expedition of last summer.

He pronounces the fisheries of the bay and straits under the flag of various nations, are: American \$1000, British 725, French 675, German 675, Italian 475.

The Trades and Labor Council. Editor World: Wouldn't it be a good idea if the Trades and Labor Council, instead of talking and reporting to much, were to make up tables showing the number of unemployed in Canada, have each reported up to the water about the local authority and transmit the whole to Ottawa and to the colonial secretary in Downing street?

A Biscuit Water Law. Editor World: Will you inform your readers where we are drifting. It is not enough that citizens are dragged before the magistrate for non-compliance with the sidewalk cleaning law.

A Valuable Patent. The most valuable discovery patented in modern times is that of the best blood purifier and liver and kidney regulator known.

The Erie line short Ripon City, fifteen days out from New York for Newcastle, arrived at Halifax Monday night with her bows smashed by ice and leaking.
